

VT Cantab Global Equity Fund ‘A’ Class

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT Cantab Global Equity Fund (the “Fund”) a sub-fund of VT Cantab Funds ICVC (the “Company”) A Accumulation Shares (ISIN: GB00BK5XL008) A Income Shares (ISIN: GB00BK5XKZ82)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The investment objective of the Fund is to provide income and capital growth over the long term (5 years +).

The Fund aims to achieve this objective by investing at least 80% in a diversified portfolio of shares in companies in any geographical location. The Fund may also invest in other transferable securities such as government bonds and corporate bonds, collective investment schemes (including those managed or operated by the ACD), money market instruments, deposits, cash and near cash. Derivatives (that is sophisticated investments linked to the rise and fall of one or more underlying assets) may be used for efficient portfolio management purposes.

A key element in portfolio construction is an assessment of investee companies' approach to environmental, social and governance (ESG) issues (e.g. whether they pay due attention and consideration to ESG concerns and demonstrate this through ESG policies and practice). Investments will only be made in companies which the Investment Manager considers make a positive contribution to environmental, social and/or governance matters and so help in the development of a sustainable global economy. Companies involved in industries such as the production of fossil fuels, alcohol and tobacco, gambling or controversial weapons are automatically excluded from the investment universe.

It is expected that the portfolio will be relatively concentrated (typically around 30-39 stocks).

The Fund seeks to generate income and capital growth with a robust and disciplined investment process that focuses on investing in companies typically offering an attractive combination of growth, profitability and stability and holding them for the long term (5 years +). Companies involved in industries such as the production of fossil fuels, alcohol and tobacco, gambling or armaments are excluded from the investment universe.

You can buy and sell shares in the Fund on any business day.

If you hold accumulation shares, income from the Fund will be added to the value of your investment.

If you hold income shares, any income from the Fund will be distributed twice a year.

Recommendation: The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund will be actively managed.

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 5 because monthly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Currency Risk: As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.
- Derivatives risk: use of derivatives may result in gains or losses that are greater than the original amount invested.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing Charges	1.00%*

Charges taken from the fund under specific conditions	
Performance Fee	N/A

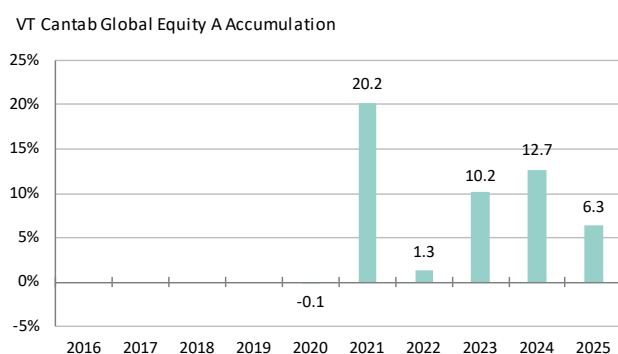

The ongoing charges figure is based on expenses and the net asset value as at 15 May 2026. This figure may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

*The Investment Manager of the Fund has undertaken to absorb any costs that would otherwise cause the Fund to have ongoing charges in excess of 1.00%, informally. In absence of such commitment, the ongoing charges figure would be 1.01%

For more information about charges, please see sections 3.6 & 7 of the prospectus, together with Appendix 1 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart shown opposite is inclusive of tax and charges but excludes the entry charge that may be paid on the purchase of an investment.

The share class and Fund both launched on 17 December 2019.

Performance is calculated in Pound Sterling.

Please note, the investment policy and name for the Fund changed on 1 November 2024.
