

**Statement by the Authorised Fund Manager (AFM) to the shareholders of VT Chelsea Managed Aggressive Growth Fund on the outcome of the AFM's assessment of the value provided to shareholders**

For the period ended 30 June 2020

This assessment is to establish what VT Chelsea Managed Aggressive Growth fund (the Fund) has delivered to you in return for the price you have had to pay.

The AFM is the Authorised Corporate Director of the Fund, Valu-Trac Investment Management Limited (Valu-Trac). The Investment Adviser is Chelsea Portfolio Management Services Limited.

The Fund was launched on 5 June 2017.

The investment objective of the VT Chelsea Managed Aggressive Growth fund is to generate capital growth over the long term (5 years).

The Fund is expected to follow an aggressive strategy with investment primarily (70% +) through collective investment schemes (including those managed or operated by the ACD) so as to provide a high level of exposure (up to 100%) to higher risk assets such as equities and lower level of exposure to lower risk assets such as cash. There may also be indirect exposure to commodities (and from time to time other alternative asset classes such as infrastructure) through other collective investment schemes (including exchange traded funds).

The Fund may also invest directly in transferable securities, equities, bonds, money market instruments, cash and near cash.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) may be held for efficient portfolio management purposes.

There will be no particular emphasis on any industrial, geographic or economic sector.

In carrying out the assessment of value the following criteria were considered:

### **1. Quality of service**

The AFM considers that a good level of service was provided to shareholders by all parties involved commensurate to the amount paid by the Fund for those services. The AFM monitors the following operational services:

Depository – NatWest Trustee and Depository Services Limited

Custodian – RBC Investor Services Trust, UK branch (RBC)

The external audit is conducted by Johnston Carmichael LLP.

These services are essential in ensuring that the Fund operated efficiently and in the case of the Depository and Custodian the service is supervised on an on-going daily basis by the AFM. As a shareholder this means that you can be certain that your requests such as investment and redemption of the Fund's units will always be carried out exactly as set out in the documentation.

Valu-Trac does not delegate any of the core functions of the Fund such as fund administration, fund accounting and transfer agency. This means that the AFM directly employs and supervises the individuals who are carrying out this work and that those undertaking the work are appropriately qualified and experienced. Due to this high level of supervision and control of these functions the AFM believes that the shareholders can be certain that their instructions will be carried out efficiently and that the reporting they receive is timely and focused.

### **2. Performance**

The AFM has assessed performance of the Fund net of all the charges that are outlined in its prospectus. The objective of the Fund is to generate capital growth over the long term (5 years). The Fund has only been in existence for three years one month so the performance for 2020 is presented below along with the results for that period.

To show long-term capital growth, the total returns generated are shown on the table below this is after operating costs, including the fee paid to the investment manager, and transaction costs.

	<b>2020 performance</b>	<b>Annualised performance for 3 years 1 month</b>
Class A GBP Net Accumulation	3.34%	5.60%

### **3. AFM costs - general**

The costs (in £) charged during the period ended 30 June 2020 were as follows:

Investment manager's fee	80,803 (VAT exempt)
ACD fee	28,340 (VAT exempt)
Depository fee	21,041 (VAT inclusive)
Audit fee	7,000 (VAT inclusive)
FCA fee	87 (VAT exempt)
Safe custody and transaction fees	5,660 (VAT inclusive)
<b>Total costs</b>	<b>142,931</b>

Income for the period (capital and revenue) less costs was £821k; there was taxation of £2k.

There were no preliminary charges, redemption charges or dilution levies paid by shareholders during the year.

The ACD's policy is that it may require a dilution levy on the purchase and redemption of Shares if, in its opinion, the existing Shareholders (for purchases) or remaining Shareholders (for redemptions) might otherwise be adversely affected. For example, the dilution levy may be charged in the following circumstances: where the Scheme Property of a Sub-fund is in continual decline; on a Sub-fund experiencing large levels of net purchases relative to its size; on "large deals" (typically being a purchase or redemption of Shares to a size exceeding 5% of the Net Asset Value of the relevant Sub-fund); in any case where the ACD is of the opinion that the interests of existing or remaining Shareholders require the imposition of a dilution levy.

### **Economies of scale**

As well as offering their service to VT Chelsea Managed ICVC, the funds can also take advantage of the rates Valu-Trac has agreed with its suppliers such as its Custodian and Depository services, which as the funds and AFM grow could see further reductions in the costs of such items. An example of this is the change in custodian from BNYM to RBC providing better cost efficiency.

### **4. Comparable market rates**

The AFM has compared the charges of this Fund with that of comparable funds. The AFM believes that the shareholders of the Fund are achieving efficient market rates as a whole. As the AFM assets grow in total it continues to strive for extra efficiencies wherever this can be achieved for all of its schemes.

### **5. Comparable services**

The services provided to this Fund and the costs are also comparable amongst other similar funds operated by the AFM, and is aligned with its normal operating model.

## 6. Class of units

The annualised operating charge for the single class of shares over the past 3 years is as noted below.

	At and for the period ended		
	30 June 2020	30 April 2019	30 April 2018
Operating charges	0.53%	0.60%	0.47%

The investment management fee is charged at 0.3% of the fund value.

## CONCLUSION

In taking all of these criteria into consideration the AFM concludes that in assessing whether the payments out of the scheme property as set out in the prospectus are justified in the context of the overall value delivered to shareholders; that the shareholders of VT Chelsea Managed Aggressive Growth are receiving good value.
