

## Non-UCITS Retail Scheme - Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### VT ASSET INTELLIGENCE GROWTH FUND (THE "FUND")

a sub-fund of VT Asset Intelligence Fund Solutions ICVC (the "Company")

CLASS R (€)- ACCUMULATION SHARES (ISIN: GB00BM9GMG29)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

#### Objectives and Investment Policy

The objective of the Fund is to achieve capital growth over the long term (7 years) whilst also providing some income.

The Fund will seek to achieve its objective by investing predominantly (at least 80%) in collective investment vehicles (including funds managed and/or operated by the ACD, Investment Manager or sub-advisor) which provide exposure to a variety of assets but mainly (i) equities; and (ii) debt securities (investment grade and sub-investment grade). Equity exposure within the portfolio (which is indirect) is typically expected to be around 80-90%. At any one time, a large proportion of the Fund may be invested in collective investment vehicles managed by the sub-advisor.

The Fund may also invest directly in equities, debt securities, money market instruments, deposits, cash and near cash.

The Fund may hold derivatives only for efficient portfolio management purposes.

The Fund will not have any particular geographic, industry or economic sector focus and as such weightings in these may vary as required.

The Fund will be actively managed.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) may be used for efficient portfolio management purposes.

You can buy and sell shares in the Fund on any business day.

Income from the Fund will be added to the value of your investment.

The Fund may be suitable for investors who are willing to invest over the medium to longer term (7 years).

For full investment objectives and policy details please refer to the prospectus.

#### Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 5 because monthly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Currency Risk: Movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.
- Derivatives risk: use of derivatives may result in gains or losses that are greater than the original amount invested

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

## Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	0.00%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing Charges	1.25%*

Charges taken from the fund under specific conditions	
Performance Fee	N/A

The ongoing charges figure is based on expenses and the net asset value as at 29 December 2023. This figure may vary from year to year. It excludes portfolio transaction costs. The Fund's annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see sections 3.6 & 7 of the prospectus, together with Appendix 1 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

*\*The Investment Manager of the Fund has undertaken to absorb any costs (excluding underlying collective investment undertaking holding charges) that would otherwise cause the Fund to have ongoing charges in excess of 0.95%. In the absence of such commitments the ongoing charges figure would be 1.30%.*

## Past Performance

### Past performance is not a guide to future performance.

The past performance in the chart shown opposite is net of taxes and charges but excludes the entry charge that may be paid on the purchase of an investment.

The Fund launched on 15 December 2020 and the share class on 17 December 2020.

Performance is calculated in Pound Sterling.

## Practical Information

The depositary for the Fund is NatWest Trustee and Depositary Services Limited.
