

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Discovery Cautious Managed Fund (the "Fund") a sub-fund of The Discovery Fund (the "Company") Class C Sterling Net Income Shares (ISIN: GB00BYB5457)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The objective of the Fund is to provide returns through a combination of capital growth and income whilst being managed so as to remain, over a market cycle, within a defined volatility range.

The Fund will primarily gain exposure indirectly via eligible collective investment schemes and other collective investment vehicles (for example, investment companies, exchange traded funds) to a range of eligible assets such as transferable securities (shares (including investment trusts), debentures, government and public securities, warrants or certificates representing certain securities), money market instruments, deposits, cash, property and commodities to provide diversification. The Fund may also invest directly in such eligible assets (excluding property and commodities).

Derivatives will be used only for the purpose of Efficient Portfolio Management.

The Fund will seek to remain within a defined volatility range over a market cycle – it will aim to be positioned as a 3 on a risk scale of 1-10 (with 1 being the lowest risk and 10 being the highest risk). For this purpose, a market cycle is expected to be a minimum 5 year period. Risk profile ratings will be calculated by an independent third party.

Remaining within the volatility range will take precedence over the other objectives of the Fund, although the Investment Manager may in exceptional circumstances operate outside this range where it considers it is in the best interest of shareholders.

Typically, the Fund is likely to have greater exposure to underlying cash, fixed interest and property assets, and less exposure to underlying equities and commodities, than other funds in the range.

Investors can redeem shares on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

For income shares, any income received is paid out to you quarterly. For accumulation shares, any income received is reflected in the price of the shares.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower risk ← Higher risk

Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 4 because simulated monthly historical performance data indicates that average rises and falls in market prices would have occurred historically.

The risk and reward profile above is calculated by the Authorised Corporate Director on a scale of 1-7 using standard calculations based on historic volatility of the Fund. This is calculated differently to the risk scale of 1-10 referred to in the investment objective and policy, which will be calculated by an independent party (currently Distribution Technology although this could change in the future) based on ongoing analysis of the investment process and the portfolio.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Currency Risk: As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing charges	0.80%*

Charges taken from the fund under certain specific conditions	
Performance fee	N/A

As the Fund only launched on 1 April 2019, the ongoing charges figure shown here is an estimate of the charges and may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see sections 11 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

** the Investment Manager has, with the agreement of the ACD, undertaken that for a period of 6 months from 10 April 2019 (i.e. until 10 October 2019) or until the fund has reached £10 million in size, whichever comes first, that it will contribute an amount equal to the ACD's fee plus the Depositary's fee for the relevant period.*

Past Performance

Past performance is not a guide to future performance.

The share class and Fund both launched on 1 April 2019. Accordingly, there is insufficient data to provide a useful indication of past performance to investors.

Performance is calculated in Pound Sterling.

Practical Information

The depositary for the Fund is NatWest Trustee and Depositary Services Limited.
