

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## VT Avastra Global Diversified Assets Fund (the "Fund") (a sub-fund of VT Avastra Funds) Class GBP Accumulation (ISIN: GB00B62WJ318)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

### Objectives and Investment Policy

The objective of the Fund is to deliver positive (absolute) returns (net of fund costs) (in a rolling 3-year period) in any market conditions. Capital is at risk and there is no guarantee that positive returns will be achieved over a three year, or any, period.

The Fund is actively managed and will invest, without preset limits, across a broad range of asset classes, geographies, and investment strategies. The Fund will normally be fully invested but may hold substantial cash or near-cash when market conditions (such as significant volatility or unattractive asset valuations) warrant a more defensive stance.

The Fund will invest (directly or indirectly) in collective investment schemes (including exchange traded funds and investments trusts), transferable securities (including structured products), and money market instruments, deposits and cash. Through these investments, the Fund will gain direct or indirect exposure to a wide range of asset classes and strategies, including: property related securities, infrastructure related securities, commodities (exposure will be gained through eligible instruments), precious metals (exposure will be gained through eligible instruments), hedge funds, targeted absolute return funds, currency strategies, equities, fixed-income, convertible bonds and other diversified return drivers. The Fund may also invest in listed securities providing indirect exposure to private markets and other non-traditional asset classes, subject to UCITS investment restrictions.

There are no restrictions on the type of investments held, or on geographic or sector exposure. The fund manager retains discretion to adjust allocations as required, including holding cash and near cash assets.

Foreign currency exposure may be hedged back to the base currency.

The Fund can use derivatives or forward transactions (instruments whose returns are linked to another asset, market or other variable factor), for efficient portfolio management (EPM) purposes including the reduction of risk (hedging). The Fund may also invest in other funds which are permitted to use derivatives to varying degrees (i.e. for investment purposes or EPM).

The Fund will be actively managed.

Income from the Fund will be added to the value of your investment (i.e. dividend income will be included in the value of your shares).

You can buy and sell shares on any business day in London.

For full investment objectives and policy details please refer to the prospectus.

### Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 4 because historical performance data indicates that average rises and falls in market prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- **Counterparty risk:** The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- **Market Risk:** External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- **Currency Risk:** As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- **Liquidity Risk:** adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.
- **Derivatives risk:** use of derivatives may result in gains or losses that are greater than the original amount invested

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

## Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing charges	0.54%

Charges taken from the fund under certain specific conditions	
Performance fee	N/A

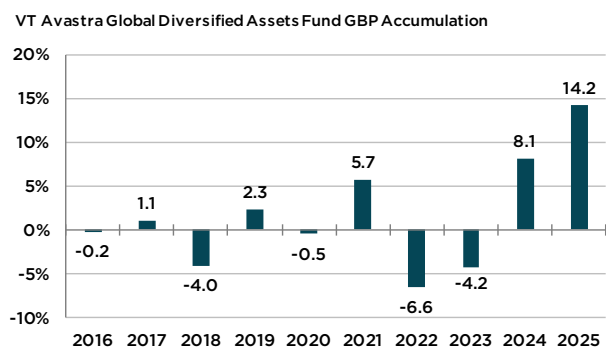

The ongoing charges figure is based on expenses and the net asset value as at 15 May 2026. This figure may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the Fund, this is to cover costs associated with your transaction.

For more information about charges, please see the prospectus which may be obtained free of charge from the address in 'Practical Information' below. The Funds annual report for each financial year will include detail on the exact charges made.

\*The Investment Manager of the Fund has undertaken to absorb any costs that would otherwise cause the Fund to have ongoing charges in excess of 0.75%, informally.
