

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT SG UK Defined Return Assets Fund (the "Fund")

a sub-fund of VT SG Defined Return Assets ICVC (the "Company")

Class A – Accumulation Shares (ISIN: GB00BDZRYK47)

The authorised corporate director (and investment manager) of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The investment objective of the Fund is to generate capital growth over the long term.

The Fund will seek to achieve its objective primarily via exposure (indirectly by way of a total return swap) to a portfolio of defined return investments, namely twelve rolling six year autocalls (each of which will have a potential maturity date on a different calendar month each year) which are designed to provide a defined return if the FTSE 100 is at, or above, a predefined level on a specified date. Capital is at risk and there is no guarantee that a positive return will be achieved over a 12 month, or any, period.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of one or more underlying assets) will be used for purposes of meeting the Fund's investment objectives and may be used for efficient portfolio management purposes.

The Fund may also invest in transferable securities, bonds, money market instruments, deposits, cash and near cash.

Any income from the Fund will be re-invested to grow the value of your investment.

You can buy and sell shares in the Fund on any business day.

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower risk ← Higher risk
Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 4 because monthly historical performance data indicates that it has experienced average rises and falls in market prices historically.

The following risks are material in addition to the risks captured by the indicator above:

- **Counterparty risk:** The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- **Market Risk:** External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- **Liquidity Risk:** adverse market conditions may affect the ability to sell certain assets when necessary.
- **Concentration Risk:** The Fund may hold a small number of investments and may therefore be subject to larger than normal movements in its value.
- **Derivatives Risk:** use of derivatives may result in gains or losses that are greater than the original amount invested.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0%
Exit charge	0%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing charges	0.50%

Charges taken from the fund under certain specific conditions	
Performance fee	Nil

As the Fund was only launched in January 2018, the ongoing charges figure shown here is an estimate of the charges and may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see sections 3.6 & 7 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

Past Performance

Past performance is not a guide to future performance.

The share class and Fund were both launched in January 2018. Accordingly, there is insufficient data to provide a useful indication of past performance to investors.

Performance is calculated in Pounds Sterling.
