Non-UCITS Retail Scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT Tatton Oak Advanced Fund (the "Fund") a sub-fund of VT Tatton Oak ICVC (the "Company") Class A Accumulation Shares (ISIN: GB00B63B9G08)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The investment objective of the Fund is to achieve capital growth over the medium to longer term, which is well in excess of normal cash deposit savings rates.

The Fund will achieve its investment exposure by investing in collective investment schemes such as unit trusts, OEICs and other UCITS funds and closed ended schemes but may also invest in individual stocks and bonds.

Through these investments, the Fund will seek exposure almost exclusively to UK and international equities but with core holdings in UK securities. Further exposure to other asset classes such as commodities, property and private equity, listed and/or traded on both UK and international stock exchanges will also be gained, either directly or indirectly as appropriate. Foreign currency exposure through non-UK investments may be hedged back into £-Sterling.

This diversified portfolio of investments should aid in reducing short term fluctuations in value i.e. in achieving the Fund's return objective with reduced volatility of shorter term returns, when compared to a pure global equity fund.

The Fund may also invest, at the ACD's discretion, in other transferable securities, money market instruments, cash and near cash, deposits and any other permitted asset type deemed appropriate to meet the investment objective. The Fund may use derivatives for the purposes of efficient portfolio management.

You can buy and sell shares in the Fund on any business day.

Any income from the Fund will be re-invested to grow the value of your investment.

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower risk				Hi	Higher risk		
Typically lower rewards			ls Ty	Typically higher rewards			
	1	2	3	4	5	6	7

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 4 because monthly historical performance data indicates that average rises and falls in prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Currency Risk: As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.
- Derivatives Risk: use of derivatives may result in gains or losses that are greater than the original amount invested.
- Exchange Traded Funds: The Fund may invest in exchange traded funds. Exchange traded funds represent a basket of assets and derivatives contracts that may be traded on an exchange and may not necessarily trade at the net asset value of their underlying holdings. As a result they may trade at a price that is above or below the value of the underlying portfolio.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in `Practical Information` overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest			
Entry charge	5.00%		
Exit charge	None		

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year				
Ongoing charges	1.62%			

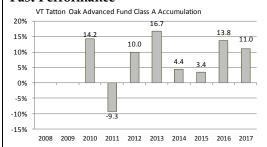

Charges taken from the fund under certain specific conditions				
Performance fee	None			

The ongoing charges figure is based on expenses and the net asset value as at 1 September 2018. This figure may vary from year to year. The ongoing charges are taken from the capital of the Fund. It excludes portfolio transaction costs. The Fund's annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see section 7 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart shown opposite is inclusive of tax and charges, but excludes the entry charge that may be paid on the purchase of an investment.

The Fund was launched in March 2009.

Performance is calculated in pounds sterling.

On 31 August 2018 the Fund changed its name from FP Tatton Oak Advanced Fund to VT Tatton Oak Advanced Fund and past performance prior to 31 August 2018 was achieved under the Fund's former name.

Practical Information

The depositary for the Fund is National Westminster Bank Plc.
