

Non-UCITS Retail Scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT Dominion Holdings ICVC (the “Company”) Accumulation and Income Shares

The authorised corporate director of the Company is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The investment objective of VT Dominion Holdings ICVC is to preserve and grow the purchasing power of shareholders capital (i.e. for the returns of the Company to increase in excess of CPI) over the long term.

The Company will aim to meet its objective primarily by investing in equities of a limited number of carefully selected enterprises listed worldwide. The Company may also invest in other transferable securities, money market instruments, deposits, cash and near cash.

The Company will not invest in derivatives, immovables or other collective investment schemes. It will not sell “short” securities and will not borrow to invest. Only in exceptional circumstances, the Company may borrow to meet cashflow and liquidity constraints.

The Company will not have any particular industry or economic sector focus and will not be constructed with reference to any index. As a result of its policy of only selecting to become owners in a limited number of enterprises, the Company’s portfolio will be a concentrated one.

You can buy and sell shares in the Company on the 1st and 15th day of each month or where this does not fall on a business day, on such other day as the ACD and Depositary of the Company may agree.

If you hold income shares any income from the Company may be paid out to you. If you hold accumulation shares, any income from the Company will be re-invested to grow the value of your investment.

Recommendation: Investment into this Company may not be appropriate for investors who plan to withdraw their money within 5 years.

For full investment objectives and policy details please refer to the prospectus, which may be obtained from the address in ‘Practical Information’ overleaf.

Risk and Reward Profile The Risk and Reward Indicator table shows how much a fund has risen and fallen in the past, and therefore how much a fund’s returns have varied. It is a measure of a fund’s volatility, though it does not measure the potential for permanent capital loss. The higher the rank the greater the risk that investors in that fund may have made losses as well as gains. The lowest number on that scale does not mean the fund is risk free. Historical data may not be a reliable indicator of the Company’s future risk profile. The risk category shown is not guaranteed and may change over time.

The Company is ranked 5 because monthly historical performance data indicates that it has experienced relatively high rises and falls in market prices historically.

The following risks are material in addition to the risks captured by the indicator above:

- **Market Risk:** External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- **Currency Risk:** As the Company invests in global securities, movements in exchange rates may cause the value of your investment to increase or decrease.
- **Concentration Risk:** The Company holds a small number of investments and may therefore be subject to larger than normal movements in its value.

For full details of the Company’s risks, please see the prospectus, which may be obtained from the address in ‘Practical Information’ overleaf.

Charges

The charges you pay are used to pay the costs of running the Company, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0%
Exit charge	3% ¹

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the Company over a year	
Ongoing charges	1% ²

Charges taken from the Company under certain specific conditions	
Performance fee	Nil

¹ This charge is paid to the Company, not to the Authorised Corporate Director or Investment Adviser

² The Investment Adviser of the Company has undertaken to absorb any costs that would otherwise cause the Company to have an ongoing charges figure in excess of 1%

The ongoing charges figure is based on expenses and the net asset value as at 31 December 2020. This figure may vary from year to year. It excludes portfolio transaction costs. The Company's annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the Company.

For more information about charges, please see sections 3.6 & 7 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

Past Performance

Past performance is not a guide to future performance.

- The share class and Company both launched in July 2017
- Performance is calculated in Pounds Sterling
- All charges and fees, except any exit charges, have been included within the performance calculation. Please see the section on Charges for more details.

Practical Information

The depositary for the Company is NatWest Trustee and Depositary Services Limited.
