

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

- Capital risk: Some or all of the annual management charge is taken from the capital. This may constrain the potential for capital growth.
- Investment risk: The Fund invests in other funds, which may increase losses due to restriction on withdrawals, less strict regulation, use of derivatives, or investment in risky assets such as property or commodities.
- Emerging market risk: The Fund may be exposed to emerging markets which are less established and more prone to political events than developed markets. This can mean both higher volatility and a greater risk of loss to the Fund than investing in developed markets.
- Derivative risk: Certain derivatives may result in gains or losses that are greater than the original amount invested. Derivatives also involve counterparty risk, which is the risk of a counterparty not meeting its contractual obligations as part of the derivative contract. It also involves leverage risk, which arises from entering into derivatives contracts whose terms have the effect of magnifying an outcome, meaning profits and losses from investment can be greater.
- Currency risk: The Fund invests in assets denominated in currencies other than the Fund's base currency. Changes in exchange rates may have a negative impact on the Fund's investments.
- Liquidity risk: Any security could become hard to value or to sell at a desired time and price, increasing the risk of investment losses.
- The full list of the Fund's risks is contained in the "Risk Factors" section of the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year
