2. DETAILS OF THE COMPANY

2.1 General information

2.1.1 General

VT Downing Investment Funds ICVC is an investment company with variable capital incorporated in England and Wales under registered number IC000824, with Product Reference Number 521374, and authorised by the Financial Conduct Authority with effect from 4 June 2010. The Company has an unlimited duration.

Shareholders are not liable for the debts of the Company. A Shareholder is not liable to make any further payment to the Company after he has paid the price on purchase of the Shares.

The ACD is also the manager of certain authorised unit trusts and open-ended investment companies details of which are set out in Appendix 4.

At the date of this Prospectus, the Company only has one Sub-fund, the VT Downing Monthly Income Fund. The Sub-fund's Product Reference Number is set out in Appendix 1. Further Sub-funds may be established from time to time.

On 1 December 2020 the Company changed its name from MI Downing Investment Funds ICVC and the Sub-fund changed its name from MI Downing Monthly Income Fund.

2.1.2 Head Office

The head office of the Company is at Level 13 Broadgate Tower, 20 Primrose Street, London EC2A 2EW.

2.1.3 Address for Service

The head office is the address of the place in the UK for service on the Company of notices or other documents required or authorised to be served on it.

2.1.4 Base Currency

The base currency of the Company and each Sub-fund is Pounds Sterling.

2.1.5 Share capital

Maximum: £100,000,000,000.00

Minimum: £1.00

Shares have no par value. The share capital of the Company at all times equals the sum of the Net Asset Values of each of the Sub-funds.

Shares in the Company may be marketed in other Member States and in countries outside the European Union and European Economic Area, subject to the Regulations, and any regulatory constraints in those countries, if the ACD so decides.

Each of the Sub-funds of the Company from time to time is designed and managed to support longer-term investment and active trading is discouraged. Short-term or excessive trading into and out of a Sub-fund may harm performance by disrupting portfolio management strategies and by increasing expenses.

The ACD may at its discretion refuse to accept applications for, or switching of, Shares, especially where transactions are deemed disruptive, particularly from possible market timers or investors who, in its opinion, have a pattern of short-term or excessive trading or whose trading has been or may be disruptive to a Sub-fund(s).

For these purposes, the ACD may consider an investor's trading history in the Sub-fund(s) or other Valu-Trac Investment Management Limited funds and accounts under common ownership or control.

2.1.6 **Investment objectives and policy**

The investment objective and investment policy for the Fund is set out in Appendix 1.

2.2 **The structure of the Company**

2.2.1 **The Sub-funds**

The Company is structured as an umbrella company, in that different Sub-funds may be established from time to time by the ACD with the approval of the FCA. On the introduction of any new Sub-fund or Class, a revised prospectus will be prepared setting out the relevant details of each Sub-fund or Class.

The Company is a UCITS scheme.

Each Sub-fund would be a UCITS scheme if it had a separate authorisation order.

The assets of each Sub-fund will be treated as separate from those of every other Sub-fund and will be invested in accordance with the investment objective and investment policy applicable to that Sub-fund. Investment of the assets of each of the Sub-funds must comply with the COLL Sourcebook and the investment objective and policy of the relevant Sub-fund. Details of the Sub-funds, including their investment objectives and policies, are set out in Appendix 1.

The eligible securities markets and eligible derivatives markets on which the Sub-funds may invest are set out in Appendix 2. A detailed statement of the general investment and borrowing restrictions in respect of each type of Sub-fund is set out in Appendix 3.

Each Sub-fund is a segregated portfolio of assets and, accordingly, the assets of a Sub-fund belong exclusively to that Sub-fund and shall not be used or made available to discharge (directly or indirectly) the liabilities of, or claims against any other person or body, including the Company and any other Sub-fund and shall not be available for any such purpose.

Subject to the above, each Sub-fund will be charged with the liabilities, expenses, costs and charges of the Company attributable to that Sub-fund, and within each Sub-fund charges will be allocated between Classes in accordance with the terms of issue of Shares of those Classes. Any assets, liabilities, expenses, costs or charges not attributable to a particular Sub-fund may be allocated by the ACD in a manner which it believes is fair to the Shareholders generally. This will normally be pro rata to the Net Asset Value of the relevant Sub-funds.

Please also see paragraph 5.5 below.

Where any changes are proposed to be made to the Company or any Sub-fund the ACD will assess whether the change is fundamental, significant or notifiable in accordance with COLL 4.3. If the change is regarded as fundamental, Shareholder approval of the Company or relevant Sub-fund will be required. If the change is regarded as significant, 60 days' prior written notice will be given to relevant Shareholders. If the change is regarded as notifiable, relevant Shareholders will receive suitable notice of the change.

2.2.2 **Shares**

Classes of Share within the Sub-funds

Shares will be issued in larger and smaller denominations. There are 100 smaller denomination Shares to each larger denomination Share. Smaller denomination Shares represent what, in other terms, might be called fractions of a larger Share and have proportionate rights.

Shares have no par value and, within each Class in each Sub-fund subject to their denomination, are entitled to participate equally in the profits arising in respect of, and in the proceeds of, the liquidation of the Company or termination of a relevant Sub-fund. Shares do not carry preferential or pre-emptive rights to acquire further Shares.

Further Classes of Share may be established from time to time by the ACD with the agreement of the Depositary and in accordance with the Instrument of Incorporation and the Regulations. On the introduction of any new Sub-fund or Class a revised prospectus will be prepared setting out the details of each Sub-fund or Class.

The base currency in which each new Class of Shares will be denominated will be determined at the date of creation and set out in the prospectus issued in respect of the new Class of Shares.

The net proceeds from subscriptions to a Sub-fund will be invested in the specific pool of assets constituting that Sub-fund. The Company will maintain for each current Sub-fund a separate pool of assets, each invested for the exclusive benefit of the relevant Sub-fund. The Company as a whole will be responsible for all obligations, whichever Sub-fund such liabilities are attributable to, unless otherwise agreed with specific creditors.

To the extent that any Scheme Property, or any assets to be received as part of the Scheme Property, or any costs, charges or expenses to be paid out of the Scheme Property, are not attributable to one Sub-fund only, the ACD will allocate such Scheme Property, assets, costs, charges or expenses between Sub-funds in a manner which is fair to all Shareholders of the Company.

The Company may issue income and accumulation Shares in respect of each Sub-fund. The Share Classes that may be issued and their criteria for subscription in respect of each Sub-fund are set out in Appendix 1.

Shares in the Company are not currently listed on or dealt in on any investment exchange. Title to Shares is evidenced by the entry on the Register. Shareholders may, but need not, support an instruction to the ACD by enclosing the contract notice or the most recent annual statement or copies of such documents. Share Certificates are not issued to Shareholders.

Holders of income Shares are entitled to be paid the distributable income attributed to such Shares on any relevant interim and annual allocation dates.

Holders of accumulation Shares are not entitled to be paid the income attributed to such Shares, but that income is automatically transferred to (and retained as part of) the capital assets of the relevant Sub-fund on the relevant interim and/or annual accounting dates. This is reflected in the price of an accumulation Share.

Where a Sub-fund has different Classes, each Class may attract different charges and so monies may be deducted from the Scheme Property attributable to such Classes in unequal proportions. In these circumstances, the proportionate interests of the Classes within a Sub-fund will be adjusted accordingly.

Shareholders are entitled (subject to certain restrictions) to Switch all or part of their Shares in a Class or a Sub-fund for Shares of another Class within the same Sub-fund or for Shares of the same or another Class within a different Sub-fund of the Company. Details of this switching facility and the restrictions are set out in paragraph 3.4 (Switching).

3. **BUYING, CONVERTING, REDEEMING AND SWITCHING SHARES**

The dealing office of the ACD is normally open from 8.30 a.m. to 5.30 p.m. (London time) on each Business Day to receive requests for the purchase, sale and switching of Shares. The ACD may vary these times at its discretion. Requests to deal in Shares may be made by sending clear written instructions (or an application form) to the ACD or (at the ACD's discretion) by telephoning 01343 880344 (or such other number as published from time to time). The initial purchase must, at the discretion of the ACD, be accompanied by an application form. In addition, the ACD may from time to time make arrangements to allow Shares to be bought or sold on-line or through other communication media (electronic or otherwise).

A request for dealing in Shares must be received by 12.00 noon on a particular Dealing Day in order to be processed on that Dealing Day. A dealing request received after this time will be held over and processed on the next Dealing Day, using the Net Asset Value per Share calculated as at the Valuation Point on that next Dealing Day.

Telephone calls will be recorded. The ACD may also, at its discretion, introduce further methods of dealing in Shares in the future.

In its dealings in Shares of the Sub-funds the ACD is dealing as principal. The ACD does not actively seek to make a profit from dealing in Shares as principal but does so in order to facilitate the efficient management of the Company. The ACD is not accountable to Shareholders for any profit it makes from dealing in Shares as principal.

3.1 **Money laundering**

As a result of legislation in force in the UK to prevent money laundering, the ACD is responsible for compliance with anti money laundering regulations. In order to implement these regulations, in certain circumstances investors may be asked to provide proof of identity when buying or redeeming Shares. This may involve an electronic check of information. Until satisfactory proof of identity is provided, the ACD reserves the right to refuse to issue Shares, pay the proceeds of a redemption of Shares, or pay income on Shares to the investor. In the case of a purchase of Shares where the applicant is not willing or is unable to provide the information requested within a reasonable period, the ACD also reserves the right to sell the Shares purchased and return the proceeds to the account from which the subscription was made. These proceeds may be less than the original investment. The ACD can use credit reference agencies (who will record that an enquiry has been made) and/or may check electronic databases. In the case of bodies corporate, trusts and other legal arrangements, it is also required to establish the identity of any trustees or other controllers who have greater than 25% control of the body corporate or property of the trust that are not named on the application. In addition, it is also required to establish the identity of any individuals who have a specified beneficial interest in the Shares. In the case of individuals it is required to establish the identity of any individuals who have a specified beneficial interest in the Shares that are not named on the application. The applicant retains legal title to the Shares and instructions will only be accepted from the applicant. The beneficial owner details are required for anti-money laundering purposes only. The ACD reserves the right to refuse any application to invest without providing any justification for doing so.

3.2 **Buying Shares**

3.2.1 **Procedure**

Shares may be bought directly from the ACD or through a professional adviser or other intermediary. For details of dealing charges see paragraph 3.5 below. Application forms may be obtained from the ACD.

Valid applications to purchase Shares in a Sub-fund will be processed at the Share price calculated, based on the Net Asset Value per Share, at the next Valuation Point following receipt of the application, except in the case where dealing in a Sub-fund has been suspended as set out in paragraph 3.10.

The ACD, at its discretion, has the right to cancel a purchase deal if settlement is materially overdue and any loss arising on such cancellation shall be the liability of the applicant. For postal applications payment in full must accompany the instruction. At the ACD's discretion, payment for large purchases of Shares may be made by telegraphic transfer.

A purchase of Shares in writing or by telephone or any other communication media made available is a legally binding contract. Applications to purchase, once made, are, except in the case where cancellation rights are applied, irrevocable. However, subject to its obligations under the Regulations, the ACD has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for Shares in whole or part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the applicant.

Any subscription monies remaining after a whole number of Shares have been issued will not be returned to the applicant. Instead, smaller denomination Shares will be issued. A smaller denomination Share is equivalent to one hundredth of a larger denomination Share.

Payment in full should be made no later than the fourth Business Day after the date of purchase, and the ACD reserves the right to require payment in advance.

The ACD may charge £50 each time a trade is not fulfilled by the end of the Business Day on the settlement date. The ACD also reserves the right to apply interest charges at 4% above the Bank of England Base Rate on the value of any settlement not received by the end of the Business Day on the settlement date and thereafter. No interest will be paid on funds held prior to investment. Shares that have not been paid for cannot be redeemed.

Applicants who have received advice may have the right to cancel their application to buy Shares at any time during the 14 days after the date on which they receive a cancellation notice from the ACD. If an applicant decides to cancel the contract, and the value of the investment has fallen at the time the ACD receives the completed cancellation notice, they will not receive a full refund as an amount equal to any fall in value will be deducted from the sum originally invested. Investors who invest through the Regular Savings Plan will be entitled to receive back the full amount they invested if they cancel. The ACD may extend cancellation rights to other investors but is under no obligation to do so.

3.2.2 Documents the buyer will receive

A confirmation giving details of the number and price of Shares bought will be issued no later than the end of the Business Day following the Valuation Point by reference to which the price is determined, together with, where appropriate, a notice of the applicant's right to cancel.

Registration of Shares can only be completed by the ACD upon receipt of any required registration details. These details may be supplied in writing to the ACD or by returning to the ACD the properly completed registration form and copy of the confirmation.

Settlement is due within 4 Business Days of the Valuation Point. An order for the purchase of Shares will only be deemed to have been accepted by the ACD once it is in receipt of cleared funds for the application. If settlement is not made within a reasonable period, then the ACD has the right to cancel any Shares issued in respect of the application.

Share certificates will not be issued in respect of Shares. Ownership of Shares will be evidenced by an entry on the Register. Tax certificates in respect of periodic distributions on Shares will show the number of Shares held by the recipient.

3.2.3 Minimum subscriptions and holdings

The minimum initial subscriptions, subsequent subscriptions and holdings levels for each Class of Share in a Sub-fund are set out in Appendix 1.

The ACD may at its sole discretion accept subscriptions and/or holdings lower than the minimum amount(s).

If following a redemption, Switch or transfer, a holding in any Class of Share should fall below the minimum holding for that Class, the ACD has the discretion to effect a redemption of that Shareholder's entire holding in that Class of Share. The ACD may use this discretion at any time. Failure not to do so immediately after such redemption, Switch or transfer does not remove this right.

3.3 Redeeming Shares

3.3.1 Procedure

Every Shareholder is entitled on any Dealing Day to redeem its Shares, which shall be purchased by the ACD dealing as principal.

Valid instructions to the ACD to redeem Shares in a Sub-fund will be processed at the Share price calculated, based on the Net Asset Value per Share, at the next Valuation Point following receipt of the instruction, except in the case where dealing in a Sub-fund has been suspended as set out in paragraph 3.10.

A redemption instruction in respect of Shares in writing or by telephone or any other communication media made available is a legally binding contract. However, an instruction to the ACD to redeem Shares, although irrevocable, may not be settled by either the Company or the ACD if the redemption represents Shares where the money due on the earlier purchase of those Shares has not yet been received or if insufficient documentation or anti-money laundering information has been received by the ACD.

Shareholders are entitled to Switch, transfer and redeem Shares at any time, however, as principal the ACD will acquire Shares on a first in first out basis.

For details of dealing charges see paragraph 3.5 below.

3.3.2 Documents a redeeming Shareholder will receive

A confirmation giving details of the number and price of Shares redeemed will be sent to the redeeming Shareholder (or the first named Shareholder, in the case of joint Shareholders) together with (if sufficient written instructions have not already been given) a form of renunciation for completion and execution by the Shareholder (or, in the case of a joint holding, by all the joint Shareholders) no later than the end of the Business Day following the later of the request to redeem Shares or the Valuation Point by reference to which the price is determined.

Payment of redemption proceeds will normally be made to the first named Shareholder (at their risk) via telegraphic transfer in accordance with any instruction received (the ACD may recover any bank charge levied on such transfers). Instructions to make payments to third parties (other than intermediaries associated with the redemption) will not normally be accepted.

Such payment will be made within four Business Days of the later of (a) receipt by the ACD of the form of renunciation (or other sufficient written instructions) duly signed and completed by all the relevant Shareholders together with any other documentation and appropriate evidence of title and any required anti-money laundering related documentation, and (b) the Valuation Point following receipt by the ACD of the request to redeem.

3.3.3 Minimum redemption

Part of a Shareholder's holding may be redeemed but the ACD reserves the right to refuse a redemption request if the value of the Shares of any Sub-fund to be redeemed is less than the minimum stated in respect of the appropriate Class in the Sub-fund in question (see Appendix 1).

3.3.4 Deferred Redemption

If a Shareholder requests the redemption of Shares equal to 10% or more of the number of Shares of a particular Sub-fund in issue on any Dealing Day, the Company may at its absolute discretion, hold over or defer the redemption of such numbers of Shares as exceeds 10%. If the Company refuses to redeem Shares for this reason, the redemption request shall be reduced accordingly and the Shares to which such request relates which are not redeemed shall be redeemed on the subsequent Dealing Day in priority to any redemption request received thereafter, subject to the same 10% limit, until all of the Shares to which the original redemption request related have been redeemed.

In times of high levels of redemption, the ACD may, with the prior agreement of the Depositary, or shall if the Depositary so requires, permit deferral of redemptions to the next valuation point where the total value of the redemptions requested together represent over 10% of the relevant Sub-Fund's net asset value. Subject to sufficient liquidity being raised at the next valuation point all redemption requests relating to the earlier valuation point will be completed before those relating to the later valuation point.

3.4 Conversion and Switching

Subject to any restrictions on the eligibility of investors for a particular Share Class, a Shareholder in a Sub-fund may at any time:

- 3.4.1 Convert all or some of his shares of one Class in a Sub-fund for another Class in the same Sub-fund; or
- 3.4.2 Switch all or some of his Shares of one Class in a Sub-fund for Shares in another Sub-fund in the Company

Conversions

Conversions will be effected by the ACD recording the change of Share Class on the Register of the Company.

If a Shareholder wishes to Convert Shares he should apply to the ACD in the same manner as for a sale as set out below.

Conversions will be effected at the next Valuation Point following receipt of instructions to Convert from a Shareholder.

Conversions will not be treated as a disposal for capital gains tax purposes.

Switches

Subject to any restrictions on the eligibility of investors for a particular Share Class, a Shareholder in a Sub-fund may at any time Switch all or some of his Shares of one Class in a Sub-fund ("**Original Shares**") for Shares of another Class in another Sub-fund ("**New Shares**") in the Company. The number of New Shares issued will be determined by reference to the respective prices of New Shares and Original Shares at the Valuation Point applicable at the time the Original Shares are redeemed and the New Shares are issued.

A request to Switch may be made in writing to the dealing office of the ACD. Telephone Switching instructions may be given but Shareholders are required to provide written instructions to the ACD (which, in the case of joint Shareholders, must be signed by all the joint Shareholders) before Switching is effected.

The ACD may at its discretion make a charge on the Switching of Shares between Sub-funds or Conversion between Classes. Any such charge on Switching or Conversion does not constitute a separate charge payable by a Shareholder, but is rather the application of any redemption charge on the Original Shares and any initial charge on the New Shares, subject to certain waivers. For details of the charges on Switching currently payable, please see paragraph 3.5.3 “Charges on Switching and Conversion”.

If a partial Switch would result in the Shareholder holding a number of Original Shares or New Shares of a value which is less than the minimum holding in the Class concerned, the ACD may, if it thinks fit, convert the whole of the applicant’s holding of Original Shares to New Shares (and make a charge on Switching on such conversion) or refuse to effect any Switch of the Original Shares. Save as otherwise specifically set out, the general provisions on procedures relating to redemption will apply equally to a Switch. Written instructions must be received by the ACD before the Valuation Point on a Dealing Day in the Sub-fund or Sub-funds concerned to be dealt with at the prices at the Valuation Point on that Dealing Day or at such other Valuation Point as the ACD at the request of the Shareholder giving the relevant instruction may agree. Switching requests received after a Valuation Point will be held over until the next day which is a Dealing Day in each of the relevant Sub-fund or Sub-funds.

The ACD may adjust the number of New Shares to be issued to reflect the application of any charge on Switching together with any other charges or levies in respect of the application for the New Shares or redemption of the Original Shares as may be permitted pursuant to the COLL Sourcebook.

Please note that under UK tax law a Switch of Shares in one Sub-fund for Shares in any other Sub-fund is treated as a redemption of the Original Shares and a purchase of New Shares and will, for persons subject to taxation, be a realisation of the Original Shares for the purposes of capital gains taxation, which may give rise to a liability to tax, depending upon the Shareholder’s circumstances.

A Shareholder who Switches Shares in one Sub-fund for Shares in any other Sub-fund (or who Switches between Classes of Shares) will not be given a right by law to withdraw from or cancel the transaction.

3.5 Dealing Charges

The price per Share at which Shares are bought, redeemed or Switched is the Net Asset Value per Share. Any initial charge or redemption charge is payable in addition to the price or deducted from the proceeds and is taken from the gross subscription or redemption monies.

3.5.1 Initial charge

The ACD may impose a charge on the purchase of Shares in each Class. The current initial charge is calculated as a percentage of the amount invested by a potential Shareholder in respect of each Sub-fund as set out in Appendix 1. The ACD may waive or discount the initial charge at its discretion.

The initial charge (which is deducted from subscription monies) is payable by the Shareholder to the ACD.

The current initial charge of a Class may only be increased in accordance with the Regulations.

From the initial charge received, or out of its other resources, the ACD may pay a commission to relevant intermediaries including the Investment Manager and its Associates.

3.5.2 Redemption charge

The ACD may make a charge on the redemption of Shares in each Class. At present, no redemption charge is levied.

The ACD may only introduce a redemption charge in accordance with the Regulations. Also, if such a charge was introduced, it would not apply to Shares issued before the date of the introduction (i.e., those not previously subject to a redemption charge).

3.5.3 Charges on Switching and Conversion

On the Switching or Conversion of Shares between Sub-funds or Classes in the Company, the Instrument of Incorporation authorises the Company to impose a charge on Switching or Conversion. If a redemption charge is payable in respect of the Original Shares, this may become payable instead of, or as well as, the then prevailing initial charge for the New Shares. The charge on Switching or Conversion is payable by the Shareholder to the ACD.

The ACD's current policy is to only levy a charge on Switching or Conversion between Sub-funds that is no more than the excess of the initial charge applicable to New Shares over the initial charge applicable to the Original Shares. There is currently no charge for Switching or Converting Shares in one Class of a Sub-fund for Shares in another Class of the same Sub-fund.

3.5.4 Dilution Levy

The actual cost of purchasing, selling or Switching underlying investments in a Sub-fund may deviate from the mid-market value used in calculating its Share price, due to dealing charges, taxes, and any spread between buying and selling prices of the Sub-fund's underlying investments. These dealing costs could have an adverse effect on the value of a Sub-fund, known as "**dilution**". In order to mitigate the effect of dilution the Regulations allow the ACD to make a "**dilution levy**" on the purchase, redemption or Switch of Shares in a Sub-fund. A dilution levy is a separate charge of such amount or at such rate as is determined by the ACD to be made for the purpose of reducing the effect of dilution. This amount is not retained by the ACD, but is paid into the relevant Sub-fund.

The dilution levy is calculated by reference to the costs of dealing in the underlying investments of the relevant Sub-fund, including any dealing spreads, commission and transfer taxes.

The need to charge a dilution levy will depend on the volume of purchases and redemptions. It is not possible to predict accurately whether dilution would occur at any point in time.

The ACD's policy is that it may require a dilution levy on the purchase and redemption of Shares if, in its opinion, the existing Shareholders (for purchases) or remaining Shareholders (for redemptions) might otherwise be adversely affected. For example, the dilution levy may be charged in the following circumstances: where the Scheme Property of a Sub-fund is in continual decline; on a Sub-fund experiencing large levels of net purchases relative to its size; on "**large deals**" (typically being a purchase or redemption of Shares to a size exceeding 5% of the Net Asset Value of the relevant Sub-fund); in any case where the ACD is of the opinion that the interests of existing or remaining Shareholders require the imposition of a dilution levy.

This policy is intended to mitigate the dilutive effect of Shareholder transactions on the future growth of the Company.

Based on future projections the ACD may need to charge a dilution levy 2-4 times a year. If a dilution levy is required then, based on future projections the estimated rate of such a levy would be up to 1%. On the occasions when a dilution levy is not applied, there may be an adverse impact on the total assets of the relevant Sub-funds.

The ACD, in its absolute discretion, may waive or reduce the dilution levy. The ACD may alter its current dilution policy in accordance with the procedure set out in the Regulations.

3.5.5 Stamp duty reserve tax (“SDRT”)

The SDRT charge on the surrender of shares in an ICVC applies only to an in specie redemption of shares made otherwise than on a pro rata basis. A surrender of Shares to the Company should therefore generally be exempt from SDRT. The current policy is that all SDRT costs (if applicable) will be paid out of the Company's Scheme Property and charged to capital and that SDRT will not be recovered from individual Shareholders. However, the ACD reserves the right to require individual Shareholders to pay SDRT whenever it considers that the circumstances have arisen which make such imposition fair to all Shareholders or potential Shareholders. Deductions of any such costs from capital may erode or constrain capital growth.

3.6 Transfers

Shareholders are entitled to transfer their Shares to another person or body. All transfers must be in writing in the form of an instrument of transfer approved by the ACD for this purpose. Completed instruments of transfer must be returned to the ACD in order for the transfer to be registered by the ACD. The ACD may refuse to register a transfer unless any provision for SDRT due has been paid.

3.7 Restrictions, Compulsory Transfer, Redemption and Conversion

The ACD may from time to time impose such restrictions as it may think necessary for the purpose of ensuring that no Shares are acquired or held by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory or which would result in the Company incurring any liability to taxation which the Company is not able to recoup itself or suffering any other adverse consequence. In this connection, the ACD may, inter alia, reject in its discretion any application for the purchase, redemption, transfer or Switching of Shares.

If it comes to the notice of the ACD that any Shares (“**affected Shares**”):

- 3.7.1 are owned directly or beneficially in breach of any law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory; or
- 3.7.2 would result in the Company incurring any liability to taxation which the Company would not be able to recoup itself or suffering any other adverse consequence (including a requirement to register under any securities or investment or similar laws or governmental regulation of any country or territory); or
- 3.7.3 are held in any manner by virtue of which the Shareholder or Shareholders in question is/are not qualified to hold such Shares or if it reasonably believes this to be the case; or
- 3.7.4 are owned by a Shareholder who is registered in a jurisdiction (where the Company is not a registered or recognised by the relevant competent authority) whereby communication with that Shareholder by the ACD, on behalf of the Company, might constitute a breach of the regulations in that jurisdiction (unless specific action is taken by the ACD to prevent such a communication constituting a breach);

the ACD may give notice to the Shareholder(s) of the affected Shares requiring the transfer of such Shares to a person who is qualified or entitled to own them or that a request in writing be given for the redemption of such Shares in accordance with the COLL Sourcebook. If any Shareholder upon whom such a notice is served does not within 30 days after the date of such notice transfer his affected Shares to a person qualified to own them or submit a written request for their redemption to the ACD or establish to the satisfaction of the ACD (whose judgement is final and binding) that he or the beneficial owner is qualified and entitled to own the affected

Shares, he shall be deemed upon the expiry of that 30 day period to have given a request in writing for the redemption or cancellation (at the discretion of the ACD) of all the affected Shares.

A Shareholder who becomes aware that he is holding or owns affected Shares shall immediately, unless he has already received a notice as set out above, either transfer all his affected Shares to a person qualified to own them or submit a request in writing to the ACD for the redemption of all his affected Shares.

Where a request in writing is given or deemed to be given for the redemption of affected Shares, such redemption will (if effected) be effected in the same manner as provided for in the COLL Sourcebook.

Subject to any restrictions on the eligibility of investors for a particular Share Class, with the agreement of the Depositary the ACD may effect a mandatory Conversion of all or some of a Shareholder's shares in one Share Class in a Sub-fund for shares of another Share Class in the same Sub-fund if this is in the best interests of Shareholders. Shareholders are expected to be provided with 60 days' prior notice of any such Conversion.

3.8 Issue of Shares in exchange for in specie assets

The ACD may arrange for the Company to issue Shares in exchange for assets other than cash, but will only do so where the Depositary has taken reasonable care to determine that the Company's acquisition of those assets in exchange for the Shares concerned is not likely to result in any material prejudice to the interests of Shareholders.

The ACD will ensure that the beneficial interest in the assets is transferred to the Company with effect from the issue of the Shares.

The ACD will not issue Shares in any Sub-fund in exchange for assets the holding of which would be inconsistent with the investment objective or policy of that Sub-fund.

3.9 In specie redemptions

If a Shareholder requests the redemption of Shares the ACD may, where it considers that deal to be substantial in relation to the total size of a Sub-fund or in some way detrimental to the Sub-fund, arrange for Scheme Property having the appropriate value to be transferred to the Shareholder (an '**in specie transfer**'), in place of payment for the Shares in cash. Before the redemption is effected, the ACD must give written notice to the Shareholder of the intention to make an in specie transfer, so that the Shareholder can require the net proceeds from the sale of the relevant Scheme Property (rather than the Scheme Property itself) if the Shareholder so desires.

The ACD will select the property to be transferred in consultation with the Depositary. The ACD and Depositary must ensure that the selection is made with a view to achieving no more advantage or disadvantage to the Shareholder requesting the redemption than to the continuing Shareholders.

The ACD may retain out of the property to be transferred property or cash of a value equivalent to any stamp duty or stamp duty reserve tax to be paid on the redemption of the Shares.

3.10 Suspension of dealings in Shares

The ACD may, with the prior agreement of the Depositary, and must without delay if the Depositary so requires temporarily suspend the issue, cancellation, sale and redemption of Shares in any or all of the Sub-funds where due to exceptional circumstances it is in the interests of all the Shareholders in the relevant Sub-fund or Sub-funds.

The ACD and the Depositary must ensure that the suspension is only allowed to continue for as long as is justified having regard to the interests of Shareholders.

The ACD or the Depositary (as appropriate) will immediately inform the FCA of the suspension and the reasons for it and will follow this up as soon as practicable with written confirmation of

the suspension and the reasons for it to the FCA and the regulator in each EEA state where Shares are offered for sale.

The ACD will notify Shareholders as soon as is practicable after the commencement of the suspension, including details of the exceptional circumstances which have led to the suspension, in a clear, fair and not misleading way and giving Shareholders details of how to find further information about the suspension.

Where such suspension takes place, the ACD will publish details on its website or other general means, sufficient details to keep Shareholders appropriately informed about the suspension, including, if known, its possible duration.

During the suspension none of the obligations in COLL 6.2 (Dealing) will apply but the ACD will comply with as much of COLL 6.3 (Valuation and Pricing) during the period of suspension as is practicable in light of the suspension.

Suspension will cease as soon as practicable after the exceptional circumstances leading to the suspension have ceased but the ACD and the Depositary will formally review the suspension at least every 28 days and will inform the FCA of the review and any change to the information given to Shareholders.

The ACD may agree during the suspension to deal in Shares in which case all deals accepted during and outstanding prior to the suspension will be undertaken at a price calculated at the first Valuation Point after the restart of dealings in Shares.

3.11 **Electronic Communications**

At present, transfer or renunciation of title to Shares by electronic communication is not accepted.

3.12 **Electronic Verification**

Under The Money Laundering, Terrorist Financing and Transfer of Funds (Information on the Payer) Regulations 2017, The Proceeds of Crime Act, The FCA Senior Management Arrangements Systems & Controls Sourcebook and the guidance in the Joint Money Laundering Steering Group Guidance Notes (which are updated from time to time), the ACD state that the ACD must check an applicant's identity and, in certain circumstances, the source of the money invested. The ACD may also request verification documents from the applicant or parties associated with the applicant. In some cases, documentation may be required for officers performing duties on behalf of applicants who are bodies corporate. The checks may include an electronic search of information held about the applicant (or an associated party) on the electoral role and using credit reference agencies. The credit reference agency may check the details the applicant (or an associated party) supplies against any particulars on any database (public or otherwise) to which they have access and may retain a record of that information although that is only to verify identity and will not affect the applicant's (or an associated party's) credit rating. They may also use the applicant's (or an associated party's) details in the future to assist other companies verification purposes. In applying for Shares an applicant is giving the ACD permission to ask for this information in line with the Data Protection Act 2018. If an applicant invests through a financial adviser they must fill an identity verification certificate on their behalf and send it to the ACD with the application.

3.13 **Client Money**

The ACD will make use of the revised 'delivery versus payment' (DvP) exemption as set out in the FCA Rules, which provides for a one Business Day window during which money held for the purposes of settling a transaction in Shares is not treated as 'client money'. Specifically, under the DvP exemption, money received by the ACD from an investor, or money due to be paid to an investor by the ACD, need not be treated as client money if: (i) the ACD receives the money from an investor for the subscription of Shares and the money is passed to the Depositary for the purpose of creating Shares by close of business on the Business Day following receipt of money from the investor; or (ii) the ACD holds the money in the course of redeeming Shares provided

that the proceeds of that redemption are paid to an investor by close of business on the Business Day following receipt from the Depositary.

Accordingly under the exemption when investors are buying Shares the ACD will protect investor money in a client money account if it does not pass the investor's money onto the Depositary by the close of the Business Day following receipt. Similarly when Shareholders sell shares in a Sub-fund, the ACD will protect their money in a client money account if it does not pass their money to them by the close of the Business Day following receipt from the Depositary. No interest is payable by the ACD on moneys credited to this account.

3.14 **Governing law**

All deals in Shares are governed by the law of England and Wales.

4. VALUATION OF THE COMPANY

4.1 General

The price of a Share is calculated by reference to the Net Asset Value of the Sub-fund to which it relates. The Net Asset Value per Share of a Sub-fund is currently calculated at 12.00 noon (London time) (this being the Valuation Point) on each Dealing Day.

The ACD may at any time during a Business Day carry out an additional valuation if it considers it desirable to do so. The ACD shall inform the Depositary of any decision to carry out any such additional valuation. Valuations may be carried out for effecting a scheme of amalgamation or reconstruction which do not create a Valuation Point for the purposes of dealings. Where permitted and subject to the Regulations, the ACD may, in certain circumstances (for example where a significant event has occurred since the closure of a market) substitute a price with a more appropriate price which in its opinion reflects a fair and reasonable price for that investment.

The ACD will, upon completion of each valuation, notify the Depositary of the price of Shares of each Class of each Sub-fund and the amount of any dilution levy applicable in respect of any purchase or redemption of Shares.

A request for dealing in Shares must be received by the Valuation Point on a particular Dealing Day in order to be processed on that Dealing Day. A dealing request received after this time will be held over and processed on the next Dealing Day, using the Net Asset Value per Share calculated as at the Valuation Point on that next Dealing Day.

4.2 Calculation of the Net Asset Value

The value of the Scheme Property shall be the value of its assets less the value of its liabilities determined in accordance with the following provisions:

4.2.1 All the Scheme Property (including receivables) is to be included, subject to the following provisions.

4.2.2 Scheme Property which is not cash (or other assets dealt with in paragraph 4.2.2.4 below) or a contingent liability transaction shall be valued as follows and the prices used shall (subject as follows) be the most recent prices which it is practicable to obtain:

4.2.2.1 Units or shares in a collective investment scheme:

- (a) if a single price for buying and redeeming units or shares is quoted, at that price; or
- (b) if separate buying and redemption prices are quoted, at the average of the two prices provided the buying price has been reduced by any initial charge included therein and the redemption price has been increased by any exit or redemption charge attributable thereto; or
- (c) if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no recent price exists or if the most recent price available does not reflect the ACD's best estimate of the value of the units or shares, at a value which, in the opinion of the ACD, is fair and reasonable;

4.2.2.2 Any other transferable security:

- (a) if a single price for buying and redeeming the security is quoted, at that price; or

- (b) if separate buying and redemption prices are quoted, at the average of the two prices; or
 - (c) if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no recent price exists or if the most recent price available does not reflect the ACD's best estimate of the value of the security, at a value which, in the opinion of the ACD, is fair and reasonable;
- 4.2.2.3 Scheme Property other than that described in paragraphs 4.2.2.1 and 4.2.2.2 above, at a value which, in the opinion of the ACD, is fair and reasonable;
 - 4.2.2.4 Cash and amounts held in current and deposit accounts and in other time related deposits shall be valued at their nominal values.
- 4.2.3 Scheme Property which is a contingent liability transaction shall be treated as follows:
 - 4.2.3.1 if it is a written option (and the premium for writing the option has become part of the Scheme Property), deduct the amount of the net valuation of premium receivable. If the Scheme Property is an off exchange option the method of valuation shall be agreed between the ACD and the Depositary;
 - 4.2.3.2 if it is an off exchange future, include it at the net value of closing out in accordance with a valuation method agreed between the ACD and the Depositary;
 - 4.2.3.3 if it is any other form of contingent liability transaction, include it at the net value of margin on closing out (whether as a positive or negative value). If the Scheme Property is an off exchange derivative, include it at a valuation method agreed between the ACD and the Depositary.
 - 4.2.4 In determining the value of the Scheme Property, all instructions given to issue or cancel Shares shall be assumed to have been carried out (and any cash paid or received) whether or not this is the case.
 - 4.2.5 Subject to paragraphs 4.2.6 and 4.2.7 below, agreements for the unconditional sale or purchase of Scheme Property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and if, in the opinion of the ACD, their omission will not materially affect the final net asset amount.
 - 4.2.6 Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 4.2.5.
 - 4.2.7 All agreements are to be included under paragraph 4.2.5 which are, or ought reasonably to have been, known to the person valuing the Scheme Property.
 - 4.2.8 Deduct an estimated amount for anticipated tax liabilities at that point in time including (as applicable and without limitation) capital gains tax, income tax, corporation tax, VAT, stamp duty, SDRT and any foreign taxes or duties.
 - 4.2.9 Deduct an estimated amount for any liabilities payable out of the Scheme Property and any tax or duty thereon, treating periodic items as accruing from day to day.
 - 4.2.10 Deduct the principal amount of any outstanding borrowings whenever repayable and any accrued but unpaid interest on borrowings.

- 4.2.11 Add an estimated amount for accrued claims for tax of whatever nature which may be recoverable.
- 4.2.12 Add any other credits or amounts due to be paid into the Scheme Property.
- 4.2.13 Add a sum representing any interest or any income accrued due or deemed to have accrued but not received.
- 4.2.14 Currencies or values in currencies other than Sterling shall be converted at the relevant Valuation Point at a rate of exchange that is not likely to result in any material prejudice to the interests of Shareholders or potential Shareholders.

4.3 **Price per Share in each Sub-fund and each Class**

The price per Share at which Shares are bought or are redeemed is the Net Asset Value per Share. Any initial charge or redemption charge is payable in addition to the price or deducted from the proceeds and is taken from the gross subscription or redemption monies.

Each allocation of income made in respect of any Sub-fund at a time when more than one Class is in issue in respect of that Sub-fund shall be done by reference to the relevant Shareholder's proportionate interest in the income property of the Sub-fund in question calculated in accordance with the Instrument of Incorporation.

4.4 **Pricing basis**

The ACD deals on a forward pricing basis. A forward price is the price calculated at the next Valuation Point after the purchase or redemption is deemed to be accepted by the ACD. Shares in the Company are single priced.

4.5 **Publication of Prices**

The prices of all Shares are published on the website of the ACD: www.valu-trac.com. As the ACD deals on a forward pricing basis, the price that appears in these sources will not necessarily be the same as the one at which investors can currently deal. The ACD may also, at its sole discretion, decide to publish certain Share prices in other third party websites or publications but the ACD does not accept responsibility for the accuracy of the prices published in, or for the non-publication of prices by, these sources for reasons beyond the control of the ACD. The prices of Shares may also be obtained by calling 01343 880344 during the ACD's normal business hours.

5. RISK FACTORS

Potential investors should consider the following risk factors before investing in the Company (or in the case of specific risks applying to specific Sub-funds, in those Sub-funds).

5.1 General

The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities. There can be no assurance that any appreciation in the value of investments will occur. The value of investments and the income derived from them may fall as well as rise and investors may not recoup the original amount they invest in the Company. There is no certainty that the investment objective of the Sub-funds will actually be achieved and no warranty or representation is given to this effect. The level of any yield for a Sub-fund may be subject to fluctuations and is not guaranteed.

The entire market of a particular asset class or geographical sector may fall, having a more pronounced effect on funds heavily invested in that asset class or region. There will be a variation in performance between funds with similar objectives due to the different assets selected.

5.2 Effect of Initial Charge or Redemption Charge

Where an initial charge or redemption charge is imposed, an investor who realises his Shares may not (even in the absence of a fall in the value of the relevant investments) realise the amount originally invested.

In particular, where a redemption charge is payable, investors should note that the percentage rate at which the redemption charge is calculated is based on the market value rather than the initial value of the Shares. If the market value of the Shares has increased the redemption charge will show a corresponding increase. Currently there is no redemption charge levied on Shares.

The Shares therefore should be viewed as medium to long term investments.

5.3 Dilution

A Sub-fund may suffer a reduction in the value of its Scheme Property due to dealing costs incurred when buying and selling investments. To offset this dilution effect the ACD may require the payment of a dilution levy in addition to the price of Shares when bought or as a deduction when sold.

5.4 Suspension of Dealings in Shares

Investors are reminded that in certain circumstances their right to redeem Shares (including a redemption by way of Switching) may be suspended.

5.5 Liabilities of the Company

Each Sub-fund is a segregated portfolio of assets and, accordingly, the assets of a Sub-fund belong exclusively to that Sub-fund and shall not be used to discharge directly or indirectly the liabilities of, or claims against, any other person or body, including the Company, or any other Sub-fund, and shall not be available for any such purpose.

Whilst the provisions of the OEIC Regulations provide for segregated liability between Sub-funds, the concept of segregated liability is relatively new. Accordingly, where claims are brought by local creditors in foreign courts or under foreign law contracts, it is not yet known how those foreign courts will react to regulations 11A and 11B of the OEIC Regulations.

Although each Sub-fund will be treated as bearing the liabilities, expenses, costs and charges attributable to it, in the event that assets or liabilities are not attributable to any particular Sub-fund, the Company may allocate such amounts between the Sub-funds of the Company in a manner which it believes is fair to the Shareholders generally.

A Shareholder is not liable to make any further payment to the Company or Sub-fund after he has paid the price on purchase of the Shares.

5.6 Currency Exchange Rates

Currency fluctuations may adversely affect the value of a Sub-fund's investments and the income thereon and, depending on an investor's currency of reference, currency fluctuations may adversely affect the value of his investment in Shares.

5.7 Derivatives and volatility

The prices of derivative instruments, including futures, options and swap prices, can be highly volatile. Price movements of forward contracts, futures contracts and other derivative contracts are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets, particularly markets in currencies and interest rate related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, amongst other things, interest rate fluctuations. The use of these techniques and instruments also involves certain special risks, including (1) dependence on the ability to predict movements in the prices of securities being hedged and movements in interest rates, (2) imperfect correlation between the price movements of the derivatives and price movements of related instruments, (3) the fact that skills needed to use these instruments are different from those needed to select the securities owned by the Company, (4) the possible absence of a liquid market for any particular instrument at any particular time; which may result in possible impediments to effective portfolio management or the ability to meet redemption. The Company may invest in certain derivative instruments, which may involve the assumption of obligations as well as rights and assets. Assets deposited as margin with brokers may not be held in segregated accounts by the brokers and may therefore become available to the creditors of such brokers in the event of their insolvency or bankruptcy.

The Company may from time to time utilise both exchange-traded and over-the-counter credit derivatives, such as credit default swaps as part of its investment policy and for hedging purposes. These instruments may be volatile, involve certain special risks and expose investors to a high risk of loss. The low initial margin deposits normally required to establish a position in such instruments permit a high degree of leverage. As a result, a relatively small movement in the price of a contract may result in a profit or a loss that is high in proportion to the amount of the funds actually placed as initial margin and may result in unlimited further loss exceeding any margin deposited. Furthermore, when used for hedging purposes there may be an imperfect correlation between these instruments and the investment or market sectors being hedged. Transactions in over-the-counter derivatives, such as credit derivatives, may involve additional risk as there is no exchange market on which to close out an open position.

Unless otherwise stated in Appendix 1 in respect of a Sub-fund, it is intended that each of the Sub-funds can use derivatives in accordance with the Rules for the purpose of meeting their investment objective and for EPM (including hedging). The use of derivatives and forward transactions for the purpose of meeting a Sub-fund's investment objectives may increase the risk profile of that Sub-fund.

5.8 Derivative Techniques

The COLL Sourcebook permits the ACD to use certain techniques when investing in derivatives in order to manage a Sub-fund's exposure to particular counterparties and in relation to the use of collateral to reduce overall exposure to over the counter ("OTC") derivatives; for example a Sub-fund may take collateral from counterparties with whom it has an OTC derivative position and use that collateral to net off against the exposure it has to the counterparty under that OTC derivative position, for the purposes of complying with counterparty spread limits. The COLL Sourcebook also permits a Sub-fund to use derivatives to effectively short sell (agree to deliver the relevant asset without holding it in the scheme) under certain conditions.

5.9 Counterparty and Settlement

The Company will be subject to the risk of the inability of any counterparty to perform with respect to transactions, whether due to insolvency, bankruptcy or other causes. In particular, it should be noted that transactions may not always be settled by delivery versus payment and this may expose the Company to greater counterparty risk and potentially to loss in excess of the counterparty's obligations to the Company.

5.10 Counterparty Risk in Over-the-Counter Markets

A Sub-fund may enter into transactions in over-the-counter markets, which will expose the Sub-fund to the credit of its counterparties and their ability to satisfy the terms of such contracts. For example, the Sub-fund may enter into agreements or use other derivative techniques, each of which expose the Sub-fund to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Sub-fund could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Company seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. In such circumstances, investors may be unable to cover any losses incurred.

5.11 Equity swaps

An equity swap, often referred to as a contract for difference or 'CFD', is a contract between two parties, buyer and seller, stipulating that the seller will pay to the buyer the positive difference between the current value of an asset (a security, instrument, basket or index) and its value when the contract was first entered into. If the difference is negative, then the buyer pays this amount to the seller. Equity swaps allow investors to take synthetic long or synthetic short positions with a variable margin, which, unlike futures contracts, have no fixed expiry date. Unlike shares, with equity swaps, the buyer is potentially liable for more than the amount they paid on margin. The Sub-fund will therefore employ risk management techniques to ensure it can dispose of the necessary assets at any time in order to pay redemption proceeds resulting from redemption requests and to meet its obligations resulting from equity swaps and other techniques and instruments.

5.12 Short sales

A short sale involves the sale of a security that the Sub-fund does not physically own in the expectation of purchasing the same security at a later date at a lower price to secure a profit. The COLL Sourcebook prohibits the short selling of physical securities but allows the creation of synthetic-short positions through the use of cash settled derivatives such as equity swaps (or CFDs), as long as any exposure created is covered by the assets of the Sub-fund. The establishment and maintenance of a synthetic short position in equities can involve greater risks than would be the case with a long position. These include the possibility of unlimited loss due to potentially unlimited price appreciation in the securities concerned, problems associated with the cost or availability of stock to borrow for the purposes of short selling and possible difficulties in purchasing stock to cover short positions in certain market conditions.

5.13 Market risk

Each Sub-fund will be diversified, however, the underlying investments of a Sub-fund will be subject to normal market fluctuations and to the risks inherent in investments in collective investment schemes.

5.14 Emerging Markets

Investments in emerging markets may be more volatile than investments in more developed markets. Some of these markets may have relatively unstable governments, economies based on only a few industries and securities markets that trade only a limited number of securities.

Many emerging markets do not have well developed regulatory systems and disclosure standards may be less stringent than those of developed markets.

The risks of expropriation, nationalisation and social, political and economic instability are greater in emerging markets than in more developed markets.

The following is a brief summary of some of the more common risks associated with emerging markets investment:

Fraudulent Securities – Given the lack of a regulatory structure it is possible that securities in which investments are made may be found to be fraudulent. As a result, it is possible that loss may be suffered.

Currency Fluctuations – Significant changes in the currencies of the countries in which investments are made in respect of the currency of denomination of the relevant Sub-fund may occur following the investment of the Company in these currencies. These changes may impact the total return of the Sub-fund to a significant degree. In respect of currencies of certain emerging countries, it is not possible to undertake currency hedging techniques.

Settlement and Custody Risks – Settlement and custody systems in emerging markets are not as well developed as those in developed markets. Standards may not be as high and supervisory and regulatory authorities not as sophisticated. As a result there may be risks that settlement may be delayed and that cash or securities could be disadvantaged.

Investment and Remittance Restrictions – In some cases, emerging markets may restrict the access of foreign investors to securities. As a result, certain equity securities may not always be available to a Sub-fund because the maximum permitted number of or investment by foreign shareholders has been reached. In addition, the outward remittance by foreign investors of their share of net profits, capital and dividends may be restricted or require governmental approval. The Company will only invest in markets in which it believes these restrictions to be acceptable. However, there can be no guarantee that additional restrictions will not be imposed.

Accounting – Accounting, auditing and financial reporting standards, practices and disclosure requirements applicable to companies in emerging markets differ from those applicable in more developed markets in respect of the nature, quality and timeliness of the information disclosed to investors and, accordingly, investment possibilities may be difficult to properly assess.

The Company may invest in such markets.

5.15 **Credit and Fixed Interest Securities**

Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital.

The value of a fixed interest security will fall in the event of the default or reduced credit rating of the issuer. Generally, the higher the rate of interest, the higher the perceived credit risk of the issuer. High yield bonds with lower credit ratings (also known as sub-investment grade bonds) are potentially more risky (higher credit risk) than investment grade bonds. A sub-investment grade bond has a Standard & Poor's credit rating of below BBB or equivalent.

5.16 **Liquidity**

In extreme market conditions it may be difficult for a Sub-fund to realise an investment at short notice without suffering a discount to market value. In such circumstances the investor may suffer a delay in realising his investment or may incur a dilution levy.

Depending on the types of assets the Sub-funds invest in, there may be occasions where there is an increased risk that a position cannot be liquidated in a timely manner at a reasonable price.

5.17 **Leverage**

A proportion of the capital may be leveraged. While leverage presents opportunities for increasing the capital return, it has the effect of potentially increasing losses as well. Any event which adversely affects the underlying vehicles would be magnified to the extent the capital is leveraged. The cumulative effect of the use of leverage in a market that moves adversely to the underlying investment vehicles could result in a substantial loss to capital that would be greater than if capital were not leveraged.

5.18 **Tax**

Tax laws currently in place may change in the future which could affect the value of your investments. See section 10 headed 'Taxation' for further details about taxation of the Sub-funds.

5.19 **Inflation and interest rates**

The real value of any returns that an investor may receive from the Sub-funds could be affected by interest rates and inflation over time.

5.20 **Custody**

Where the assets of the Sub-funds are held in custody, there may be a risk of loss that could result from the insolvency, negligence or fraudulent action of a custodian or sub-custodian.

5.21 **Investment into a fund which then invests into other funds**

Where a Sub-fund's investment strategy includes making investments into other underlying target funds, fees (including performance fees) are usually charged by the manager of the underlying component funds. The underlying manager's fees are deducted from the underlying fund prior to the assets of the fund being valued. Consequently, any fees deducted by the manager of any chosen underlying fund are excluded from the published fee calculations for the fund of funds.

5.22 **Structured Products**

The Sub-funds may invest in structured products in accordance with COLL. For the purposes of the FCA's rules, structured products may be regarded as either transferable securities, collective investment schemes or derivatives depending on the product in question. The common feature of these products is that they are designed to combine the potential upside of market performance with limited downside. Structured products typically are investments which are linked to the performance of one or more underlying instruments or assets such as market prices, rates, indices, securities, currencies and commodities and other financial instruments that may introduce significant risk that may affect the performance of the Sub-funds.

It is not intended to use structured products in the context of the Sub-funds. However, in addition to providing exposure to the asset classes described in the investment objective, it is anticipated that, if such use did take place, it should assist with keeping the volatility levels of the Sub-funds relatively low.

5.23 **Cyber Security**

As the use of technology has become more prevalent in the course of business, funds have become more susceptible to operational and financial risks associated with cyber security, including: theft, loss, misuse, improper release, corruption and destruction of, or unauthorised access to, confidential or highly restricted data relating to the company and the Shareholders and compromises or failures to systems, networks, devices and applications relating to the operations of the Company and its service providers. Cyber security risks may result in financial losses to the Company and the Shareholders; the inability of the Company to transact business with the Shareholders; delays or mistakes in the calculation of the Net Asset Value or other materials provided to Shareholders; the inability to process transactions with Shareholders or the parties; violations of privacy and other laws; regulatory fines, penalties and reputational damage; and compliance and remediation costs, legal fees and other expenses. The Company's service providers (including but not limited to the ACD and the Depositary and their agents), financial

intermediaries, companies in which a Sub-fund invests and parties with which the Company engages in portfolio or other transactions also may be adversely impacted by cyber security risks in their own business, which could result in losses to the Company or the Shareholders. While measures have been developed which are designed to reduce the risks associated with cyber security, there is no guarantee that those measures will be effective, particularly since the Company does not directly control the cyber security defences or plans of its service providers, financial intermediaries and companies in which the Sub-fund invests or with which it does business.

5.24 **Epidemic/Pandemics**

Occurrences of epidemics/pandemics (such as COVID-19), depending on their scale, may cause damage to national and local economies which will have an impact on investments. Global economic conditions may be disrupted by widespread outbreaks of infectious or contagious diseases, and such disruption may adversely affect funds, may increase volatility, impair liquidity and potential returns and make assets difficult to value. During such epidemics investment management practices that have worked well in the past, or are accepted ways of addressing certain conditions, could prove ineffective. Custody, trading and settlements may also be affected. As a result there may be a negative impact on the value of funds.

5.25 **Risks associated with the UK leaving the European Union ("Brexit")**

The UK formally left the European Union on 31 January 2020 (informally known as "Brexit"). The formal process of implementing Brexit is continuing.

The political, economic and legal consequences of Brexit are not yet fully known. It is possible investments in the UK may be more difficult to value, to assess for suitability of risk, harder to buy or sell or subject to greater or more frequent rises and falls in value.

The UK's laws and regulations concerning funds may in future diverge from those of the European Union. This may lead to changes in the operation of the Company or the rights of investors or the territories in which the Shares of the Company may be promoted and sold.

5.26 **Political Risks**

The value of the Company's investments may be affected by uncertainties such as international political developments, civil conflicts and war, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made. For example, assets could be compulsorily re-acquired without adequate compensation.

6.3.3 Conflicts of Interest

It is possible that the Depositary and/or its delegates and sub-delegates may in the course of its or their business be involved in other financial and professional activities which may on occasion have potential conflicts of interest with the Company or the Sub-Fund and/or other funds managed by the ACD or other funds for which the Depositary acts as the depositary, trustee or custodian. The Depositary will, however, have regard in such event to its obligations under the Instrument of Incorporation, the Depositary Agreement and the Regulations and, in particular, will use reasonable endeavours to ensure that the performance of its duties will not be impaired by any such involvement it may have and that any conflicts which may arise will be resolved fairly and in the best interests of shareholders collectively so far as practicable, having regard to its obligations to other clients.

Nevertheless, as the Depositary operates independently from the Company, Shareholders, the ACD and its associated suppliers and the Custodian, the Depositary does not anticipate any conflicts of interest with any of the aforementioned parties.

6.3.4 **Delegation of Safekeeping Functions**

The Depositary is permitted to delegate (and authorise its delegate to sub-delegate) the safekeeping of Scheme Property.

Under the Depositary Agreement the Depositary will be liable to the Company for any loss of financial instruments held in custody or for any liabilities incurred by the Company as a result of the Depositary’s negligent or intentional failure to fulfil its obligations.

However, the Depositary Agreement excludes the Depositary from any liability except in the case of fraud, wilful default, negligence or failure to exercise due care and diligence in the performance or non-performance of its obligations.

It also provides that the Company will indemnify the Depositary for any loss suffered in the performance or non-performance of its obligations except in the case of fraud, wilful default, negligence or failure to exercise due care and diligence on its part.

The Depositary Agreement may be terminated on 6 months' notice by the Company or the Depositary or earlier on certain breaches or the insolvency of a party. However, termination of the Depositary Agreement will not take effect, nor may the Depositary retire voluntarily, until the appointment of a new Depositary.

The auditors of the Company are Johnston Carmichael LLP, whose principal place of business is at Commerce House, South Street, Elgin, IV30 1JE.

6.7 Conflicts of Interest

The ACD, the Investment Manager and other companies within the ACD's and/or the Investment Manager's group may, from time to time, act as managers, investment managers or advisers to other funds or sub-funds which follow similar investment objectives to those of the Sub-funds. It is therefore possible that the ACD and/or the Investment Manager may in the course of their business have potential conflicts of interest with the Company or a particular Sub-fund. Each of the ACD and the Investment Manager will, however, have regard in such event to its obligations under the ACD Agreement and the Investment Management Agreement respectively and, in particular, to its obligation to act in the best interests of the Company so far as practicable, having regard to its obligations to other clients, when undertaking any investment business where potential conflicts of interest may arise.

The Depositary may act as the depositary of other open-ended investment companies and as trustee or custodian of other collective investment schemes.

7. FEES AND EXPENSES

7.1 Charges payable to the ACD

7.1.1 Annual Management Charge

In payment for carrying out its management duties and responsibilities the ACD is entitled to take an annual fee out of each Sub-fund as set out in Appendix 1. The annual management charge will accrue on a daily basis in arrears by reference to the Net Asset Value of the Sub-fund on the immediately preceding Dealing Day and the amount due for each month is payable on the last Dealing Day of each month.

The current annual management charges for the Sub-funds (expressed as a percentage per annum of the Net Asset Value of each Sub-fund) are set out in Appendix 1.

The fees payable to the Investment Manager are payable by the ACD out of its own fee income.

7.1.2 Expenses

The ACD is also entitled to all reasonable, properly documented, out of pocket expenses incurred in the performance of its duties as set out above, including stamp duty, stamp duty reserve tax on transactions in shares and expenses incurred in effecting regulatory changes to the Company.

VAT is payable on the charges or expenses mentioned above, where appropriate.

If a Class's expenses in any period exceed its income the ACD may take that excess from the capital property attributable to that Class.

7.2 Increase in the Charges payable to the ACD

Any increase in the ACD's charges will be carried out in accordance with the Regulations. The ACD will give Shareholders at least 60 days' notice of any material increases in fees.

7.3 Depositary's fee and expenses

The Depositary receives for its own account a periodic fee which will be calculated and accrue daily and is payable monthly on the last Business Day in each calendar month in respect of that day and the period since the last Business Day in the preceding month and is payable as soon as practicable after the last Business Day in each month. The fee is calculated by reference to the value of the Sub-fund on the last Business Day of the preceding month except for the first accrual which is calculated by reference to the first Valuation Point of the Sub-fund. The rate of the periodic fee is agreed between the ACD and the Depositary and is calculated on a sliding scale based on the value of each Sub-fund on the following basis:

- 0.04% per annum for the first £25,000,000 in value of the Scheme Property;
- 0.0375% per annum on the next £25,000,000 in value of the Scheme Property;
- 0.035% per annum on the next £50,000,000 in value of the Scheme Property; and
- 0.03% per annum on the value thereafter.

The annual fee is subject to a minimum of £15,000 plus VAT per annum per Sub-fund.

These rates can be varied from time to time in accordance with the OEIC Regulations and the Rules.

The first accrual in relation to any Sub-fund will take place in respect of the period beginning on the day on which the first valuation of that Sub-fund is made and ending on the last Business Day of the month in which that day falls.

In addition to the periodic fee referred to above, the Depositary shall also be entitled to be paid transaction and custody charges in relation to transaction handling and safekeeping of the Scheme Property as follows:

Item	Range
Transaction Charges	£0 to £40.
Custody Charges*	0% to 0.12%.

These charges vary from country to country depending on the markets and the type of transaction involved. Transaction charges accrue at the time the transactions are effected and are payable as soon as is reasonably practicable, and in any event not later than the last Business Day of the month when such charges arose or as otherwise agreed between the Depositary and the ACD. Custody charges accrue and are payable as agreed from time to time by the ACD and the Depositary.

Where relevant, the Depositary may make a charge for its services in relation to: distributions, the provision of banking services, holding money on deposit, lending money, or engaging in stock lending or derivative transactions, in relation to a Sub-fund and may purchase or sell or deal in the purchase or sale of Scheme Property, provided always that the services concerned and any such dealing are in accordance with the provisions of the COLL Sourcebook.

The Depositary will also be entitled to payment and reimbursement of all costs, liabilities and expenses properly incurred in the performance of, or arranging the performance of, functions conferred on it by the Instrument, the COLL Sourcebook or by the general law.

On a winding up of a Sub-fund, the Depositary will be entitled to its pro rata fees, charges and expenses to the date of winding up, the termination, or the redemption (as appropriate) and any additional expenses necessarily realised in settling or receiving any outstanding obligations.

Any value added tax on any fees, charges or expenses payable to the Depositary will be added to such fees, charges or expenses.

In each such case such payments, expenses and disbursements may be payable to any person (including the ACD or any associate or nominee of the Depositary or of the ACD) who has had the relevant duty delegated to it pursuant to the COLL Sourcebook by the Depositary.

7.4 Other Expenses

The following expenses may also be paid out of the Scheme Property of the Company or each Sub-fund (as the case may be) so far as permitted by the COLL Sourcebook:

- 7.4.1 any costs and expenses incurred in incorporating and authorising any Sub-funds and Share Classes at and after the initial establishment. Such costs will be apportioned on a straight line basis over the first accounting year of the Sub-funds and where there is more than one Sub-fund or Share Class, apportioned according to the appropriate Sub-fund or Share Class;
- 7.4.2 broker's commission, fiscal charges and other disbursements (including stamp duty and/or stamp duty reserve tax) which are necessary to be incurred in effecting transactions for the Sub-funds and normally shown in contract notes, confirmation notes and difference accounts as appropriate;

- 7.4.3 any costs incurred in or about the listing of Shares in the Company on any Stock Exchange, and the creation, conversion and cancellation of Shares;
- 7.4.4 any costs incurred by the Company in publishing the price of the Shares in a national or other newspaper or any other form of media;
- 7.4.5 any cost incurred in producing and dispatching payments made by the Company or a Sub-fund (as the case may be), or the yearly and half yearly reports of the Company;
- 7.4.6 any costs incurred in preparing, translating, producing (including printing), distributing and modifying any instrument of incorporation, any prospectus, any key investor information document (apart from the cost of distributing the key investor information document), or reports, accounts, statements, contract notes and other like documentation or any other relevant document required under the Regulations;
- 7.4.7 any costs incurred as a result of periodic updates of or changes to any prospectus, key investor information document or instrument of incorporation;
- 7.4.8 any fees, expenses or disbursements of any legal or other professional adviser of the Company;
- 7.4.9 any costs incurred in taking out and maintaining an insurance policy in relation to the Company and the ACD;
- 7.4.10 any costs incurred in respect of meetings of Shareholders convened for any purpose;
- 7.4.11 any liability arising after the transfer of property to another authorised fund in consideration of units or shares in such other fund in accordance with COLL 6.7.15R;
- 7.4.12 interest on permitted borrowings and charges incurred in effecting or terminating such borrowings or in negotiating or varying the terms of such borrowings;
- 7.4.13 taxation and duties payable in respect of the Scheme Property or the issue or redemption of Shares;
- 7.4.14 the audit fees of the Auditors (including VAT) and any expenses of the Auditors;
- 7.4.15 periodic fees of the FCA, together with any corresponding fees of any regulatory authority in a country or territory outside the UK in which Shares in the Sub-funds are or may be marketed;
- 7.4.16 any expense incurred in relation to company secretarial duties including the cost of maintenance of minute books and other documentation required to be maintained by the Company;
- 7.4.17 any expense incurred in relation to each dealing transaction of Shares of the Company by way of example, including the cost of telephone, fax, postage and bank charges required to process a dealing transaction;
- 7.4.18 any payment otherwise due by virtue of a change to the Regulations;
- 7.4.19 any costs incurred which are associated with independent risk monitoring or daily "value at risk" or "VaR" calculations (part of the risk monitoring process);
- 7.4.20 any costs incurred in amending the Instrument of Incorporation or this Prospectus including costs in respect of meetings of shareholders and/or directors convened for the purposes which include the purpose of amending the Instrument of Incorporation or this Prospectus;
- 7.4.21 payments or costs in relation to the preparation of the key investor information document (either in respect of the Company or a Sub-fund);

- 7.4.22 any fees of any stocklending agent in relation to the entry into stocklending arrangement or repurchase/reverse repurchase contracts for the account of a Fund in accordance with the FCA Rules;
- 7.4.23 any VAT or similar tax relating to any charge or expense set out herein; and
- 7.4.24 any other payment permitted to be paid out of the Scheme Property under the Regulations as provided for in the Instrument of Incorporation of the Company.

The ACD is also entitled to be paid by the Company out of the Scheme Property any expenses incurred by the ACD or its delegates of the kinds described above.

The establishment costs of any Sub-fund launched after the issue of this Prospectus may be borne by that Sub-fund.

Value Added Tax will be added to all these payments, where applicable.

Further charges for taxation may be paid out of the Scheme Property as described in Section 0 below.

7.5 **Charges to income or capital**

Expenses are allocated between capital and income in accordance with the Regulations. The applicable policy for each Sub-fund is set out in Appendix 1. Where expenses are deducted in the first instance from income if, and only if, this is insufficient, deductions will be made from capital (save for any charge made in respect of SDRT under paragraph 3.5.5 "Stamp Duty Reserve Tax"). If deductions were made from capital, this could have an adverse effect on a Sub-fund's capital and constrain growth.

If a Class's expenses in any period exceed its income the ACD may take that excess from the capital property attributable to that Class.

7.6 **Allocation of fees and expenses between Sub-funds**

All the above fees, duties and charges (other than those borne by the ACD) will be charged to the Sub-fund in respect of which they were incurred. This includes any charges and expenses incurred in relation to the Register, except that these will be allocated and charged to each class of Shares on a basis agreed between the ACD and the Depositary.

Where an expense is not considered to be attributable to any one Sub-fund, the expense will normally be allocated in a manner which the ACD considers fair to Shareholders generally. This will normally be pro rata to the Net Asset Value of the relevant Sub-funds.

8. INSTRUMENT OF INCORPORATION

The Instrument of Incorporation is available for inspection at the ACD's offices at Mains of Orton, Orton, Moray, IV32 7QE.

9. SHAREHOLDER MEETINGS AND VOTING RIGHTS

9.1 Class, Company and Sub-fund Meetings

The Company has dispensed with the requirement to hold annual general meetings.

The provisions below, unless the context otherwise requires, apply to Class meetings and meetings of Sub-funds as they apply to general meetings of the Company, but by reference to Shares of the Class or Sub-fund concerned and the Shareholders and value and prices of such Shares.

9.2 Requisitions of Meetings

The ACD may requisition a general meeting at any time.

Shareholders may also requisition a general meeting of the Company. A requisition by Shareholders must state the objects of the meeting, be dated, be signed by Shareholders who, at the date of the requisition, are registered as holding not less than one tenth in value of all Shares then in issue and the requisition must be deposited at the head office of the Company. The ACD must convene a general meeting no later than eight weeks after receipt of such requisition.

9.3 Notice and Quorum

Shareholders will receive at least 14 days' notice of a general meeting and are entitled to be counted in the quorum and vote at such meeting either in person or by proxy. The quorum for a meeting is two Shareholders, present in person or by proxy. The quorum for an adjourned meeting is one person entitled to be counted in a quorum. Notices of meetings and adjourned meetings will be sent to Shareholders at their registered addresses.

9.4 Voting Rights

At a general meeting, on a show of hands every Shareholder who (being an individual) is present in person or (being a corporation) is present by its representative properly authorised in that regard, has one vote.

On a poll vote, a Shareholder may vote either in person or by proxy. The voting rights attaching to each Share are such proportion of the voting rights attached to all the Shares in issue that the price of the Share bears to the aggregate price of all the Shares in issue at a reasonable date, before the notice of meeting is sent out, such date to be decided by the ACD.

A Shareholder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.

In the case of joint Shareholders, the vote of the most senior Shareholder who votes, whether in person or by proxy, must be accepted to the exclusion of the votes of the other joint Shareholders. For this purpose seniority must be determined by the order in which the names stand in the Register.

Except where the COLL Sourcebook or the Instrument of Incorporation require an extraordinary resolution (which needs at least 75% of the votes cast at the meeting to be in favour if the resolution is to be passed) any resolution required by the COLL Sourcebook will be passed by a simple majority of the votes validly cast for and against the resolution.

The ACD may not be counted in the quorum for a meeting and neither the ACD nor any associate (as defined in the COLL Sourcebook) of the ACD is entitled to vote at any meeting of the Company except in respect of Shares which the ACD or associate holds on behalf of or jointly with a person who, if the registered Shareholder, would be entitled to vote and from whom the ACD or associate has received voting instructions.

Where all the Shares in a Sub-fund are registered to, or held by, the ACD or its associates and they are therefore prohibited from voting and a resolution (including an extraordinary resolution)

is required to conduct business at a meeting, it shall not be necessary to convene such a meeting and a resolution may, with the prior written agreement of the Depositary, instead be passed with the written consent of Shareholders representing 50% or more, or for an extraordinary resolution 75% or more, of the Shares in issue.

“Shareholders” in this context means Shareholders entered on the register at a time to be determined by the ACD and stated in the notice of the meeting which must not be more than 48 hours before the time fixed for the meeting.

9.5 **Variation of Class or Sub-fund rights**

The rights attached to a Class or Sub-fund may be varied in accordance with the COLL Sourcebook.

Fundamental changes to the Company can only be made with the passing of an extraordinary resolution of Shareholders. A fundamental change is a change or event which changes the purposes or nature of the Company or the Sub-funds, or may materially prejudice a Shareholder, or alters the risk profile of the Company or a Sub-fund, or introduces any new type of payment out of the scheme property. Any change may be fundamental depending on its degree of materiality and effect on the Company or a Sub-fund and its Shareholders.

10. TAXATION

10.1 General

The information below is a general guide based on current United Kingdom law and HMRC practice, all of which are subject to change. It summarises the tax position of the Company and of investors who are United Kingdom resident individuals and hold Shares as investments. The regime for taxation of income and capital gains received by individual investors depends on the tax law applicable to their personal circumstances and/or the place where the Scheme Property is invested. The following tax summary is not a guarantee to any investor of the tax results of investing in the Company. Prospective investors who are in any doubt about their tax position, or who may be subject to tax in a jurisdiction other than the United Kingdom, are recommended to take professional advice.

10.2 The Company

The Company is an ICVC and each Sub-fund is treated as an authorised investment fund for tax purposes. Each Sub-fund is generally exempt from United Kingdom tax on capital gains realised on the disposal of its investments. However, any gains realised on holdings in non-reporting offshore funds will incur a tax charge on disposal.

Dividends received by the Company will generally be exempt from corporation tax. The Company will be subject to corporation tax on most other types of income but after deducting allowable management expenses and the amount of any interest distributions. Where a Sub-fund suffers foreign tax on income received, this may normally be deducted from the United Kingdom tax due on that income.

Each Sub-fund will make dividend distributions except where more than a certain percentage of its property has been invested throughout the distribution period in interest-paying investments, in which case it will make interest distributions.

10.3 Shareholders

10.3.1 Dividend Income

Individuals whose overall dividend income, including dividend distributions received from the Company, does not exceed £2,000 should have no further tax liability in relation to the distributions regardless of the rate at which they normally pay income tax. To the extent that distributions are received in excess of an individual's £2,000 allowance, basic, higher and additional rate taxpayers will have to pay income tax on the distributions received at a rate of 7.5%, 32.5% and 38.1% respectively.

Shareholders who hold Shares in an Individual Savings Account ("ISA") will be exempt from income tax on dividend distributions in respect of such Shares.

10.3.2 Interest Income

Where the Company pays an interest distribution (which will be automatically retained in the Company in the case of accumulation Shares), it will not be required to deduct income tax at source.

After taking account of any savings allowance to which the Shareholder is entitled for the tax year in which the interest distribution is received, each individual Shareholder would be subject to income tax in respect of the interest distribution at the rates of 20%, 40% or 45%, depending on the level of the Shareholder's income.

Shareholders who hold Shares in an ISA will be exempt from income tax on interest distributions in respect of such Shares.

10.3.3 Income Equalisation

The first income allocation received by an investor after buying Shares may include an amount of income equalisation. This is effectively a repayment of the income equalisation paid by the investor as part of the purchase price. It is a return of capital, and is not taxable. Rather, it should be deducted from the acquisition cost of the Shares for capital gains tax purposes.

10.3.4 **Tax Certificates**

An annual tax certificate will be issued. This certificate should be retained for tax purposes as evidence for HMRC.

The ACD reserves the right to charge an administration fee of £10 if a duplicate copy is required. To obtain a duplicate copy you will need to submit your request in writing, along with payment, to the Head of Shareholder Services.

10.3.5 **Capital Gains**

Shareholders may be liable to capital gains tax on gains arising from the redemption, transfer or other disposal of Shares. The rate of tax, and available reliefs, will be as applicable from time to time.

An exchange of Shares in one Sub-fund of the Company for Shares in another Sub-fund will normally be treated as a disposal for this purpose. However, switches between Classes of Share in the same Sub-fund will not normally give rise to a disposal.

10.3.6 **Stamp Duty Reserve Tax**

SDRT is generally not chargeable on the surrender of shares in a UK open-ended investment company. Consequently, the sale of Shares in a Sub-fund will generally not be subject to an SDRT charge.

In relation to an in specie redemption of Shares in a Sub-fund (as described at paragraph 3.9 above) where a Shareholder receives a proportion of each of the Sub-fund's underlying assets, SDRT will not be chargeable provided the distribution in specie is of underlying assets proportionate to, or as nearly as practicable proportionate to, the Shareholder's holding of Shares.

10.3.7 **Inheritance Tax**

Shares held in any of the Funds will generally form part of an individual's estate and will therefore potentially be subject to inheritance tax (IHT).

Where a Shareholder is in any doubt as to their tax status, they should seek advice from a professional tax adviser.

10.3.8 **The International Tax Compliance Regulations**

The Company is required to comply with The International Tax Compliance Regulations. The regulations transpose into UK law rules and obligations derived from European Union law and inter-governmental agreements entered into by the UK which are aimed at increasing transparency and reducing tax evasion.

To be compliant with these regulations the Company must collect information about each investor's tax residence and in certain circumstances provide information about investors' Shareholdings to HMRC. HMRC may in turn share this information with overseas tax authorities.

Therefore, where an investor fails to provide the information required by the Company to comply with its obligations to HMRC this may result in the ACD taking appropriate action against the Shareholder, including invoking the compulsory transfer and redemption provisions set out in paragraph 3.8.

The ACD intends to procure compliance with the regulations but cannot give an assurance that this will be achieved. The underlying laws and agreements are a complex area of tax law and investors should consult their professional advisers on the implications these rules may have for them.

10.4 **Provision and disclosure of information for taxation matters**

In the UK, provisions relating to the disclosure and reporting of information are set out in The International Tax Compliance Regulations 2015 (the "**Regulations**"). These harmonise the requirements under the Common Reporting Standard, EU Council Directive 2014/107/EU and FATCA, as discussed below.

10.4.1 **Common Reporting Standard**

The OECD published the Standard for Automatic Exchange of Financial Account Information in July 2014, also known as the "Common Reporting Standard". The CRS is a single global standard for the automatic exchange of information ("**AEOI**") between taxation authorities in participating jurisdictions. The CRS aims to improve transparency to counter tax evasion in participating jurisdictions and to provide taxation authorities in participating jurisdictions with information on offshore or cross-border financial accounts and assets owned by individuals and entities resident in their local jurisdiction.

The CRS sets out details of the financial information to be exchanged, the financial institutions required to report such information to local tax authorities, and the common due diligence standards to be followed by financial institutions to obtain financial account information. A "financial institution" for the purposes of the CRS will include the ACD and could include any intermediary financial undertaking operating a custodial account in a participating jurisdiction in which Shares are directly or indirectly held by an individual or entity resident in another participating jurisdiction.

Shareholders and prospective investors should note that there will be a requirement for the name, address, jurisdiction(s) of tax residence, date and place of birth, account reference number, tax identification number(s) of each reportable person in respect of a reportable account for the CRS, and information relating to each Shareholder's investment (including but not limited to the value of and any payments in respect of the Shares) to be disclosed by or on behalf of the ACD to HMRC. HMRC may in turn exchange this information with the tax authorities in territories who are participating jurisdictions for the purposes of the CRS. In order to comply with its obligations, Shareholders may be required to provide additional information for the purposes of complying with the CRS.

10.4.2 **European information reporting**

Council Directive 2014/107/EU (the "**Amending Cooperation Directive**"), which amends Council Directive 2011/16/EU on administrative cooperation in the field of taxation, introduces an extended regime for the automatic exchange of information between tax authorities in Member States. The Amending Cooperation Directive requires each Member State to implement the CRS.

The Amending Cooperation Directive requires Member States to adopt national legislation necessary to comply with it by 31 December 2015, and such legislation must apply from 1 January 2016 (or 1 January 2017 in the case of Austria). The UK implemented the Amending Cooperation Directive with effect from 1 January 2016.

The ACD or its delegates, including the Administrator and such other entity as may be considered to be a paying agent for these purposes, shall be entitled to require Shareholders to provide any information regarding their tax status, identity or residency in order to satisfy the disclosure requirements in the Amending Cooperation Directive.

10.4.3 **US regime under FATCA**

Under tax legislation in the US, an information reporting regime has been introduced known as the Foreign Account Tax Compliance Act. Broadly, the intention of FATCA is to safeguard against US tax evasion by requiring non-US financial institutions to report to the IRS certain information in respect of certain account holders. In the event of non-compliance with the FATCA regime, the Company may be subject to a US tax withholding of 30% on certain payments it receives and may in certain circumstances in the future be obliged to make withholding from payments to Shareholders.

Broadly, the FATCA regime has been implemented in the UK by the Regulations. Provided that the Company registers with the IRS as a foreign financial institution and complies with its obligations pursuant to the Regulations, no FATCA withholding tax should apply. If there is significant non-compliance with the Regulations, FATCA withholding tax could then apply. Any non-compliance could give rise to penalties under the Regulations.

10.4.4 **Shareholder agreement to provision of information to HMRC and other tax authorities**

In order to comply with CRS, EU Council Directive 2014/107/EU, FATCA and other regimes, the Company, the ACD or their delegates will report information regarding Shareholders to HMRC, as its local tax authority. The Administrator will assist with the provision of information to HMRC. This information may be passed by HMRC to the other tax authorities including the IRS under information sharing agreements.

The ability of the Company or the ACD to report information to HMRC will depend on each affected Shareholder providing the Company, the ACD or their delegate with the information required to satisfy the applicable obligations. By agreeing to subscribe for Shares in a Sub-fund, each Shareholder agrees promptly to provide such information as the Company or its delegate may request for such purposes, and will be deemed to have authorised the automatic disclosure of information by or on behalf of the Company, the ACD or their delegates to HMRC or other relevant tax authorities. If a Shareholder fails to provide the information requested, the Company may exercise its right to compulsorily redeem the Shares held by the relevant Shareholder. Shareholders refusing to provide the requisite information to the ACD or its delegates may also be reported to HMRC.

Shareholders are recommended to consult their professional advisers if they are in any doubt about their tax position or the possible implications for an investment in a Sub-fund.

11. WINDING UP OF THE COMPANY OR A SUB-FUND

The Company will not be wound up except as an unregistered company under Part V of the Insolvency Act 1986 or under the COLL Sourcebook. A Sub-fund may be terminated up under the COLL Sourcebook or wound up under Part V of the Insolvency Act 1986 (as modified by regulation 33C of the OEIC Regulations) as an unregistered company.

Where the Company or a Sub-fund is to be wound up or terminated under the COLL Sourcebook, such winding up or termination may only be commenced following approval by the FCA. The FCA may only give such approval if the ACD provides a statement (following an investigation into the affairs of the Company or Sub-fund) either that the Company or Sub-fund will be able to meet its liabilities within 12 months of the date of the statement or that the Company or Sub-fund will be unable to do so. The Company or Sub-fund may not be wound up or terminated under the COLL Sourcebook if there is a vacancy in the position of ACD at the relevant time.

The Company shall be wound up or a Sub-fund must be terminated under the COLL Sourcebook:

- 11.1 if an extraordinary resolution to that effect is passed by Shareholders; or
- 11.2 when the period (if any) fixed for the duration of the Company or a particular Sub-fund by the Instrument of Incorporation expires, or any event occurs on the occurrence of which the Instrument of Incorporation provides that the Company or a particular Sub-fund is to be wound up; or
- 11.3 on the date stated in any agreement by the FCA to a request by the ACD for the revocation of the authorisation order in respect of the Company or for the termination of the relevant Sub-fund;
- 11.4 on the effective date of a duly approved scheme of arrangement which is to result in the Company or Sub-fund ceasing to hold any Scheme Property; or
- 11.5 on the date on which all of the Sub-funds of the Company fall within 11.4 or have otherwise ceased to hold any Scheme Property, notwithstanding that the Company may have assets and liabilities that are not attributable to any particular Sub-fund.

On the occurrence of any of the above:

- 11.6 COLL 6.2 (Dealing), COLL 6.3 (Valuation and Pricing) and COLL 5 (Investment and borrowing powers) will cease to apply to the Company or the relevant Sub-fund;
- 11.7 the Company will cease to issue and cancel Shares in the Company or the relevant Sub-fund and the ACD shall cease to sell or redeem Shares or arrange for the Company to issue or cancel them for the Company or the relevant Sub-fund;
- 11.8 no transfer of a Share shall be registered and no other change to the Register shall be made without the sanction of the ACD;
- 11.9 where the Company is being wound up, the Company shall cease to carry on its business except in so far as it is beneficial for the winding up of the Company;
- 11.10 the corporate status and powers of the Company, and subject to 11.6 to 11.9 above, the powers of the Depositary shall continue until the Company is dissolved.

The Company may be wound up or a Sub-fund terminated, at the ACD's discretion, if the Share capital of the Company or (in relation to any Sub-fund) the Net Asset Value of the Sub-fund is below £5 million, or if a change in the laws or regulations of any country means that, in the ACD's opinion, it is desirable to terminate the Sub-fund.

The ACD shall, as soon as practicable after the Company or the Sub-fund falls to be wound up or terminated, realise the assets and meet the liabilities of the Company or the Sub-fund and, after paying out or retaining adequate provision for all liabilities properly payable and retaining provision for the costs of winding up, arrange for the Depositary to make one or more interim distributions out of the proceeds to Shareholders proportionately to their rights to participate in the Scheme Property. If the ACD has not previously notified Shareholders of the proposal to wind up the Company or terminate the Sub-fund, the ACD shall, as soon as practicable after the commencement of winding up of the Company or the termination of the Sub-fund, give written notice of the commencement to Shareholders. When the ACD has caused all of the Scheme Property to be realised and all of the liabilities of the Company or the particular Sub-fund to be realised, the ACD shall arrange for the Depositary to make a final distribution to Shareholders on or prior to the date on which the final account is sent to Shareholders of any balance remaining in proportion to their holdings in the Company or the particular Sub-fund.

As soon as reasonably practicable after completion of the winding up of the Company or the termination of a particular Sub-fund, the Depositary shall notify the FCA that the winding up or termination has been completed.

On completion of a winding up of the Company, the Company will be dissolved and any money (including unclaimed distributions) still standing to the account of the Company, will be paid into court by the ACD within one month of the dissolution.

Following the completion of a winding up of the Company or the termination of a Sub-fund, the ACD must prepare a final account showing how the winding up or termination took place and how the Scheme Property was distributed. The auditors of the Company shall make a report in respect of the final account stating their opinion as to whether the final account has been properly prepared. This final account and the auditors' report must be sent to the FCA and to each Shareholder (or the first named of joint Shareholders) on the Register within four months of the completion of the winding up or termination.

As the Company is an umbrella company, each Sub-fund may be terminated as if it were a separate open-ended investment company. Any liabilities attributable or allocated to a particular Sub-fund under the COLL Sourcebook shall be met out of the Scheme Property attributable or allocated to that particular Sub-fund.

12. GENERAL INFORMATION

12.1 Accounting Periods

The annual accounting period of the Company ends each year on 31 March (the accounting reference date) with an interim accounting period ending on 30 September.

The ACD may even out the payments of income within an accounting period by carrying forward income otherwise distributable with a view to augmenting amounts to be paid out at a later date. Details of the Sub-funds for which this policy is currently considered are set out in Appendix 1.

12.2 Notice to Shareholders

All notices or other documents to be served upon a Shareholder will be duly served if such notice or other document is sent by the ACD to the Shareholder by normal post to the last address notified in writing to the Company by the Shareholder.

Any notice or document served by post is deemed to have been served on the second Business Day following the day on which it is posted. Any document left at a registered address or delivered other than by post is deemed to have been served on that day.

12.3 Income Allocations

Some Sub-funds may have interim and final income allocations and other Sub-funds may have quarterly or monthly income allocations and some Sub-funds may only have final income allocation dates (see Appendix 1). For each of the Sub-funds income is allocated by the ACD in accordance with the Instrument of Incorporation and either paid, reinvested or accumulated to those Shareholders who are entitled to the distribution by evidence of their holding on the Register at the previous accounting date.

In relation to income Shares, distributions of income for each Sub-fund in which income Shares are issued are paid by bank/telegraphic transfer directly into a Shareholder's bank account on or before the relevant income allocation date in each year as set out in Appendix 1.

For Sub-funds in which accumulation Shares are issued, income will become part of the capital property of the Sub-fund and will be reflected in the price of each such accumulation Share as at the end of the relevant accounting period.

If a distribution made in relation to any income Shares remains unclaimed for a period of six years after it has become due, it will be forfeited and will revert to the relevant Sub-fund.

The amount available for distribution in any accounting period is calculated by taking the aggregate of the income received or receivable for the account of the relevant Sub-fund in respect of that period, and deducting the charges and expenses of the relevant Sub-fund paid or payable out of income in respect of that accounting period. The ACD then makes such other adjustments as it considers appropriate (and after consulting the Company's auditors as appropriate) in relation to taxation, income equalisation, income unlikely to be received within 12 months following the relevant income allocation date, income which should not be accounted for on an accrual basis because of lack of information as to how it accrues, transfers between the income and capital account and other matters.

12.4 Annual Reports

The annual accounting period of the Company ends on 31 March in each year (the "**accounting reference date**") and the interim accounting period ends on 30 September (the "**interim accounting reference date**") or such other date as the ACD may determine.

The Company's annual report incorporating audited financial statements will be published within four months, and normally within two months, after the end of the financial year and the interim report within two months of the end of the interim accounting period.

Copies of the interim and annual reports will be available on request from the ACD.

Copies of all reports to Shareholders will be available for inspection by the general public at the ACD's offices at Mains of Orton, Orton, Moray, IV32 7QE.

12.5 Remuneration Policy

FCA Rules require that the ACD applies remuneration policies and practices that are consistent with, and promote, effective risk management for certain categories of staff (namely those whose activities have a material impact on the risk profile of the ACD or the UCITS funds that it manages ("Code Staff"). The ACD, taking account of the principle of proportionality, has in place a remuneration policy (the "Remuneration Policy") which is reviewed at least annually.

The ACD considers the Remuneration Policy to be appropriate to the size, internal operations, nature, scale and complexity of the Sub-Fund and in line with the risk profile, risk appetite and the strategy of the Sub-Fund.

The Remuneration Policy will apply to the fixed and variable (if any) remuneration received by the Code Staff.

In respect of any investment management delegates, the ACD requires that: (i) the entities to which such activities have been delegated are subject to regulatory requirements on remuneration that are equally as effective as those applicable under the European Securities and Market's Authority's ("ESMA's") Guidelines on Sound Remuneration Policies under the UCITS Directive and AIFMD / Article 14 of the UCITS Directive; or (ii) appropriate contractual arrangements are put in place with entities to which such activities have been delegated in order to ensure that there is no circumvention of the remuneration rules set out in the ESMA Guidelines or the FCA Handbook.

The ACD's remuneration policy requires, amongst other items, that the remuneration practices within the ACD:

- 12.5.1 are consistent with and promote sound and effective risk management;
- 12.5.2 do not encourage risk taking which is inconsistent with the risk profiles or the instrument constituting the fund or the prospectus, as applicable, of the UCITS it manages;
- 12.5.3 do not impair the ACD's compliance with its duty to act in the best interests of the UCITS it manages; and
- 12.5.4 include fixed and variable components of remuneration, including salaries and discretionary pension benefits.

Up-to-date details of the ACD's remuneration policy, including but not limited to (i) a description of how remuneration and benefits are calculated; and (ii) the identities of persons responsible for awarding the remuneration and benefits including the composition of the remuneration committee, where such a committee exists, can be found at www.valu-trac.com. Shareholders may obtain a paper copy of the full remuneration policy, free of charge, on request from the ACD.

12.5 The limit of 5% in paragraph 12.4 is raised to 25% in value of the Scheme Property in respect of covered bonds, provided that when a Sub-fund invests more than 5% in covered bonds issued by

a single body, the total value of covered bonds must not exceed 80% in value of the Scheme Property.

- 12.6 Not more than 20% in value of the Scheme Property is to consist of the units of any one collective investment scheme.
- 12.7 Not more than 20% in value of the Scheme Property may consist of transferable securities and approved money market instruments issued by the same group (as referred to in paragraph 12.2).
- 12.8 The exposure to any one counterparty in an OTC derivative transaction or efficient portfolio management technique must not exceed 5% in value of the Scheme Property. This limit is raised to 10% where the counterparty is an Approved Bank.
- 12.9 In applying the limits in paragraphs 12.3, 12.4, 12.6, 12.7 and 12.8, and subject to paragraph 12.5, not more than 20% in value of the Scheme Property is to consist of any combination of two or more of the following:

- (A) transferable securities or approved money market instruments issued by; or
- (B) deposits made with; or
- (C) exposures from OTC derivatives transactions or efficient portfolio management techniques made with;

a single body.

- 12.10 The Sub-fund's counterparty risk arising from OTC derivative transactions or efficient portfolio management techniques is subject to the limits set out in paragraphs 12.8 and 12.9 above.
- 12.11 For the purposes of calculating the exposure to any one counterparty for the purposes of 12.8 above:
- (A) the ACD must use the positive mark-to-market value of the OTC derivative contract with that counterparty;
 - (B) OTC derivative positions with the same counterparty may be netted provided that there are in place with that counterparty netting agreements:
 - (1) that the ACD is able legally to enforce against that counterparty on behalf of the Sub-fund; and
 - (2) that do not apply to any other exposures that the Sub-fund may have with that same counterparty.
 - (C) collateral received by the ACD that is sufficiently liquid that it can be sold quickly at a price close to its pre-sale valuation can be used by the ACD to reduce the exposure of the Scheme Property of a Sub-fund to the counterparty to an OTC derivative transaction entered into by that Sub-fund;
 - (D) where the ACD passes collateral to a counterparty to an OTC derivative transaction, it must take that collateral into account in calculating its exposure to that counterparty; and
 - (E) collateral passed to the counterparty to an OTC derivative transaction in accordance with paragraph (D) above can be taken into account on a net basis only if the ACD is able legally to enforce netting agreements with that counterparty on behalf of the Sub-fund.
- 12.12 For the purposes of the issuer concentration limits in this section 12, the underlying exposure of a Sub-fund to a counterparty created through the use of OTC derivatives must be calculated using the "commitment approach" described in COLL 5.3.

- 12.13 For the purposes of paragraph 12.9 above, any counterparty risk relating to OTC derivative transactions must be included in the calculation of exposures arising under such OTC derivative transactions.
- 13. Spread: Government and public securities**
- 13.1 The following section applies in respect of a transferable security or an approved money-market instrument ("Public Securities") that is issued by:
- (A) an EEA State;
 - (B) a local authority of an EEA State;
 - (C) a non-EEA State; or
 - (D) a public international body to which one or more EEA States belong.
- 13.2 Save as set out below, no more than 35% in value of the Scheme Property of a Sub-fund may be invested in Public Securities issued by any one body. Subject to this restriction, there is no limit on the amount which may be invested in Public Securities or in Public Securities issued by any one issuer or of any one issue.
- 13.3 The Company or a Sub-fund may invest more than 35% in value of the Scheme Property in Public Securities issued by any one body provided that:
- (A) the ACD has before any such investment is made consulted with the Depositary and as a result considers that the issuer of such securities is one which is appropriate in accordance with the investment objectives of the relevant Sub-fund;
 - (B) no more than 30% in value of the Scheme Property consists of such securities of any one issue;
 - (C) the Scheme Property includes such securities issued by that or another issuer, of at least six different issues;
 - (D) the disclosures required by the FCA have been made.
- 13.4 In giving effect to the foregoing object more than 35% of the property of the Company may be invested in Government and other public securities issued by or on behalf of or guaranteed by any one or more of:
- (a) the government of or a local authority in the United Kingdom of Great Britain and Northern Ireland; or the Scottish Administration; or the Executive Committee of the Northern Ireland Assembly; or the National Assembly for Wales; or
 - (b) the government of any of the following countries or territories outside the United Kingdom: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Portugal, Poland, Romania, Slovakia, Slovenia, Spain and Sweden; or
 - (c) Australia, Canada, Japan, New Zealand, Switzerland and the United States of America.
- 13.5 In relation to Public Securities:
- (a) issue, issued and issuer include guarantee, guaranteed and guarantor; and
 - (b) an issue differs from another if there is a difference as to repayment date, guarantor or other material terms of the issue.

Notwithstanding paragraph 12.1 and subject to paragraphs 12.2 and 12.3, in applying the 20% limit in paragraph 12.9 with respect to a single body, Public Securities issued by that body shall be taken into account.

14. **Collective Investment Schemes**

14.1 A Sub-fund may invest in units in a collective investment scheme including for the avoidance of doubt Shares in other Sub-funds of the Company provided that no more than 30% of the value of that investing scheme is invested in collective investment schemes which are not UCITS schemes and only if the second scheme complies with the following requirements:

- (A) it is a scheme which complies with the conditions necessary for it to enjoy the rights conferred by the UCITS Directive; or
- (B) be recognised under the provisions of s.272 of the Financial Services and Markets Act 2000 (individually recognised overseas schemes) that is authorised by the supervisory authorities of Guernsey, Jersey or the Isle of Man (provided the requirements of article 50(1)(e) of the UCITS Directive are met); or
- (C) is authorised as a non-UCITS retail scheme (provided the requirements of article 19(1)(e) of the UCITS Directive are met); or
- (D) is authorised in another EEA State (provided the requirements of article 19(1)(e) of the UCITS Directive are met); or
- (E) is authorised by the competent authority of an OECD Country (other than another EEA State) which has:
 - (1) signed the IOSCO Multilateral Memorandum of Understanding; and
 - (2) approved the scheme's management company, rules and depositary/custody arrangements
 provided the requirements of article 19(1)(e) of the UCITS Directive are met);
- (F) it is a scheme which complies where relevant with paragraph 14.5 below; and
- (G) it is a scheme which has terms which prohibit more than 10% in value of its scheme property consisting of units in collective investment schemes.

14.2 Unless otherwise specified in paragraph 14.8 below, up to 100% of the Scheme Property of any Sub-fund may consist of units in collective investment schemes.

14.3 For the purposes of paragraphs 14.1 and 14.2 each sub-fund of an umbrella scheme is to be treated as if it were a separate scheme. A Sub-fund may invest in or dispose of Shares of another sub-fund (the Second Fund) only if the following conditions are satisfied:

- (A) the Second Fund does not hold units in any other sub-fund of the same umbrella scheme;
- (B) the conditions 14.4 and 14.5 are complied with; and
- (C) the investing or disposing sub-fund must not be a feeder UCITS to the Second Fund.

14.4 In accordance with COLL 5.2.15R each of the Sub-funds may invest in units in collective investment schemes managed or operated by (or, if it is an open-ended investment company, has as its authorised corporate director), the ACD or an Associate of the ACD.

- 14.5 The Sub-funds must not invest in or dispose of units in another collective investment scheme (the “second scheme”), which is managed or operated by (or in the case of an open-ended investment company, has as its authorised corporate director), the ACD, or an Associate of the ACD, unless:
- (A) there is no charge in respect of the investment in or the disposal of units in the second scheme; or
 - (B) the ACD is under a duty to pay to the Sub-fund the following amount by the close of business on the fourth Business Day next after the agreement to invest in or dispose of shares in the second scheme:
 - (1) on investment, either:
 - (a) any amount by which the consideration paid by the Sub-fund for the units in the second scheme exceeds the price that would have been paid for the benefit of the second scheme had the units been newly issued or sold by it; or
 - (b) if such price cannot be ascertained by the ACD, the maximum amount of any charge permitted to be made by the seller of units in the second scheme;
 - (2) on disposal, the amount of any charge made for the account of the authorised fund manager or operator of the second scheme or an associate of any of them in respect of the disposal.
- 14.6 In paragraph 14.5 above, references to “second scheme” are to be taken to be references to the Second Fund where the Sub-fund in question is investing in another Sub-fund of the Company
- 14.7 In paragraphs 14.5(A) and 14.5(B) above:
- (A) any addition to or deduction from the consideration paid on the acquisition or disposal of units in the second scheme, which is applied for the benefit of the second scheme and is, or is like, a dilution levy or dilution adjustment, is to be treated as part of the price of the units and not as part of any charge; and
 - (B) any switching charge made in respect of an exchange of units in one sub-fund or separate part of the second scheme for units in another sub-fund or separate part of that scheme is to be included as part of the consideration paid for the units.
- 14.8 Notwithstanding clause 14.2 no more than 10% of the value of the Scheme Property of the VT Downing Monthly Income Fund may be invested in other collective investment schemes.
- 15. Investment in nil and partly paid securities**
- A transferable security or an approved money market instrument on which any sum is unpaid may be held provided that it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the Sub-fund, at any time when payment is required without contravening the FCA Handbook.
- 16. Investment in Deposits**
- A Sub-fund may only invest in deposits with an Approved Bank and which are repayable on demand, or have the right to be withdrawn, and maturing in no more than 12 months.
- 17. Significant Influence**
- 17.1 The Company must not acquire transferable securities issued by a body corporate and carrying rights to vote (whether or not on substantially all matters) at a general meeting of that body corporate if:

- (A) immediately before the acquisition, the aggregate of any such securities held by the Company gives the Company power to significantly influence the conduct of business of that body corporate; or
- (B) the acquisition gives the Company that power.

17.2 For the purposes of paragraph 17.1, the Company is to be taken to have power significantly to influence the conduct of business of a body corporate if it can, because of the transferable securities held by it, exercise or control the exercise of 20% or more of the voting rights in that body corporate (disregarding for this purpose any temporary suspension of voting rights in respect of the transferable securities of that body corporate).

18. **Concentration**

18.1 The Company must not hold more than:

- 10% of the transferable securities (other than debt securities) issued by a body corporate which do not carry rights to vote on any matter at a general meeting of that body; or
- 10% of the debt securities issued by any single body*; or
- 10% of the approved money market instruments issued by any single body*; or
- 25% of the units in a collective investment scheme*.

*The Company need not comply with these limits if, at the time of acquisition, the net amount in issue of the relevant investment cannot be calculated.

19. **Cash and Near Cash**

19.1 Cash or near cash must not be retained in the Scheme Property except to the extent that this may reasonably be regarded as necessary in order to enable:

- (A) the pursuit of that Sub-fund's investment objective;
- (B) the redemption of Shares in that Sub-fund;
- (C) efficient management of the Sub-fund in accordance with its investment objective;
- (D) a purpose which may reasonably be regarded as ancillary to the investment objectives of that Sub-fund.

19.2 During the period of the initial offer the Scheme Property may consist of cash and near cash without limitation. Within the context of the ACD's policy of active asset allocation, the liquidity of each Sub-fund may vary in response to market conditions.

20. **EPM Techniques**

20.1 A Sub-fund may enter into stock lending arrangements and/or repurchase/reverse repurchase contracts ("EPM techniques").

20.2 The entry into stocklending arrangements or repurchase/reverse repurchase contracts for the account of a Sub-fund is permitted for the generation of additional income for the benefit of the Sub-fund, and hence for its investors.

20.3 The stock lending arrangements and repurchase/reverse repurchase contracts permitted by this section may be exercised by a Sub-fund when it reasonably appears to the Company to be appropriate to do so with a view to generating additional income for the Sub-fund with an acceptable degree of risk.

- 20.4 The Company or the Depositary at the request of Company may enter into a repurchase/reverse repurchase contract or a stock lending arrangement of the kind described in section 263B of the Taxation of Chargeable Gains Act 1992 (without extension by section 263C), but only if:
- (A) all the terms of the agreement under which securities are to be reacquired by the Depositary for the account of the Company are in a form which is acceptable to the Depositary and are in accordance with good market practice;
- (B) the counterparty is:
- an authorised person; or
 - a person authorised by a Home State regulator; or
 - a person registered as a broker-dealer with the Securities and Exchange Commission of the United States of America; or
 - a bank, or a branch of a bank, supervised and authorised to deal in investments as principal, with respect to OTC derivatives by at least one of the following federal banking supervisory authorities of the United States of America: the Office of the Comptroller of the Currency; the Federal Deposit Insurance Corporation; the Board of Governors of the Federal Reserve System; and the Office of Thrift Supervision; and
- (C) collateral is obtained to secure the obligation of the counterparty under the terms referred to in 20.3.1 and the collateral is:
- acceptable to the Depositary;
 - adequate; and
 - sufficiently immediate.
- 20.5 The counterparty for the purpose of paragraph 20.4 is the person who is obliged under the agreement referred to in paragraph 20.4(A) to transfer to the Depositary the securities transferred by the Depositary under the stock lending arrangement or securities of the same kind.
- 20.6 Paragraph 20.4(C) does not apply to a stock lending transaction made through Euroclear Bank SA/NV's Securities Lending and Borrowing Programme.
- 20.7 There is no limit on the value of the Scheme Property which may be the subject of repurchase/reverse repurchase arrangements or stock lending transactions.
- 20.8 The Company will have the right to terminate a stock lending arrangement at any time and demand the return of any or all of the securities loaned.
- 20.9 In the case that the Company enters into a reverse repurchase agreement, it will have the right to recall the full amount of cash or to terminate the reverse repurchase agreement on either an accrued or a mark-to market basis at any time. Where the cash is recallable at any time on a mark-to market basis, the mark-to-market value of the reverse repurchase agreement shall be used for the purposes of the calculation of the net asset value of the Sub-fund.
- 20.10 In the case that the Company enters into repurchase agreements, the Company will have the right to recall any securities subject to the agreement or to terminate the repurchase agreement at any time.
- 20.11 Fixed term repurchase and reverse repurchase contracts which do not exceed seven days shall be regarded as arrangements on terms which allow the assets to be recalled at any time by the Company.

- 20.12 All the revenues arising from EPM techniques shall be returned to the relevant Sub-fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees shall include fees and expenses payable to repurchase/reverse repurchase agreements counterparties and/or securities lending agents engaged by the Company from time to time. Such fees and expenses of any repurchase/reverse repurchase agreements counterparties and/or securities lending agents engaged by the Company, which will be at normal commercial rates together with VAT, if any, thereon, will be borne by the Company or the relevant Sub-fund in respect of which the relevant party has been engaged.
21. **Treatment of collateral for stock lending and repurchase/reverse repurchase transactions (“EPM techniques”)**
- 21.1 Collateral obtained by a Sub-fund in the context of EPM techniques must be:
- (A) transferred to the Depositary or its agent;
 - (B) at least equal in value, at the time of the transfer to the Depositary, to the value of the securities transferred by the Depositary; and
 - (C) in the form of one or more of:
 - cash; or
 - a certificate of deposit; or
 - a letter of credit; or
 - a readily realisable security ; or
 - commercial paper with no embedded derivative content; or
 - a qualifying money market fund.
- 21.2 Where the collateral is invested in units in a qualifying money market fund managed or operated by (or, for an ICVC, whose authorised corporate director is) the ACD or an associate of the ACD, the conditions in paragraph 14.5 must be complied with.
- 21.3 Collateral is sufficiently immediate for the purposes of this paragraph if:
- (A) it is transferred before or at the time of the transfer of the securities by the Depositary; or
 - (B) the Depositary takes reasonable care to determine at the time referred to in paragraph 21.3(A) that it will be transferred at the latest by the close of business on the day of the transfer.
- 21.4 The Depositary must ensure that the value of the collateral at all times is at least equal to the value of the securities transferred by the Depositary.
- 21.5 The duty in paragraph 21.4 may be regarded as satisfied in respect of collateral the validity of which is about to expire or has expired where the Depositary takes reasonable care to determine that sufficient collateral will again be transferred at the latest by the close of business on the day of expiry.
- 21.6 Any agreement for transfer at a future date of securities or of collateral (or of the equivalent of either) under this paragraph may be regarded, for the purposes of valuation and pricing of the Company or this Appendix, as an unconditional agreement for the sale or transfer of property, whether or not the property is part of the property of the authorised fund.

- 21.7 Collateral transferred to the Depositary is part of the Scheme Property for the purposes of the FCA Handbook, except in the following respects:
- (A) it does not fall to be included in any calculation of NAV or this Appendix, because it is offset under paragraph 21.6 by an obligation to transfer; and
 - (B) it does not count as Scheme Property for any purpose of this Appendix other than this paragraph.
- 21.8 Paragraphs 21.6 and 21.7 do not apply to any valuation of collateral itself for the purposes of this paragraph.
- 22. Collateral received for OTC derivative transactions and EPM techniques**
- 22.1 To the extent collateral is posted by a counterparty for the benefit of a Sub-fund, it will be taken into account as reducing the exposure to such counterparty. Each Sub-fund will require receipt of the necessary level of collateral so as to ensure counterparty exposure limits are not breached. Counterparty risk may be reduced to the extent that the value of the collateral received, in conjunction with paragraph 26.1, corresponds with the value of the amount exposed to counterparty risk at any given time.
- 22.2 Collateral used to reduce counterparty risk exposure will comply with the following criteria, or as otherwise required under the FCA Handbook or applicable law:
- (A) Liquidity - collateral (other than cash) will be highly liquid and traded on a regulated market or multi-lateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to its pre-sale valuation. Collateral will comply with the provisions of COLL (as summarised in paragraph 18 above).
 - (B) Valuation - collateral will be valued on a daily basis and assets that exhibit high price volatility will not be accepted as collateral unless suitably conservative haircuts are in place.
 - (C) Issuer credit quality - collateral will be of high quality.
 - (D) Correlation – collateral will be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
 - (E) Diversification - collateral will be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Sub-fund receives from a counterparty of EPM and OTC derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of the Sub-fund's Net Asset Value. When the Sub-fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer.
- 22.3 All assets received by the Sub-funds in the context of OTC derivative transactions and EPM techniques will be considered as collateral and will comply with the criteria above. Risks linked to the management of collateral, including operational and legal risks, are identified and mitigated by risk management procedures employed by the Company.
- 22.4 Where there is a title transfer, the collateral received will be held by the Depositary or a delegate thereof. For other types of collateral arrangement the collateral may be held by a third party custodian which is subject to prudential supervision and which is unrelated to the provider of the collateral.
- 22.5 Collateral received will be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.

23. **Permitted types of Collateral for OTC derivative transactions and EPM techniques**

23.1 It is proposed that the Company will accept collateral of any of the following types (subject, in the case of EPM techniques, to compliance with paragraph 21.1 above):

- (A) cash; or
- (B) government or other public securities; or
- (C) certificates of deposit issued by Approved Banks; or
- (D) bonds/commercial paper issued by Approved Banks or by non-bank issuers where the issue or the issuer are rated A1 or equivalent; or
- (E) letters of credit with a residual maturity of three months or less, which are unconditional and irrevocable and which are issued by Approved Banks; or
- (F) equity securities traded on a stock exchange in the EEA, Switzerland, Canada, Japan, the United States, Jersey, Guernsey, the Isle of Man, Australia or New Zealand.

24. **Reinvestment of Collateral**

24.1 Cash received as collateral for OTC derivatives and EPM techniques may not be invested or used other than as set out below:

- (A) placed on deposit with Approved Banks;
- (B) invested in high-quality government securities;
- (C) used for the purpose of reverse repurchase transactions, provided that the transactions are with credit institutions subject to prudential supervision and the Company is able to recall at any time the full amount of cash on an accrued basis; or
- (D) invested in a "Short Term Money Market Fund" as defined by the European Securities and Markets Authority's guidelines on a Common Definition of European Money Market Funds.

24.2 Re-invested cash collateral will be diversified in accordance with the diversification requirements outlined above in paragraph 22.2(E).

24.3 Invested cash collateral may not be placed on deposit with, or invested in securities issued by, the counterparty or a related entity.

24.4 The reinvestment of cash collateral leads to certain risks such as counterparty risk (e.g. borrower default) and market risk (e.g. decline in value of the collateral received or of the reinvested cash collateral) and these risks need to be monitored. The risk related to the reinvestment of cash collateral, which is not indemnified by the lending agent, is mitigated by investing cash collateral in highly liquid and diversified money market funds or in reverse repurchase agreements.

24.5 Non-cash collateral received cannot be sold, re-invested or pledged.

25. **Stress testing of Collateral**

25.1 In the event that the Company receives collateral for at least 30% of the Net Asset Value of a Sub-fund, it will implement regular stress tests carried out under normal and exceptional liquidity conditions in order to allow it to assess the liquidity risk attached to collateral.

26. **Haircut policy**

26.1 To the extent that collateral is received by the Sub-funds from a counterparty, it may be offset against counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification.

26.2 To the extent that the Company enters into an OTC derivative transaction or EPM technique which results in the Company receiving collateral in respect of a Sub-fund, the Company will ensure that it has in place a haircut policy in respect of each class of assets received as collateral in respect of the Sub-funds. Such a policy shall take account of the characteristics of the relevant asset class, including the credit standing of the issuer of the collateral, the price volatility of the collateral and the results of any stress tests which may be performed in accordance with the stress testing policy. In offsetting exposure, where the Company considers appropriate, the value of collateral may be reduced by a percentage (haircut) which provides, amongst other things, a buffer for short term fluctuations in the value of the exposure and of the collateral.

27. **Counterparty exposure reporting**

27.1 The annual report of the Company will contain details of (i) the counterparty exposure obtained through EPM techniques as well as exposure to OTC derivative transactions, (ii) counterparties to EPM techniques and OTC derivative transactions, (iii) the type and amount of collateral received by the Sub-funds to reduce counterparty exposure and (iv) revenues arising from EPM techniques for the reporting period, together with direct and indirect costs and fees incurred and to which entity these have been paid.

28. **Underwriting and Stock Placings**

28.1 Any power in COLL 5 to invest in transferable securities may be used for the purpose of entering into transactions to which this section applies, subject to compliance with any restriction in the Instrument of Incorporation.

28.2 This section applies, subject to paragraph 29.3, to any agreement or understanding which:

- (A) is an underwriting or sub-underwriting agreement; or
- (B) contemplates that securities will or may be issued or subscribed for or acquired for the account of the Sub-fund.

28.3 Paragraph 28.2 does not apply to:

- (A) an option; or
- (B) a purchase of a transferable security which confers a right to:
 - to subscribe for or acquire a transferable security; or
 - to convert one transferable security into another.
- (C) The exposure of the Sub-fund to agreements and understandings within paragraph 28.2 must, on any Business Day:
 - be covered in accordance with the requirements of rule COLL 5.3.3R (see paragraph 39); and
 - be such that, if all possible obligations arising under them had immediately to be met in full, there would be no breach of any limit in COLL 5.

29. **Borrowing powers**

- 29.1 The Company may, subject to the FCA Handbook, borrow money from an Eligible Institution or an Approved Bank for the use of the Company on the terms that the borrowing is to be repayable out of the Scheme Property.
- 29.2 Borrowing must be on a temporary basis and must not be persistent and in any event must not exceed three months without the prior consent of the Depositary, which may be given only on such conditions as appear appropriate to the Depositary to ensure that the borrowing does not cease to be on a temporary basis.
- 29.3 The ACD must ensure that borrowing does not, on any business day, exceed 10% of the value of the Scheme Property. For these purposes borrowing includes, as well as borrowing in a conventional manner, any other arrangement (including a combination of derivatives) designed to achieve a temporary injection of money into the Scheme Property in the expectation that the sum will be repaid.
- 29.4 These borrowing restrictions do not apply to “back to back” borrowing for cover for transactions in derivatives and forward transactions (see paragraph 39.5).
- 29.5 The Company must not issue any debenture unless it acknowledges or creates a borrowing that complies with paragraphs 29.1 and 29.2.
30. **Derivatives: general**
- 30.1 Sub-funds, if any, which may use derivatives in pursuit of their investment objectives, as well as Sub-funds which may use derivatives for efficient portfolio management purposes, must do so in accordance with the following rules.
- 30.2 The use of derivatives for efficient portfolio management will generally not increase the risk profile of a Sub-fund (see paragraph 45 for further details on efficient portfolio management). In adverse situations, however, a Sub-fund’s use of derivatives may become ineffective in hedging or efficient portfolio management and a Sub-fund may suffer significant loss as a result. A Sub-fund’s ability to use derivatives for efficient portfolio management may be limited by market conditions, regulatory limits and tax considerations. The use of derivatives for investment purposes may increase the risk profile of a Sub-fund.
- 30.3 A transaction in derivatives or a forward transaction must not be effected for a Sub-fund unless:
- (A) the transaction is of a kind specified in 31 below (Permitted transactions (derivatives and forwards)); and
 - (B) the transaction is covered, as required by paragraph 39 (Cover for transactions in derivatives and forward transactions).
- 30.4 Where a Sub-fund invests in derivatives, the exposure to the underlying assets must not exceed the limits in paragraphs 12 (Spread: general) and paragraphs 13 (Spread: government and public securities) save as provided in 30.8.
- 30.5 Where a transferable security or money-market instrument embeds a derivative, this must be taken into account for the purposes of complying with this section.
- 30.6 A transferable security or an approved money-market instrument will embed a derivative if it contains a component which fulfils the following criteria:
- (A) by virtue of that component some or all of the cash flows that otherwise would be required by the transferable security or approved money-market instrument which functions as host contract can be modified according to a specified interest rate, financial instrument price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable, and therefore vary in a way similar to a stand-alone derivative;

- (B) its economic characteristics and risks are not closely related to the economic characteristics and risks of the host contract; and
 - (C) it has a significant impact on the risk profile and pricing of the transferable security or approved money-market instrument.
- 30.7 A transferable security or an approved money-market instrument does not embed a derivative where it contains a component which is contractually transferable independently of the transferable security or the approved money-market instrument. That component shall be deemed to be a separate instrument.
- 30.8 Where a Sub-fund invests in an index based derivative, provided the relevant index falls within paragraph 41.4 – 41.8 (Relevant indices) the underlying constituents of the index do not have to be taken into account for the purposes of paragraphs 12 and 13.
- 30.9 The relaxation in 30.8 is subject to the ACD taking account of paragraph 1.2 (Prudent spread of risk).
- 31. Permitted transactions (derivatives and forwards)**
- 31.1 A transaction in a derivative must:
- (A) be in an approved derivative; or
 - (B) be one which complies with paragraph 35 (OTC transactions in derivatives).
- 31.2 The underlying of a transaction in a derivative must consist of any one or more of the following to which the Sub-fund is dedicated:
- (A) transferable securities permitted under paragraphs 2.2(A) and 2.2(C);
 - (B) money-market instruments permitted under paragraph 8;
 - (C) deposits permitted under paragraph 17;
 - (D) derivatives permitted under this rule;
 - (E) collective investment scheme units permitted under paragraph 14;
 - (F) financial indices which satisfy the criteria set out in COLL 5.2.20 A R;
 - (G) interest rates;
 - (H) foreign exchange rates; and
 - (I) currencies.
- 31.3 A transaction in an approved derivative must be effected on or under the rules of an eligible derivatives market as set out in Appendix 2.
- 31.4 A transaction in a derivative must not cause a Sub-fund to diverge from its investment objectives as stated in the Instrument of Incorporation and this Prospectus.
- 31.5 A transaction in a derivative must not be entered into if the intended effect is to create the potential for an uncovered sale of one or more transferable securities, money-market instruments, units in collective investment schemes or derivative provided that a sale is not to be considered as uncovered if the conditions in COLL 5.2.22R (3) (Requirement to cover sales) are satisfied.
- 31.6 Any forward transaction must be made with an Eligible Institution or an Approved Bank.

31.7 The Company will not undertake transactions in derivatives on commodities.

32. Financial indices underlying derivatives

32.1 The financial indices referred to in paragraph 31.2 are those which satisfy the following criteria:

- (A) the index is sufficiently diversified;
- (B) the index represents an adequate benchmark for the market to which it refers; and
- (C) the index is published in an appropriate manner.

32.2 A financial index is sufficiently diversified if:

- (A) it is composed in such a way that price movements or trading activities regarding one component do not unduly influence the performance of the whole index;
- (B) where it is composed of assets in which a Sub-fund is permitted to invest, its composition is at least diversified in accordance with the requirements with respect to spread and concentration set out in this section; and
- (C) where it is composed of assets in which a Sub-fund cannot invest, it is diversified in a way which is equivalent to the diversification achieved by the requirements with respect to spread and concentration set out in this section.

32.3 A financial index represents an adequate benchmark for the market to which it refers if:

- (A) it measures the performance of a representative group of underlyings in a relevant and appropriate way;
- (B) it is revised or rebalanced periodically to ensure that it continues to reflect the markets to which it refers, following criteria which are publicly available; and
- (C) the underlyings are sufficiently liquid, allowing users to replicate it if necessary.

32.4 A financial index is published in an appropriate manner if:

- (A) its publication process relies on sound procedures to collect prices, and calculate and subsequently publish the index value, including pricing procedures for components where a market price is not available; and
- (B) material information on matters such as index calculation, rebalancing methodologies, index changes or any operational difficulties in providing timely or accurate information is provided on a wide and timely basis.

32.5 Where the composition of underlyings of a transaction in a derivative does not satisfy the requirements for a financial index, the underlyings for that transaction shall where they satisfy the requirements with respect to other underlyings pursuant to paragraph 32.2, be regarded as a combination of those underlyings.

33. Transactions for the purchase of property

33.1 A derivative or forward transaction which will or could lead to the delivery of property for the account of a Sub-fund may be entered into only if:

- (A) that property can be held for the account of the Sub-fund; and
- (B) the ACD having taken reasonable care determines that delivery of the property under the transaction will not occur or will not lead to a breach of the rules in COLL.

34. Requirement to cover sales

- 34.1 No agreement by or on behalf of a Sub-fund to dispose of property or rights may be made unless:
- (A) the obligation to make the disposal and any other similar obligation could immediately be honoured by the Sub-fund by delivery of property or the assignment (or, in Scotland, assignation) of rights; and
 - (B) the property and rights at 27.1.1 are owned by the Sub-fund at the time of the agreement.
- 34.2 Paragraph 34.1 does not apply to a deposit.
- 34.3 Paragraph 34.1 does not apply where:
- (A) the risks of the underlying financial instrument of a derivative can be appropriately represented by another financial instrument and the underlying financial instrument is highly liquid; or
 - (B) the ACD or the Depositary has the right to settle the derivative in cash, and cover exists within the Sub-fund's property which falls within one of the following asset classes:
 - (1) cash;
 - (2) liquid debt instruments (e.g. government bonds of first credit rating) with appropriate safeguards (in particular, haircuts); or
 - (3) other highly liquid assets having regard to their correlation with the underlying of the financial derivative instruments, subject to appropriate safeguards (e.g. haircuts where relevant).
- 34.4 In the asset classes referred to in 34.3, an asset may be considered as liquid where the instrument can be converted into cash in no more than seven business days at a price closely corresponding to the current valuation of the financial instrument on its own market.

35. OTC transactions in derivatives

- 35.1 A transaction in an OTC derivative under paragraph 31.1(B) must be:
- (A) with an approved counterparty; a counterparty to a transaction in derivatives is approved only if the counterparty is:
 - an Eligible Institution or an Approved Bank; or
 - a person whose permission (including any requirements or limitations), as published in the FCA Register, or whose home state authorisation, permits it to enter into the transaction as principal off-exchange;
 - (B) on approved terms; the terms of the transaction in derivatives are approved only if the ACD:
 - carries out, at least daily, a reliable and verifiable valuation in respect of that transaction corresponding to its fair value (i.e. the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction) and which does not rely only on market quotations by the counterparty; and
 - can enter into one or more further transactions to sell, liquidate or close out that transaction at any time, at its fair value; and

- (C) capable of reliable valuation; a transaction in derivatives is capable of reliable valuation only if the ACD having taken reasonable care determines that, throughout the life of the derivative (if the transaction is entered into), it will be able to value the investment concerned with reasonable accuracy:
- on the basis of an up-to-date market value which the ACD and the Depositary have agreed is reliable; or
 - if the value referred to above is not available, on the basis of a pricing model which the ACD and the Depositary have agreed uses an adequate recognised methodology; and
- (D) subject to verifiable valuation; a transaction in derivatives is subject to verifiable valuation only if, throughout the life of the derivative (if the transaction is entered into) verification of the valuation is carried out by:
- an appropriate third party which is independent from the counterparty of the derivative, at an adequate frequency and in such a way that the ACD is able to check it; or
 - a department within the ACD which is independent from the department in charge of managing the scheme property and which is adequately equipped for such a purpose.

36. **Risk management: derivatives**

- 36.1 The ACD uses a risk management process enabling it to monitor and measure as frequently as appropriate the risk of a Sub-fund's positions and their contribution to the overall risk profile of the Sub-fund.
- 36.2 The following details of the risk management process must be notified by the ACD to the FCA in advance of the use of the process as required by 29.1:
- (A) the methods for estimating risks in derivative and forward transactions; and
- (B) the types of derivative and forwards to be used within the Sub-fund together with their underlying risks and any relevant quantitative limits.
- 36.3 The ACD must notify the FCA in advance of any material alteration to the details in 29.2.1 and 29.2.2.

37. **Risk management process**

- 37.1 The risk management process should take account of the investment objectives and policy of the Sub-fund as stated in this prospectus.
- 37.2 The Depositary should take reasonable care to review the appropriateness of the risk management process in line with its duties under COLL 6.6.14(1) (Duties of the depositary and authorised fund manager: investment and borrowing powers), as appropriate.
- 37.3 The ACD is expected to demonstrate more sophistication in its risk management process for a Sub-fund with a complex risk profile than for one with a simple risk profile. In particular, the risk management process should take account of any characteristic of non-linear dependence in the value of a position to its underlying.
- 37.4 The ACD should take reasonable care to establish and maintain such systems and controls as are appropriate to its business as required by SYSC 3.1 (Systems and controls).

37.5 The risk management process should enable the analysis required by paragraph 36 to be undertaken at least daily or at each valuation point whichever is the more frequent.

38. Derivatives exposure

38.1 A Sub-fund may invest in derivatives and forward transactions as long as the exposure to which the Sub-fund is committed by that transaction itself is suitably covered from within its Scheme Property. Exposure will include any initial outlay in respect of that transaction.

38.2 Cover ensures that a Sub-fund is not exposed to the risk of loss of property, including money, to an extent greater than the net value of the Scheme Property. Therefore, a Sub-fund must hold Scheme Property sufficient in value or amount to match the exposure arising from a derivative obligation to which the Sub-fund is committed. Paragraph 39 (Cover for transactions in derivatives and forward transactions) sets out detailed requirements for cover of a Sub-fund.

38.3 Cover used in respect of one transaction in derivatives or forward transaction must not be used for cover in respect of another transaction in derivatives or a forward transaction.

39. Cover for transactions in derivatives and forward transactions

39.1 A transaction in derivatives or forward transaction is to be entered into only if the maximum exposure, in terms of the principal or notional principal created by the transaction to which the scheme is or may be committed by another person is covered globally.

39.2 Exposure is covered globally if adequate cover from within the Scheme Property is available to meet the scheme's total exposure, taking into account the value of the underlying assets, any reasonably foreseeable market movement, counterparty risk, and the time available to liquidate any positions.

39.3 Cash not yet received into the Scheme Property but due to be received within one month is available as cover.

39.4 Property the subject of a stock lending transaction is only available for cover if the ACD has taken reasonable care to determine that it is obtainable (by return or re-acquisition) in time to meet the obligation for which cover is required.

39.5 The global exposure relating to derivatives held in a Sub-fund may not exceed the net value of the Scheme Property.

40. Cover and borrowing

40.1 Cash obtained from borrowing, and borrowing which the ACD reasonably regards an Eligible Institution or an Approved Bank to be committed to provide, is available for cover under the previous paragraph 39 (cover for transactions in derivatives and forward transactions) as long as the normal limits on borrowing (see below) are observed.

40.2 Where, for the purposes of this paragraph the Company borrows an amount of currency from an Eligible Institution or an Approved Bank; and keeps an amount in another currency, at least equal to such borrowing for the time on deposit with the lender (or his agent or nominee), then this applies as if the borrowed currency, and not the deposited currency, were part of the Scheme Property, and the normal limits on borrowing under paragraph 29 (Borrowing powers) do not apply to that borrowing.

41. Schemes replicating an index

Please note that this investment power is not relevant for any of the existing Sub-funds although it may be applicable to any new Sub-funds of the Company.

- 41.1 Notwithstanding paragraph 12 (spread: general) a Sub-fund may invest up to 20% in value of the Scheme Property in shares and debentures which are issued by the same body where the stated investment policy is to replicate the composition of a relevant index as defined below.
- 41.2 Replication of the composition of a relevant index shall be understood to be a reference to replication of the composition of the underlying assets of that index, including the use of techniques and instruments permitted for the purpose of efficient portfolio management.
- 41.3 The 20% limit in 41.1 can be raised for a particular Sub-fund up to 35% in value of the Scheme Property, but only in respect of one body and where justified by exceptional market conditions. In the event that 20% limit is raised the ACD will provide appropriate information in the Simplified Prospectus in order to explain the ACD's assessment of why this increase is justified by exceptional market conditions.
- 41.4 In the case of a Sub-fund replicating an index the Scheme Property need not consist of the exact composition and weighting of the underlying in the relevant index in cases where the Sub-fund's investment objective is to achieve a result consistent with the replication of an index rather than an exact replication.
- 41.5 The indices referred to above are those which satisfy the following criteria:
- (A) The composition is sufficiently diversified;
 - (B) The index represents an adequate benchmark for the market to which it refers; and
 - (C) The index is published in an appropriate manner.
- 41.6 The composition of an index is sufficiently diversified if its components adhere to the spread and concentration requirements in this section.
- 41.7 An index represents an adequate benchmark if its provider uses a recognised methodology which generally does not result in the exclusion of a major issuer of the market to which it refers.
- 41.8 An index is published in an appropriate manner if:
- (A) it is accessible to the public;
 - (B) the index provider is independent from the index-replicating Sub-fund; this does not preclude index providers and the Sub-fund from forming part of the same group, provided that effective arrangements for the management of conflicts of interest are in place.
- 42. Restrictions on lending of money**
- 42.1 None of the money in the Scheme Property of the Sub-fund may be lent and, for the purposes of this prohibition, money is lent by the Sub-fund if it is paid to a person (the "payee") on the basis that it should be repaid, whether or not by the payee.
- 42.2 Acquiring a debenture is not lending for the purposes of paragraph 42.1; nor is the placing of money on deposit or in a current account.
- 42.3 Paragraph 42.1 does not prevent the Sub-fund from providing an officer of the Sub-fund with funds to meet expenditure to be incurred by him for the purposes of the Sub-fund (or for the purposes of enabling him properly to perform his duties as an officer of the Sub-fund) or from doing anything to enable an officer to avoid incurring such expenditure.
- 43. Restrictions on lending of property other than money**
- 43.1 The Scheme Property of the Sub-fund other than money must not be lent by way of deposit or otherwise.

43.2 Transactions permitted by paragraph 20 (EPM Techniques) are not lending for the purposes of paragraph 43.1.

43.3 The Scheme Property of the Sub-fund must not be mortgaged.

43.4 Nothing in this paragraph prevents a Sub-fund from providing an officer of the Sub-fund with funds to meet expenditure to be incurred by him for the purposes of the Sub-fund (or for the purposes of enabling him properly to perform his duties as an officer of the Sub-fund) or from doing anything to enable an officer to avoid incurring such expenditure.

44. **Guarantees and indemnities**

44.1 The Sub-fund or the Depositary for the account of the Sub-fund must not provide any guarantee or indemnity in respect of the obligation of any person.

44.2 None of the Scheme Property of the Sub-fund may be used to discharge any obligation arising under a guarantee or indemnity with respect to the obligation of any person.

44.3 Paragraphs 44.1 and 44.2 do not apply in respect of the Sub-fund to:

- (A) any indemnity or guarantee given for margin requirements where the derivatives or forward transactions are being used in accordance with the FCA Handbook;
- (B) an indemnity falling within the provisions of regulation 62(3) (Exemptions from liability to be void) of the OEIC Regulations;
- (C) an indemnity (other than any provision in it which is void under regulation 62 of the OEIC Regulations) given to the Depositary against any liability incurred by it as a consequence of the safekeeping of any of the Scheme Property by it or by anyone retained by it to assist it to perform its function of the safekeeping of the Scheme Property; and
- (D) an indemnity given to a person winding up a scheme if the indemnity is given for the purposes of arrangements by which the whole or part of the property of that scheme becomes the first property of the Sub-fund and the holders of units in that scheme become the first shareholders in the Sub-fund.

45. **Efficient Portfolio Management**

45.1 Each Sub-fund may in addition to the ability to use derivatives for investment purposes as referred to above, utilise the Scheme Property of the Sub-fund to enter into transactions for the purposes of hedging or efficient portfolio management ("EPM"). Permitted EPM transactions include transactions in derivatives e.g. to hedge against price or currency fluctuations, dealt with or traded on an eligible derivatives market; off-exchange options or contracts for differences; or synthetic futures in certain circumstances. The Sub-funds may effect synthetic short positions by using derivatives for EPM purposes. There is no limit on the amount or value of the Scheme Property of any Sub-fund which may be used for EPM but the ACD must take reasonable care to ensure that the transaction is economically appropriate to the reduction of the relevant risks (whether in the price of investments, interest rates or exchange rates) or to the reduction of the relevant costs and/or to the generation of additional capital or income with an acceptably low level of, risk. The exposure must be fully "covered" by cash and/or other property sufficient to meet any obligation to pay or deliver that could arise (see below).

45.2 Permitted transactions are those that the Sub-fund reasonably regards as economically appropriate to EPM, that is:

- (A) Transactions undertaken to reduce risk or cost in terms of fluctuations in prices, interest rates or exchange rates where the ACD reasonably believes that the transaction will diminish a risk or cost of a kind or level which it is sensible to reduce; or

- (B) Transactions for the generation of additional capital growth or income for the Sub-fund by taking advantage of gains which the ACD reasonably believes are certain to be made (or certain, barring events which are not reasonably foreseeable) as a result of:
- (1) pricing imperfections in the market as regards the property which the Sub-fund holds or may hold; or
 - (2) receiving a premium for the writing of a covered call option or a covered put option on property of the Sub-fund which the Company is willing to buy or sell at the exercise price.
- 45.3 Transactions may take the form of “derivatives transactions” (that is, transactions in options, futures or contracts for differences) or forward currency transactions. A derivatives transaction must either be in a derivative which is traded or dealt in on an eligible derivatives market (and effected in accordance with the rules of that market), or be an off-exchange derivative which complies with the relevant conditions set out in the FCA Handbook, or be a “synthetic future” (i.e. a composite derivative created out of two separate options). Forward currency transactions must be entered into with counterparties who satisfy the FCA Handbook. A permitted transaction may at any time be closed out.
- 45.4 Permitted EPM transactions must also fulfil the following criteria:
- (A) their risks are adequately captured in risk management procedures implemented in relation to the Company; and
 - (B) they cannot result in a change to a Sub-fund's declared investment objective or add supplementary risks in comparison to the general risk policy as described in this Prospectus.
- 45.5 While the use of EPM transactions will be in line with the best interests of the Sub-funds, individual techniques may result in increased counterparty risk and potential conflicts of interest (examples include but are not limited to where the counterparty is a related party).
- 45.6 The Company will ensure, at all times, that the terms of EPM transactions, including any investment of cash collateral, will not impact on its ability to meet with its redemption obligations.
- 45.7 Please refer to the section on “Risk Factors” for details of the risks involved in relation to efficient portfolio management techniques.

This Fund was launched on 14 June 2010.

On 1 December 2020 this Fund changed its name from MI Downing Monthly Income Fund to VT Downing Monthly Income Fund.

Past performance is not a guide to future returns. The value of the Sub-fund and the income from it may go down as well as up, so you may not get back the amount you invested.

Target Market for MiFID II:

Type of clients: retail, professional clients and eligible counterparties (subject to the applicable legal and regulatory requirements in the relevant jurisdiction).

Clients' knowledge and experience: investors with at least basic knowledge and experience of funds which are to be managed in accordance with a specific investment objective and policy.

Clients' financial situation with a focus on ability to bear losses: Investors must be prepared to accept fluctuations in the value of capital including capital loss and accept the risks of investing in equity markets, including having the ability to bear 100% capital loss.

Clients' risk tolerance and compatibility of risk/reward profile of the product with the target market: due to the volatility of markets and specific risks of investing in shares in a fund (including those set out in the risk warnings in this Prospectus), investors should have a high risk tolerance. They should be willing to accept price fluctuations in exchange for the opportunity of higher returns.

Clients' objectives and needs: investors should be seeking to invest for the medium to long term who wish to gain access to a portfolio managed in accordance with the specific investment objective and policy of the Sub-fund.

Clients' who should not invest: shares in the Company is deemed incompatible for investors which:

- are looking for full capital protection or full repayment of the amount invested and clients who want a guaranteed return (whether income or capital)
- are fully risk averse/have no risk tolerance
- need a fully guaranteed income of fully predictable return profile

Distribution channel: This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

Best Execution:

The ACD's order execution policy sets out the factors which the ACD expects the Investment Manager to consider when effecting transactions and placing orders in relation to the Company.

This policy has been developed in accordance with the ACD's obligations under the Regulations to obtain the best possible result for the Company. Details of the order execution policy are available on the ACD's website at www.valu-trac.com
