Summary of our Analysis and Conclusions

An explanation of the relative importance the firm gave to the execution factors of price, costs, speed, and likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution

In order to achieve “best execution” result we take into account the following factors but as each trade is unique the relevant importance of the factors variable;

- Price
- Overall cost of transaction, including brokerage fees
- Speed of execution
- Quality of execution and settlement
- Liquidity of the market (which may make it difficult to even execute an order)
- Size of transaction
- Nature of transaction
- Market access i.e. the range of potential execution venues made available.
- Whether it is executed on a regulated market or over-the-counter
- The quality of the business relationship
- Method of communication
- Any other consideration relevant to the execution of the order

A description of any close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders.

VIML does not have any close links, conflicts of interest or common ownerships with respect to any execution venues used to execute orders.

A description of any specific arrangements with any execution venues regarding payments made or received discounts, rebates or non-monetary benefits received.

VIML does not receive any payments discounts rebates or non-monetary benefits in its trading relationships.

An explanation of the factors that led to a change in the list of execution venues, if such a change occurred.

There has been no change to the list of execution venues during the period of this report, although they are kept under review.

An explanation of how order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements.

All clients are treated the same.

An explanation of whether other criteria were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client.

VIML does not execute any retail client orders.
