

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT Chelsea Managed Cautious Growth (the "Fund") a sub-fund of VT Chelsea Managed ICVC (the "Company") Class A GBP Net Accumulation Shares (ISIN: GB00BF0NMV81) Class A GBP Net Income Shares (ISIN: GB00BF0NMW98)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The investment objective of the VT Chelsea Managed Cautious Growth fund is to generate capital growth over the long term.

The Fund is expected to follow a relatively cautious strategy with investment primarily through collective investment schemes (including those managed or operated by the ACD) so as to provide a high level of exposure to asset classes which the ACD considers to be lower risk including cash, fixed income and assets following absolute return strategies.

The Fund may also invest directly in transferable securities, equities, bonds, money market instruments, cash and near cash with commodity exposure being achieved through other collective investment schemes (including exchange traded funds).

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) may be held for efficient portfolio management purposes.

There will be no particular emphasis on any industrial, geographic or economic sector.

You can buy and sell shares in the Fund on any business day.

If you hold income shares any income from the Fund may be paid out to you.

If you hold accumulation shares, any income from the Fund will be re-invested to grow the value of your investment.

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower risk ← Higher risk
Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund has been classed as 4 because its volatility has been measured as average.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Risk from use of derivatives: Use of derivatives may result in gains or losses that are greater than the original amount invested.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.
