The Depositary is permitted to delegate (and authorised its delegate to sub-delegate) the safekeeping of Company property. The Depositary has appointed RBC Investor Services Trust, UK Branch to act as custodian of the property of the Company (the “Custodian”).

5.3 Conflicts of interest

The Depositary will, however, have regard in such event to its obligations under the Depositary Agreement and the Regulations and, in particular, will

use reasonable endeavours to ensure that the performance of its duties will not be impaired by any such involvement it may have and that any conflicts which may arise will be resolved fairly and in the best interests of Shareholders collectively so far as practicable, having regard to its obligations to other clients.

Nevertheless, as the Depositary operates independently from the Company, Shareholders, the ACD and its associated suppliers and the Custodian, the Depositary does not anticipate any conflicts of interest with any of the aforementioned parties.

result of its fraud, negligence, default or bad faith). The ACD may be entitled under the indemnities in the ACD Agreement to recover from the Company amounts paid by the ACD under the indemnities in the Investment Management Agreement.

Its registered office is at Foundation House, Scott Drive, Altrincham, Cheshire WA15 8AB. The principal activity of the Investment Manager is acting as an investment manager.

6.1.4 Investment management functions have been delegated by the ACD to the Investment Manager. The Investment Manager will manage, buy, sell, retain, convert, exchange or otherwise deal in the assets of the company in such types of investment on such markets and in such proportions as and when the Investment Manager deems appropriate to exercise its discretion in achieving the investment objectives of the Company whilst always adhering to the terms of this prospectus and FCA requirements.

9 Conflicts of Interest

The ACD, the Investment Manager, and other companies within the ACD and/or the Investment Manager's group may, from time to time, act as investment

manager or advisers to other funds which follow similar investment objectives to that of the Company. It is therefore possible that the ACD and/or the Investment Manager may in the course of their business have potential conflicts of interest with the Company or that a conflict exists between the Company and other funds managed by the ACD. Each of the ACD and the Investment Manager will, however, have regard in such event to their obligations under the ACD Agreement and the Investment Management Agreement respectively and, in particular, to its obligation to act in the best interests of the Company so far as practicable, having regard to its obligations to other clients, when undertaking any investment business where potential conflicts of interest may arise. Where a conflict of interest cannot be avoided, the ACD and the Investment Manager will ensure that the Company and other collective investment schemes they manage are fairly treated.

The ACD acknowledges that there may be some situations where the organisational or administrative arrangements in place for the management of conflicts of interest are not sufficient to ensure, with reasonable confidence, that risks of damage to the interests of the Company or its shareholders will be prevented. Should any such situations arise the ACD will disclose these to shareholders in the report and accounts or otherwise an appropriate format.

The Depositary may act as the depositary of other open-ended investment companies and as trustee or custodian of other collective investment schemes.

Details of the ACD's conflicts of interest policy are available on its website at: www.valu-trac.com.

10 Buying Selling and Switching Shares

The dealing office of the ACD is open from 8.3000 am until 5.30 pm (London Time) on each Dealing Day to receive requests for the issue and redemption of shares, which will be effected at prices determined at the next Valuation Point following receipt of such request.

Delivery versus Payment (DvP)

The ACD will make use of the revised 'delivery versus payment' (DvP) exemption as set out in the FCA Rules, which provides for a one Business Day window during which money held for the purposes of settling a transaction in Shares is not treated as 'client money'. Specifically, under the DvP exemption, money received by the ACD from an investor, or money due to be paid to an investor by the ACD, need not be treated as client money if: (i) the ACD receives the money from an investor for the subscription of Shares and the money is passed to the Depositary for the purpose of creating Shares by close of business on the Business Day following receipt of money from the investor; or (ii) the ACD holds the money in the course of redeeming Shares provided that the proceeds of that redemption are paid to an investor by close of business on the Business Day following receipt from the Depositary.

Accordingly under the exemption when investors are buying Shares the ACD will protect investor money in a client money account if it does not pass the investor's money onto the Depositary by the close of the Business Day following receipt. Similarly when Shareholders sell shares in the ICVC, the ACD will protect their money in a client money account if it does not pass their money to them by the close of the Business Day following receipt from the Depositary.

11 Buying Shares

11.1 Procedure

11.1.1 Shares can be bought by sending clear written instructions or a completed application form to the ACD. Applications forms are available from the ACD at Mains of Orton, Orton, Moray, IV32 7QE or telephoning 01343 880 344.

11.1.2 The ACD has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for shares in whole or part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the applicant. The ACD is not obliged to issue Shares unless it has received cleared funds from an investor.

11.1.3 A purchase of Shares in writing or by telephone or any other communication media made available is a legally binding contract. Applications to purchase,

once made are, except in the case where cancellation rights are applied, irrevocable. However, subject to its obligations under the Regulations, the ACD has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for Shares in whole or part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the applicant.

Any subscription monies remaining after a whole number of shares has been issued will not be returned to the applicant. Instead, smaller denomination shares (one-thousandth of a share) will be issued in such circumstances.

Applicants who have received advice may have the right to cancel their application to buy Shares at any time during the 14 days after the date on which they receive a contract notice from the ACD. If an applicant decides to cancel the contract, and the value of the investment has fallen at the time the ACD receives the completed cancellation notice, they will not receive a full refund as an amount equal to any fall in value will be deducted from the sum originally invested. The ACD may extend cancellation rights to other investors but is under no obligation to do so.

11.2 Documentation

11.2.1 A contract note giving details of the shares purchased and the price used will be issued by the end of the Dealing Day following the Valuation Point by reference to which the purchase price is determined, together with, where appropriate, a notice of the applicant's right to cancel.

11.2.2 Settlement is due on receipt by the purchaser of the contract note.

11.2.3 Share certificates will not be issued in respect of shares. Ownership of shares will be evidenced by an entry on the Company's Register of Shareholders. Individual statements of a shareholder's (or, when shares are jointly held, the first named holder's) shares will also be issued at any time on request by the registered holder.

11.3 In Specie Issue

The Instrument of the scheme provides that the Depositary may take into the scheme property assets other than cash as payment for the issue of shares but only if the Depositary has taken reasonable care to ensure that receipt or payment out of the property concerned would not be likely to result in any material prejudice to the interests of shareholders of the Company.

The ACD will ensure that the beneficial interest in the assets is transferred to the Company with effect from the issue of the Shares.

The ACD will not issue Shares in exchange for assets the holding of which would be inconsistent with the investment objective or policy of the Company.

11.4 Minimum subscriptions and holdings

11.4.1 The minimum initial and subsequent subscription level, and minimum holding, is set out in Appendix 1. The ACD may at its discretion accept subscriptions lower than the minimum amount.

11.4.2 If a holding is below the minimum holding the ACD has discretion to require redemption of the entire holding.

12 Selling Shares

12.1 Procedure

12.1.1 Every shareholder has the right to require that the Company redeem his shares on any Dealing Day unless the value of shares which a shareholder wishes to redeem will mean that the shareholder will hold shares with a value less than the required minimum holding, in which case the shareholder may be required to redeem his entire holding.

12.1.2 Requests to redeem shares may be made to the ACD by telephone on 01343 880 344 (followed up in writing) or in writing to the ACD at Mains of Orton, Orton, Moray, IV32 7QE.

12.1.3 Any subscription monies remaining after a whole number of shares has been issued will not be returned to the applicant. Instead, smaller denomination shares (one-thousandth of a share) will be issued in such circumstances.

12.2 **Documents the Seller will receive:**

12.2.1 A contract note giving details of the number and price of shares sold will be sent to the selling shareholder (the first named, in the case of joint shareholders) or their duly authorised agents together (if sufficient written instructions have not already been given) with a form of renunciation for completion and execution by the shareholder (and, in the case of a joint holding, by all the joint holders) not later than the end of the Dealing Day following the Valuation Point by reference to which the redemption price is determined. Settlement in satisfaction of the redemption monies will be issued within four Dealing Days or the later of:

12.2.2 receipt by the ACD of the form of renunciation (or other sufficient written instructions) duly signed by all the relevant shareholders and completed as to the appropriate number of shares, together with any other appropriate evidence of title;

12.2.3 the Valuation Point following receipt by the ACD of the request to redeem;

12.2.4 payments made by cheque will be sent by post to the last address notified by the shareholder to the ACD. It will be deemed to be received on the second day after posting. The ACD will not be responsible if the mailing is delayed except where as a result of the ACD's negligence. If the mailing goes astray or is intercepted the ACD reserves the right to fully investigate what has happened and will have no obligation to remit a second payment to the shareholder until satisfied with the results of the investigation; and

12.2.5 where the redemption proceeds are to be paid by telegraphic transfer, the ACD will make the payment to the bank account details last notified to the ACD. The redemption proceeds will be sent at the risk of the shareholder and the ACD will not be responsible if the telegraphic transfer is delayed, unless this is as a result of the ACD's negligence. The ACD reserves the right to fully investigate what has happened and will have no obligation to remit a second payment to the shareholder until satisfied with the results of the investigation.

12.3 **Minimum redemption**

Part of a shareholder's holding may be sold but the ACD reserves the right to refuse a redemption request if the value of the shares to be redeemed is less than any minimum redemption amount set out in Appendix 1 or would result in a shareholder holding less than the minimum holding, as detailed in Appendix 1.

12.4 **In Specie Redemption**

If a shareholder requests the redemption or cancellation of shares, the ACD may, if it considers the deal substantial in relation to the total size of the Company, arrange for the Company to cancel the shares and transfer Scheme Property to the shareholder instead of paying the price of the shares in cash, or, if required by the shareholder, pay the net proceeds of sale of the relevant Scheme Property to the shareholder. A deal involving shares representing 5% or more in value of the Company will normally be considered substantial, although the ACD may in its discretion agree an in specie redemption with a shareholder whose shares represent less than 5% in value of the Company.

Before the proceeds of cancellation of the shares become payable, the ACD will give written notice to the shareholder that Scheme Property (or the proceeds of sale of that Scheme Property) will be transferred to that shareholder.

The ACD will select the property to be transferred (or sold) in consultation with the Depositary. They must ensure that the selection is made with a view to achieving no greater advantage or disadvantage to the redeeming shareholder than to continuing shareholders.

12.5 **Direct Issue or Cancellation of units by an ICVC through the ACD**

Shares are issued or cancelled by the ACD making a record of the issue or cancellation and of the number of shares of each class concerned.

12.6 **Electronic Dealing**

The ACD may from time to time make arrangements to allow Shares to be bought or sold on-line or through other communication media (electronic or otherwise).

13 **Share Class Conversion**

13.1 If applicable, a holder of shares may at any time convert all or some of his shares (“Old Shares”) for shares of another class of the Company (“New Shares”). The number of New Shares issued will be determined by reference to the respective prices of New Shares and Old Shares at the Valuation Point applicable at the time the Old Shares are repurchased and the New Shares are issued

13.2 Subject to any restrictions on the eligibility of investors for a particular class, the ACD may, with the agreement of the Depositary, effect a mandatory conversion of all or some of a shareholder's shares in one class for share of another class in the Company if this is considered to be in the best interests of shareholders.¹

13.3 Conversion may be effected either by telephone on 01343 880344 or in writing to the ACD (at the address referred to in Section 12.1.2) and the shareholder may be required to complete a switching form (which, in the case of joint shareholders must be signed by all the joint holders). A converting shareholder must be eligible to hold the shares into which the conversion is to be made.

13.4 The ACD will not charge a fee on the conversion of shares between Classes.

13.5 If the conversion would result in the shareholder holding a number of Old Shares or New Shares of a value which is less than the minimum holding, the ACD may, if it thinks fit, convert the whole of the applicant's holding of Old Shares to New Shares or refuse to effect any switch of the Old Shares. No conversion will be made during any period when the right of shareholders to require the redemption of their shares is suspended (as to which see Section 18 below). The general provisions on selling shares shall apply equally to a conversion.

¹ Mandatory conversion right applies only from 20 November 2018

13.6 The ACD may adjust the number of New Shares to be issued to reflect the imposition of any conversion fee together with any other charges or levies in respect of the issue or sale of the New Shares or repurchase or cancellation of the Old Shares as may be permitted pursuant to the FCA Regulations.

13.7 A conversion of shares between different Share Classes will not be deemed to be a realisation for the purposes of capital gains taxation.

13.8 A shareholder who converts shares in one class for shares in any other class will not be given a right by law to withdraw from or cancel the transaction.

14 Dealing Charges

14.1 Preliminary Charge

The ACD may impose a charge on the sale of shares to investors which is based on the amount invested by the prospective investor. The preliminary charge is payable to the ACD. Full details of the current preliminary charge are set out in Appendix 1.

14.2 Redemption Charge

14.2.1 The ACD may make a charge on the redemption of shares. At present no redemption charge is levied.

14.2.2 The ACD may not introduce a redemption charge on shares unless, not less than 60 days before the introduction, it has given notice in writing to the then current Shareholders of that introduction and has revised and made available the Prospectus to reflect the introduction and the date of its commencement. If charged, the redemption charge will be deducted from the price of the shares being redeemed and will be paid by the Company to the ACD.

14.2.3 In the event of a change to the rate or method of calculation of a redemption charge, details of the previous rate or method of calculation will be available from the ACD.

15 Other Dealing Information

15.1 Dilution Adjustment

15.1.1 The basis on which the Company's investments are valued for the purpose of calculating the issue and redemption price of shares as stipulated in the FCA Regulations and the Company's Instrument of Incorporation is summarised in Section 21. The actual cost of purchasing or selling the Company's investments may be higher or lower than the mid market value used in calculating the share price - for example, due to dealing charges, or through dealing at prices other than the mid-market price. Under certain circumstances (for example, large volumes of deals) this may have an adverse effect on the shareholders' interest in the Company. In order to mitigate this effect, called "dilution", the ACD has the power to apply a "dilution adjustment", as defined in the FCA Rules on the issue and/or redemption of shares in the Company. A dilution adjustment is an adjustment to the share price. The ACD shall comply with the FCA Regulations in its application of any such dilution adjustment.

15.1.2 The dilution adjustment will be calculated by reference to the estimated costs of dealing in the underlying investments of the Company, including any dealing spreads, commission and transfer taxes.

15.1.3 The need to apply a dilution adjustment will depend on the volume of sales (where they are issued) or redemptions (where they are cancelled) of shares. The ACD may apply a dilution adjustment on the issue and redemption of such shares if, in its opinion, the existing shareholders (for sales) or remaining shareholders (for redemptions) might otherwise be adversely affected, and if applying a dilution adjustment, so far as practicable, it is fair to all shareholders and potential shareholders. In particular, the dilution adjustment may be applied in the following circumstances:

15.1.3.1 where over a dealing period the Company has experienced a large level of net sales or redemptions relative to its size;

15.1.3.2 on "large deals". For these purposes, a large deal means a deal worth 5% or more of the size of the Company;

15.1.3.3 Where the ACD considers it necessary to protect the interests of the shareholders of the Company.

It is therefore not possible to predict accurately whether dilution would occur at any point in time. If a dilution adjustment is required then, based on future projections, the estimated rate or amount of such adjustment will be 5%. If a dilution adjustment is not charged then this may restrict the future growth of the Company.

Except in relation to “large deals” the ACD has no plans at present to introduce a dilution adjustment on the purchase or sale of shares. If a dilution adjustment is made it will affect all deals placed for that valuation point regardless of size. The ACD may alter its dilution policy either by shareholder consent pursuant to the passing of a resolution to that effect at a properly convened meeting of shareholders and by amending this Prospectus or by giving shareholders notice and amending the Prospectus 60 days before the change to the dilution policy is to take effect.

15.2 **Market timing**

The ACD may refuse to accept a new subscription in the Company if, in the opinion of the ACD, it has reasonable grounds for refusing to accept a subscription or a switch from them. In particular, the ACD may exercise this discretion if it believes the Shareholder has been or intends to engage in market timing.

For these purposes, market timing activities include investment techniques which involve short term trading in and out of shares generally to take advantage of variation in the price of Shares between the daily valuation points in the Company. Short term trading of this nature may often be detrimental to long term Shareholders, in particular, the frequency of the dealing may lead to additional dealing costs which can affect long term performance.

15.3 **Stamp duty reserve tax ("SDRT")**

The charging of SDRT (at a rate of 0.5%) on the redemption of shares has now been abolished except from in relation to non-pro rata in specie redemptions.

The current policy is that all SDRT costs (if applicable) will be paid out of the Scheme Property and charged to capital and that SDRT will not be recovered from individual Shareholders. However, the ACD reserves the right to require individual Shareholders to pay SDRT whenever it considers that the circumstances have arisen which make such imposition fair to all Shareholders or potential Shareholders. Deductions of any such costs from capital may erode or constrain capital growth.

15.4 Transfers

Shareholders are entitled to transfer their Shares to another person or body. All transfers must be in writing in the form of an instrument of transfer approved by the ACD for this purpose. Completed instruments of transfer must be returned to the ACD in order for the transfer to be registered by the ACD. The ACD may refuse to register a transfer unless any provision for SDRT due has been paid.

16 Money Laundering

As a result of legislation in force in the UK to prevent money laundering, the ACD is responsible for compliance with anti-money laundering regulations. In order to implement these regulations, in certain circumstances investors may be asked to provide proof of identity when buying or redeeming Shares. Until satisfactory proof of identity is provided, the ACD reserves the right to refuse to issue Shares, pay the proceeds of a redemption of Shares, or pay income on Shares to the investor. In the case of a purchase of Shares where the applicant is not willing or is unable to provide the information requested within a reasonable period, the ACD also reserves the right to sell the Shares purchased and return the proceeds to the account from which the subscription was made. These proceeds may be less than the original investment. The ACD can use credit reference agencies (who will record that an enquiry has been made) and/or may check electronic databases. In the case of bodies corporate trusts and other legal arrangements, it is also required to establish the identity of any trustees or other controllers who have greater than 25% control of the body corporate or property of the trust that are not named on the application. In addition, it is also required to establish the identity of any individuals who have specified beneficial interest in the Shares. In the case of individuals it is required to establish the identity of any individuals who have a specified beneficial interest in the Shares that are not

named on the application. The applicant retains legal title to the Shares and instructions will only be accepted from the applicant. The beneficial owner details are required for anti-money laundering purposes only. The ACD reserves the right to refuse any application to investment without providing any justification for doing so

17 Restrictions, Compulsory Transfer and Deferred Redemption

17.1 The ACD may from time to time impose such restrictions as it may think necessary for the purpose of ensuring that no shares are acquired or held by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory. In this connection, the ACD may, inter alia, reject in its discretion any application for the purchase, sale or transfer of shares. If it comes to the notice of the ACD that any shares (“affected shares”):

- (a) are owned directly or beneficially in breach of any law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory; or
- (b) would result in the Company incurring any liability to taxation which the Company would not be able to recoup itself or suffering any other adverse consequence (including a requirement to register under any securities or investment or similar laws or governmental regulation of any country or territory); or
- (c) are held in any manner by virtue of which the shareholder or shareholders in question is/are not qualified to hold such shares or if it reasonably believes this to be the case; or
- (d) are owned by a shareholder who is registered in a jurisdiction (where the Company is not registered or recognised by the relevant competent authority) whereby communication with that shareholder by the ACD, on behalf of the Company, might constitute a breach of the regulations in that jurisdiction (unless specific action is taken by the ACD to prevent such a communication constituting a breach)

or if the ACD is not satisfied that any shares may not give rise to a situation discussed in (a), (b), (c) or (d), the ACD may give notice to the shareholder(s) of the affected shares requiring the transfer of such shares to a person who is qualified or entitled to own them or that a request in writing be given for the redemption of such shares in accordance with the COLL Sourcebook. If any shareholder upon whom such a notice is served does not within 30 days after the date of such notice transfer his affected shares to a person qualified to own them or submit a written request for their redemption to the ACD or establish to the satisfaction of the ACD (whose judgement is final and binding) that he or the beneficial owner is qualified and entitled to own the affected shares, he shall be deemed upon the expiry of that 30 day period to have given a request in writing for the redemption or cancellation (at the discretion of the ACD) of all the affected shares.

This may include a situation which a shareholder has moved to a different jurisdiction which either does or may give rise to a situation described in (a), (b), (c) or (d) above.

It is not possible for the ACD to be fully informed of current law and regulations in every jurisdiction and accordingly in the interests of shareholders and to be able to ensure no shares are held or acquired by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory or which would result in the Company incurring any liability to taxation which the Company is not able to recoup itself or suffering any other adverse consequence. The ACD's policy will be to treat shares of shareholders moving to jurisdictions other than EEA States as affected shares and may refuse to issue shares to anyone resident outside of one of the jurisdictions.

A shareholder who becomes aware that he is holding or owns affected shares shall immediately, unless he has already received a notice as set out above, either transfer all his affected shares to a person qualified to own them or submit a request in writing to the ACD for the redemption of all his affected shares.

Where a request in writing is given or deemed to be given for the redemption of affected shares, such redemption will (if effected) be effected in the same manner as provided for in the COLL Sourcebook.

17.2 The ACD has procedures to ensure, on a reasonable basis, that sufficient liquidity is available to meet redemptions or other requirements in both normal and exceptional circumstances. The current policy is that the Company should be capable of realising 25% of investments held within 48 hours and 50% of investments held within 5 working days (with the exception of physical property) in extreme circumstances.

17.3 **Deferred Redemption**

The ACD may defer redemptions at a particular Valuation Point to the next Valuation Point where the requested redemptions exceed 10% of the Company's value. The ACD will ensure the consistent treatment of all holders who have sought to redeem units at any Valuation Point at which redemptions are deferred. The ACD will pro-rata all such redemption requests to the stated level (ie. 10% of the Company's value) and will defer the remainder until the next Valuation Point. The ACD will also ensure that all deals relating to an earlier Valuation Point are completed before those relating to a later Valuation Point are considered.

18 Suspension of Dealings in the Company

18.1 The ACD may, with the agreement of the Depositary, or must if the Depositary so requires, and without prior notice to shareholders suspend the issue, cancellation, sale and redemption of shares in the Company, if the ACD or the Depositary is of the opinion that due to exceptional circumstances there is good and sufficient reason to do so having regard to the interests of shareholders or potential shareholders. Any suspension must reviewed every 28 days and be lifted as soon as practicable after the exceptional circumstances have ceased.

18.2 Re-calculation of the share price for the purpose of sales and purchases will commence on the next relevant Valuation Point following the ending of the suspension.

19 Governing Law

All deals in shares are governed by the laws of England and Wales.

20 Valuation of the Company

- 20.1 The price of a share in the Company is calculated by reference to the Net Asset Value. There is only a single price for any share as determined from time to time by reference to a particular Valuation Point. The Net Asset Value per share of the Company is currently calculated at 8.30am on each Dealing Day.
- 20.2 The ACD may at any time during a Dealing Day carry out an additional valuation if the ACD considers it desirable to do so.

21 Calculation of the Net Asset Value

- 21.1 The value of the Scheme Property of the Company shall be the value of its assets less the value of its liabilities determined in accordance with the following provisions.
- 21.2 All the Scheme Property (including receivables) of the Company is to be included, subject to the following provisions.
- 21.3 Scheme Property which is not cash (or other assets dealt with in Clause 20.4) or a contingent liability transaction shall be valued as follows:
- 21.3.1 units or shares in a collective investment scheme:
- 21.3.1.1 if a single price for buying and selling units is quoted, at the most recent such price; or
- 21.3.1.2 if separate buying or selling prices are quoted, at the average of the two prices provided the buying price has been reduced by any preliminary charge included therein and the selling price has been increased by any exit or redemption charge attributable thereto; or
- 21.3.1.3 if no price or no recent price exists, at a price which in the opinion of the ACD is fair and reasonable;
- 21.3.2 any other transferable security:

- 21.3.2.1 if a single price for buying and selling the security is quoted, at that price; or
 - 21.3.2.2 if separate buying and selling prices are quoted, the average of those two prices; or
 - 21.3.2.3 if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no price exists, at a value which in the opinion of the ACD reflects a fair and reasonable price for that investment;
- 21.3.3 property other than that described in 21.3.1 and 21.3.2 above:
 - 21.3.3.1 at a value which, in the opinion of the ACD, represents a fair and reasonable mid-market price.
- 21.4 Cash and amounts held in current and deposit accounts and in other time-related deposits shall be valued at their nominal values.
- 21.5 Property which is a contingent liability transaction shall be treated as follows:
 - 21.5.1 if it is a written option (and the premium for writing the option has become part of the Scheme Property), the amount of the net valuation of premium receivable shall be deducted.
 - 21.5.2 if it is an off-exchange future, it will be included at the net value of closing out in accordance with a valuation method agreed between the ACD and the Depositary;
 - 21.5.3 if the property is an off-exchange derivative, it will be included at a valuation method agreed between the ACD and Depositary;
 - 21.5.4 if it is any other form of contingent liability transaction, it will be included at the net value of margin on closing out (whether as a positive or negative value).

- 21.6 In determining the value of the Scheme Property, all instructions given to issue or cancel shares shall be assumed to have been carried out (and any cash paid or received) whether or not this is the case.
- 21.7 Subject to paragraphs 21.8 and 21.9 below, agreements for the unconditional sale or purchase of property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and, in the opinion of the ACD, their omission will not materially affect the final net asset amount.
- 21.8 Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 21.7.
- 21.9 All agreements are to be included under paragraph 21.7 which are, or ought reasonably to have been, known to the person valuing the property.
- 21.10 An estimated amount for anticipated tax liabilities at that point in time including (as applicable and without limitation) capital gains tax, income tax, corporation tax and advance corporation tax and value added tax will be deducted.
- 21.11 An estimated amount for any liabilities payable out of the Scheme Property and any tax thereon treating periodic items as accruing from day to day will be deducted.
- 21.12 The principal amount of any outstanding borrowings whenever repayable and any accrued but unpaid interest on borrowings will be deducted.
- 21.13 An estimated amount for accrued claims for tax of whatever nature which may be recoverable will be added.
- 21.14 Any other credits or amounts due to be paid into the Scheme Property will be added.
- 21.15 A sum representing any interest or any income accrued due or deemed to have accrued but not received will be added.

21.16 Currency or values in currencies other than the base currency shall be converted at a rate of exchange that is not likely to result in any material prejudice to the interests of shareholder or potential shareholders.

21.17 Where the ACD has reasonable grounds to believe that:

21.17.1 no reliable price exists for a security (including a unit/share in a collective investment scheme) at a valuation point; or

21.17.2 the most recent price available does not reflect the ACD's best estimate of the value of the security (including a unit/share in a collective investment scheme) at the Valuation Point;

it can value an investment at a price which, in its opinion, reflects a fair and reasonable price for that investment (the fair value price). The circumstances which may give rise to a fair value price being used include:

21.17.3 no recent trade in the security concerned; or

21.17.4 suspension of dealings in an underlying collective investment scheme;

21.17.5 the occurrence of significant movements in the markets in which the underlying collective investment schemes are invested since the last valuation point; or

21.17.6 the occurrence of a significant event since the most recent closure of the market where the price of the security is taken.

In determining whether to use such a fair value price, the ACD will include in their consideration but need not be limited to the type of authorised fund concerned the securities involved; whether the underlying collective investment schemes may already have applied fair value pricing; the basis and reliability of the alternative price used; and the ACD's policy on the valuation of Scheme Property as disclosed in this Prospectus.

22 Price per Share in each Class

The price per share at which shares are sold is the sum of the Net Asset Value of a share and any preliminary charge. The price per share at which shares are redeemed is the Net Asset Value per share less any applicable redemption charge. In addition, there may, for both purchases and sales, be a dilution adjustment, as described in Section 15 above.

23 Pricing basis

The Company deals on a forward pricing basis. A forward price is the price calculated at the next Valuation Point after the sale or redemption is agreed.

24 Publication of Prices

The most recent price of shares will be published on the Valu-Trac website (www.valu-trac.com). The prices of shares will also be available by telephoning the ACD on 01343 880 344.

As the ACD deals on a forward pricing basis, the price that appears in these sources will not necessarily be the same as the one at which investors can currently deal. The ACD may also, at its sole discretion, decide to publish certain Share prices in other third party websites or publications but the ACD does not accept responsibility for the accuracy of the prices published in, or for the non-publication of prices by, these sources for reasons beyond the control of the ACD.

25 Risk factors

25.1 Potential investors should consider the following risk factors before investing in the Company:

General

25.1.1 An investment in one or more of the Company will involve exposure to those risks normally associated with investment in fixed interest securities, stocks and shares. As such, the price of shares and the income from them can go down as well as up and an investor may not get back the amount he has invested. There is

no assurance that investment objectives of the Company will actually be achieved.

25.1.2 Where the Company uses a 'focused portfolio' to achieve its investment objective it may invest in fewer investments and consequently, the risk associated with a focused portfolio may be greater as fluctuations in the value of one investment may have a greater impact on the value of the Company as a whole.

25.1.3 In addition, the values, in pounds sterling terms, of investments that are not denominated in pounds sterling may rise and fall purely on account of exchange rate fluctuations, which will have a related effect on the price of shares.

25.1.4 Shares in all the Company should generally be regarded as long-term investments. Details of specific risks that apply to the Company are set out in Appendix 1.

25.1.5 Charges in respect of the Company may be taken against capital rather than income. This may constrain capital growth of the Company. It may also have tax implications for certain investors.

25.1.6 Where a preliminary charge or a redemption charge is imposed, a shareholder who realises his shares may not (even where there has been no fall in the value of underlying investments) realise the amount originally invested.

25.1.7 Where no dilution levy is charged to investments in or out of the Company the effect of these purchases or sales could have a dilution effect on the Company which may reduce performance.

25.2 **Emerging Markets**

25.2.1 Where the Company invests in some overseas markets these investments may carry risks associated with failed or delayed settlement of market transactions and with the registration and custody of securities.

25.2.2 Investment in emerging markets may involve a higher than average risk.

25.2.3 Investors should consider whether or not investment in the Company is either suitable for or should constitute a substantial part of an investor's portfolio.

25.2.4 Companies in emerging markets may not be subject:

25.2.4.1 to accounting, auditing and financial reporting standards, practices and disclosure requirements comparable to those applicable to companies in major markets;

25.2.4.2 to the same level of government supervision and regulation of stock exchanges as countries with more advanced securities markets.

25.2.5 Accordingly, certain emerging markets may not afford the same level of investor protection as would apply in more developed jurisdictions.

25.2.5.1 Restrictions on foreign investment in certain securities may be imposed on the Company and as a result, may limit investment opportunities for the Company. Substantial government involvement in, and influence on, the economy may affect the value of securities in certain emerging markets.

25.2.5.2 The reliability of trading and settlement systems in some emerging markets may not be equal to that available in more developed markets, which may result in delays in realising investments.

Lack of liquidity and efficiency in certain of the stock markets or foreign exchange markets in certain emerging markets may mean that from time to time the ACD may experience more difficulty in purchasing or selling holdings of securities than it would in a more developed market.

25.3 **Currency Exchange Rates**

Currency fluctuations may adversely affect the value of the Company's investments and the income thereon and, depending on a shareholder's currency

of reference, currency fluctuations may adversely affect the value of shares in the Company.

Investors should be aware that any currency hedging process may not give a precise hedge.

25.4 Derivatives

Derivative transactions may be used for the purposes of EPM. Where derivatives are used for EPM or in accordance with efficient portfolio management techniques then this will not compromise the risk profile of the Company. Use of derivatives will not contravene any relevant investment objectives or limits.

There is more detailed information in relation to investment in derivatives in Appendix 2, paragraph 1.8.

25.5 Counterparty and Settlement

The Company will be exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default.

25.6 Custody

There may be a risk of loss where the assets of the Company are held in custody that could result from the insolvency, negligence or fraudulent action of a custodian or sub-custodian.

25.7 Inflation and Interest Rates

The real value of any returns that an investor may receive from the Company could be affected by interest rates and inflation over time.

25.8 Taxation

Taxation laws and rates may change over time and could affect the value of investments in the Company and of the shares in the Company. See the section headed “Taxation” for further details about taxation of the Company.

25.9 **Liquidity**

In certain circumstances the Company may be invested in assets which cannot be liquidated in a timely manner at a reasonable price. This may impact the value of shares in the Company and the ability to redeem.

Investments made may become less liquid in response to market developments or adverse investor perception.

Liquidity risk also includes the risk that the Company will not be able to pay redemption proceeds within an allowance time period because of unusual market conditions, and unusually high volumes of redemption requests, or other controlled factors. To meet redemption requests, Company may be forced to sell investments at an unfavourable time and/or conditions.

25.10 **Risks associated with the UK leaving the European Union ("Brexit")**

In a referendum held on 23 June 2016, the UK voted to leave the European Union (informally known as "Brexit"). The formal process of implementing this decision exists in Article 50 of the Lisbon Treaty.

The political, economic and legal consequences of the referendum vote are not yet known. It is possible investments in the UK may be more difficult to value, to assess for suitability or risk, harder to buy or sell or subject to greater or more frequent rises and falls in value.

In the longer term, there is likely to be a period of uncertainty as the UK seeks to negotiate its exit from the European Union. The UK's laws and regulations concerning funds may in future diverge from those of the European Union. This may lead to changes in the operation of the Company or the rights of investors or the territories in which the Shares of the Company may be promoted and sold.

25.11 **Political Risk**

The value of the Company may be affected by uncertainties such as international political developments, civil conflicts and war, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of

countries in which investments may be made. For example, assets could be compulsorily re-acquired without adequate compensation.

Events and evolving conditions in certain economies or markets may alter the risks associated with investments in countries or regions that historically were perceived as comparatively stable becoming riskier and more volatile. These risks are magnified in countries in emerging markets.

25.12 **Cyber Security Risk**

As the use of technology has become more prevalent in the course of business, funds have become more susceptible to operational and financial risks associated with cyber security, including: theft, loss, misuse, improper release, corruption and destruction of, or unauthorised access to, confidential or highly restricted data relating to the company and the Shareholders and compromises or failures to systems, networks, devices and applications relating to the operations of the Company and its service providers. Cyber security risks may result in financial losses to the Company and the Shareholders; the inability of the Company to transact business with the Shareholders; delays or mistakes in the calculation of the Net Asset Value or other materials provided to Shareholders; the inability to process transactions with Shareholders or the parties; violations of privacy and other laws,; regulatory fines, penalties and reputational damage; and compliance and remediation costs, legal fees and other expenses. The Company's service providers (including but not limited to the ACD and the Depositary and their agents), financial intermediaries, companies in which a Fund invests and parties with which the Company engages in portfolio or other transactions also may be adversely impacted by cyber security risks in their own business, which could result in losses to the Company or the Shareholders. While measures have been developed which are designed to reduce the risks associated with cyber security, there is no guarantee that those measures will be effective, particularly since the Company does not directly control the cyber security defences or plans of its service providers, financial intermediaries and companies in which the Company invests or with which it does business.

25.13 **Cancellation Rights**

Where cancellation rights are applicable, if shareholders choose to exercise their cancellation rights and the value of their investment falls before notice of cancellation is received by the ACD in writing, a full refund of the original investment may not be provided but rather the original amount less the fall in value.

25.14 Regular Savings Plan

If a shareholder starts making regular monthly investments with a view to saving for a specific objective, they should regularly review whether these investments will be sufficient to achieve their objective. Shareholders may not achieve their objective if they do not continue to invest regularly with a sufficient amount, or the investments do not appreciate sufficiently.

25.15 Investment in Collectives

25.15.1 The Company may make investments in collective investment schemes. Such investments may involve risks not present in direct investments, including, for example, the possibility that an investee collective investment scheme may at any time have economic or business interests or goals which are inconsistent with those of the Company.

25.15.2 The Company bear the expenses and annual management charge of collective investment schemes which are held as part of the scheme property.

26 Liabilities of the Company

26.1 Shareholders are not liable for the debts of the Company. A shareholder is not liable to make any further payment to the Company after paying the purchase price of shares.

27 Risk Management

Upon request to the ACD a shareholder can receive information relating to:

27.1 the quantitative limits applying in the risk management of the Company;

- 27.2 the methods used in relation to 27.1; and
- 27.3 any recent developments of the risk and yields of the main categories of investment in the Company.

28 Historical Performance Data

Historical performance data for the Company is set out at Appendix 7.

29.1.1 The Company may pay out of the property of the Company charges and expenses incurred by the Company, which will include the following expenses:

- 29.1.1.1 the fees and expenses payable to the ACD (which will include the fees and expenses payable to the Investment Manager) and to the Depositary;

- 29.1.1.17 any payments otherwise due by virtue of the FCA Regulations; and
- 29.1.1.18 any value added or similar tax relating to any charge or expense set out herein.

29.1.2 Value Added Tax is payable on these charges where appropriate.

29.1.3 Expenses are allocated between capital and income in accordance with the FCA Regulations. Expenses allocated to capital may result in capital erosion. Deducting changes from capital may erode or constrain capital growth.

30 Charges payable to the ACD

30.1 In payment for carrying out its duties and responsibilities the ACD is entitled to take out of the Company an annual management charge. The annual management charge is calculated daily.

30.2 The annual management charge is based on the net asset value of the company on each business day, accrues daily and is payable monthly in arrears on the last Dealing Day of each month. The current management charges are set out in Appendix 1.

30.3 The ACD is also entitled to reimbursement of all reasonable, properly vouched, out of pocket expenses incurred in the performance of its duties, including stamp duty on transactions in shares.

30.4 At present the ACD's annual management charge is taken from income. However, where the amount of income received by the Company is insufficient to meet the annual management charge plus all other expenses attributable or apportioned to the Company, then some or all of such charge and expenses may be charged against the capital of the Company. This will only be done with the approval of the Depositary and may constrain capital growth.

30.5 The ACD may not introduce a new category of remuneration for its services unless the introduction has been approved by an extraordinary resolution of shareholders in the Company.

30.6 The ACD may not increase the current rate or amount of its remuneration payable out of the Scheme Property of the Company or the preliminary charge unless, not less than 60 days before the introduction or increase, the ACD gives notice in writing of the introduction or increase and the date of its commencement to all shareholders and has revised and made available the Prospectus to reflect the introduction or new rate and the date of its commencement.

31 Investment Managers' fees

The Investment Manager's fees and expenses (plus VAT thereon) are paid by the ACD out of its remuneration under the ACD Agreement.

32 Depositary's Fee

32.1 The Depositary receives for its own account a periodic fee which will accrue daily and is payable within seven days after the last Dealing Day in each month. The fee is calculated by reference to the value of the Company on the immediately preceding Dealing Day except for the first accrual which is calculated by reference to the first Valuation Point of the Company. The fee is payable out of the property attributable to the Company. The rate of the periodic fee is agreed between the ACD and the Depositary from time to time:

32.2 The current rate is:

- Up to £25 million – 4 basis points (0.04%) per annum
- £25 million to £50 million – 3.75 basis points (0.0375%) per annum
- £50 million to £100 million – 3.5 basis points (0.0350%) per annum
- thereafter – 3 basis points (0.03%) per annum

(plus VAT) subject to a minimum of £15,000 (plus VAT) per annum.

- 32.3 The first accrual will take place in respect of the period beginning on the day on which the first valuation of the Company is made and ending on the last Dealing Day of the month in which that day falls.
- 32.4 The remuneration payable to the Depositary out of the property of the Company for its services also includes transaction charges and custody charges. Transaction charges vary from country to country, dependent on the markets and the value of the stock involved and subject to a current range of £0 to £40 and accrue at the time the transactions are effected and are payable as soon as is reasonably practicable, and in any event not later than the last Business Day of the month when such charges arose or as otherwise agreed between the Depositary and the ACD. Custody charges again vary from country to country (usually between 0.01% and 0.12% per annum) depending on the markets and the value of the stock involved and accrue and are payable as agreed from time to time by the ACD and the Depositary.
- 32.5 In addition to the fees and charges payable to the Depositary referred to above, the amount payable to the Depositary out of the property of the Company by way of remuneration for its services may include charges in connection with its duties (or the exercise of powers conferred upon it by the OEIC Regulations or the FCA Regulations) referable to (but not limited to):
- (i) custody of assets (including overseas custody services);
 - (ii) the acquisition holding and disposal of property;
 - (iii) the collection and distribution to shareholders of dividends, interest and any other income;
 - (iv) the maintenance of distribution accounts;
 - (v) the conversion of foreign currency;
 - (vi) registration of assets in the name of the Depositary or its nominee or agents;

- (vii) borrowings, stock lending or other permitted transactions;
- (viii) communications with any parties (including telex, facsimile, SWIFT and electronic mail);
- (ix) taxation matters;
- (x) insurance matters;
- (xi) dealings in derivatives;
- (xii) costs and charges relating to banking and banking transactions;
- (xiii) preparation of the Depositary's annual report;
- (xiv) taking professional advice;
- (xv) conducting legal proceedings;
- (xvi) the convening and/or attendance at meetings of shareholders; and
- (xvii) modification of the Instrument of Incorporation, Prospectus, and negotiation and/or modification of the Depositary Agreement and any other agreement entered into between the Depositary and its delegates.

32.6 The Depositary will also be paid, expenses properly incurred in the performance of, or arranging the performance of, functions conferred on it by the Depositary Agreement, the FCA Regulations or by the general law. These expenses will be paid out of the property of the Company.

32.7 The Depositary shall be entitled to recover its fees, charges and expenses when the relevant transaction or other dealing is effected or relevant service is provided or as may otherwise be agreed between the Depositary and the Company or the ACD.

- 32.8 On a winding up of the Company or the redemption of a class of shares, the Depositary will be entitled to its *pro rata* fees, charges and expenses to the date of winding up or the redemption (as appropriate) and any additional expenses necessarily realised in settling or receiving any outstanding obligations. No compensation for loss of office is provided for in the agreement with the Depositary.
- 32.9 Any value added tax on any fees, charges or expenses payable to the Depositary will be added to such fees, charges or expenses.
- 32.10 Expenses and disbursements will also be payable if incurred by any person (including the ACD or any associate or nominee of the Depositary or of the ACD) who has had the relevant duty delegated to it pursuant to the FCA Regulations by the Depositary.

33 Shareholder Meetings and Voting Rights

33.1 Requisitions of Meetings

- 33.1.1 The ACD may requisition a general meeting at any time. Annual general meetings are not held.
- 33.1.2 Shareholders may also requisition a general meeting of the Company. A requisition by shareholders must state the objects of the meeting, be dated, be signed by shareholders who, at the date of the requisition, are registered as holding not less than one-tenth in value of all shares then in issue and the requisition must be deposited at the head office of the Company. The ACD must convene a general meeting no later than eight weeks after receipt of such requisition.

33.2 Notice of Quorum

Shareholders will receive at least 14 days' notice of a Shareholders' meeting and are entitled to be counted in the quorum and vote at such meeting either in person or by proxy. The quorum for an Adjourned Meeting is also two shareholders present in person or by proxy, however if a quorum is not present from a reasonable time from the time appointed for the meeting then one person entitled

to be counted in a quorum shall be a quorum. Notices of Meetings and Adjourned Meetings will be sent to shareholders at their registered addresses.

33.3 Voting Rights

- 33.3.1 At a meeting of shareholders, on a show of hands every shareholder who (being an individual) is present in person or (being a corporation) is present by its representative properly authorised in that regard, has one vote.
- 33.3.2 On a poll vote, a shareholder may vote either in person or by proxy. The voting rights attaching to each share are such proportion of the voting rights attached to all the shares in issue that the price of the share bears to the aggregate price(s) of all the shares in issue at the date seven days before the notice of meeting is deemed to have been served.
- 33.3.3 A shareholder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.
- 33.3.4 Except where the FCA Regulations or the Instrument of Incorporation of the Company require an extraordinary resolution (which needs 75% of the votes cast at the meeting to be in favour if the resolution is to be passed) any resolution will be passed by a simple majority of the votes validly cast for and against the resolution.
- 33.3.5 The ACD may not be counted in the quorum for a meeting and neither the ACD nor any associate (as defined in the FCA Rules) of the ACD is entitled to vote at any meeting of the Company except in respect of shares which the ACD or associate holds on behalf of or jointly with a person who, if the registered shareholder, would be entitled to vote and from whom the ACD or associate has received voting instructions.
- 33.3.6 “Shareholders” in this context means shareholders on the date seven days before the notice of the relevant meeting was deemed to have been served but excludes holders who are known to the ACD not to be shareholders at the time of the meeting.

34 Class Meetings

The above provisions, unless the context otherwise requires, apply to Share Class meetings as they apply to general meetings of shareholders.

34.1 Variation of Class Rights

The rights attached to a class may not be varied without the sanction of a resolution passed at a meeting of shareholders of that Share Class by a simple majority of those votes validly cast for and against such resolution.

35 Taxation

35.1 Taxation Of The Company

35.1.1 Income

The Company will be liable to corporation tax on its taxable income, less management and other allowable expenses, at the same rate as the lower rate of income tax (currently 20%). Any dividend received by the Company will not normally be charged to corporation tax provided it falls within one of the exempt classes set out in the relevant legislation. The Company will be subject to corporation tax on most types of income but after deducting allowable management expenses and the gross amount of any interest distributions. Where the Company suffers foreign tax on income received, this will normally be an irrecoverable tax expense.

35.1.2 Capital gains

Capital gains accruing to the Company will be exempt from UK tax on capital gains realised on the disposal of its investments. However any gains realised on holdings in non-reporting offshore funds will incur a tax charge on disposal.

35.1.3 Stamp duty reserve tax ("SDRT")

The charging of SDRT (at a rate of 0.5%) on the redemption of shares has now been abolished except from in relation to non-pro rata in specie redemptions details of which are set out at 12.1 above.

35.2 Taxation Of The Shareholder

Under International Tax Compliance Regulations, the ACD is required to obtain and disclose details of shareholders and residual entities of their investments and payments of interest and other income (which may include distributions or redemption payments by collective investment funds) to HM Revenue & Customs, which will pass such details to the Member State where the shareholders reside. Should unitholders not comply with these requirements, they may be subject to the actions set out in Clause 17 – Redemptions, Compulsory Transfer and Deferred Redemption.

35.2.1 Income

Dividend distributions

It is anticipated that all distributions by the Company will be in the form of dividend distributions and that, accordingly, the Company will not pay any interest distributions.

UK resident individual shareholders

When the Company makes a dividend distribution in respect of income shares (or is deemed to make such a distribution in respect of accumulation shares), it is paid gross and Shareholders will be liable to any income tax on the gross dividend distribution above the prevailing dividend tax allowance and any other relevant allowances.

Equalisation

Where income equalisation applies, the first accumulation of income after shares are issued may include an amount reflecting accrued income included in the issue price. This amount is capital and is not subject to tax as income.

35.2.2 Capital gains

Shareholders may, depending on their circumstances, be liable to capital gains tax or corporation tax on chargeable gains arising from a disposal of any Shares.

Equalisation

Where income equalisation applies to income (but not accumulation) shares, the part of the issue price of shares which reflects accrued income and is returned to the shareholder with the first allocation of income following the issue is deducted from the shareholder's capital gains tax base cost in the shares. In the case of accumulation shares, the capital is not distributed but remains invested throughout.

35.2.3 Inheritance tax

Shareholdings of an individual shareholder may become subject to an inheritance tax liability under the following circumstances. During an individual's lifetime, any transfer of shareholdings at less than market value may be liable.

Additionally, transfer following the death of the individual may also be liable. The charge to inheritance tax is not restricted to UK individuals. Reliefs and exemptions may apply to reduce or extinguish any liability to inheritance tax. Investors should seek professional advice if they are unclear on the inheritance tax consequences of investing in the Company.

35.3 **General Summary Only**

The above section is only intended as a general summary of UK tax law and practice as at the date of issue of this prospectus (which may change in the future) applicable to individual and corporate shareholders who are the absolute beneficial owners of a shareholding in the Company held as an investment and its applicability will depend upon the particular circumstances of each shareholder. In particular, the summary may not apply to certain classes of shareholder (such as financial institutions). It should not be treated as legal or tax advice and,

accordingly, any shareholder who is in any doubt as to his UK tax position in relation to the Company should consult his UK professional adviser.

36 Income equalisation

36.1 Income equalisation, as explained below, may apply in relation to the Company, as detailed in Appendix 1.

36.2 Part of the purchase price of a share reflects the relevant share of accrued income received or to be received by the Company. This capital sum is returned to a shareholder with the first allocation of income in respect of a share issued during an accounting period.

36.3 The amount of income equalisation is either the actual amount of income included in the issue price of that share or is calculated by dividing the aggregate of the amounts of income included in the price of shares issued or sold to shareholders in an annual or interim accounting period by the number of those shares and applying the resultant average to each of the shares in question.

37 Winding up of the Company

37.1.1 The Company shall not be wound up except as an unregistered company under Part V of the Insolvency Act 1986 or under the FCA Regulations.

37.1.2 Where the Company is to be wound up under the FCA Regulations, such winding up may only be commenced following approval by the FCA. The FCA may only give such approval if the ACD provides a statement (following an investigation into the affairs of the Company) either that the Company will be able to meet its liabilities within 12 months of the date of the statement or that the Company will be unable to do so. The Company may not be wound up under the FCA Regulations if there is a vacancy in the position of ACD at the relevant time.

37.1.3 The Company may be wound up under the FCA Regulations if:

37.1.3.1 an extraordinary resolution to that effect is passed by shareholders; or

- 37.1.3.2 the period (if any) fixed for the duration of the Company by the Instrument of Incorporation expires, or an event (if any) occurs on the occurrence of which the Instrument of Incorporation provides that the Company is to be wound up (for example, if the share capital of the Company is below its prescribed minimum or the Net Asset Value of the Company is less than £1,000,000, or if a change in the laws or regulations of any country means that, in the ACD's opinion, it is desirable to terminate the Company); or
 - 37.1.3.3 on the date of effect stated in any agreement by the FCA to a request by the ACD for the revocation of the authorisation order in respect of the Company;
- 37.1.4 On the occurrence of any of the above:
 - 37.1.4.1 the parts of the FCA Regulations and the Instrument of Incorporation relating to Pricing and Dealing and Investment and Borrowing will cease to apply to the Company;
 - 37.1.4.2 the Company will cease to issue and cancel shares in the Company and the ACD shall cease to sell or redeem shares or arrange for the Company to issue or cancel them for the Company;
 - 37.1.4.3 no transfer of a share shall be registered and no other change to the register shall be made without the sanction of the ACD;
 - 37.1.4.4 where the Company is being wound up, the Company shall cease to carry on its business except in so far as it is beneficial for the winding up of the Company;
 - 37.1.4.5 the corporate status and powers of the Company and, subject to the provisions of paragraphs 37.1.4.1 and 37.1.4.4 above, the powers of the ACD shall remain until the Company is dissolved.
- 37.1.5 The ACD shall, as soon as practicable after the Company falls to be wound up, realise the assets and meet the liabilities of the Company and, after paying out or

retaining adequate provision for all liabilities properly payable and retaining provision for the costs of winding up, arrange for the Depositary to make one or more interim distributions out of the proceeds remaining (if any) to shareholders proportionately to their rights to participate in the Scheme Property of the Company. When the ACD has caused all of the Scheme Property to be realised and all of the liabilities of the Company to be realised, the ACD shall arrange for the Depositary to also make a final distribution to shareholders (if any Scheme Property remains to be distributed) on or prior to the date on which the final account is sent to shareholders of any balance remaining in proportion to their holdings in the Company.

37.1.6 As soon as reasonably practicable after completion of the winding up of the Company, the ACD shall notify the FCA.

37.1.7 On completion of a winding up of the Company, the Company will be dissolved and any money (including unclaimed distributions) standing to the account of the Company, will be paid into court within one month of dissolution.

37.1.8 Following the completion of the winding up of the Company, the ACD shall notify the Registrar of Companies and shall notify the FCA that it has done so.

37.1.9 Following the completion of a winding up of the Company, the ACD must prepare a final account showing how the winding up took place and how the Scheme Property was distributed. The auditors of the Company shall make a report in respect of the final account stating their opinion as to whether the final account has been properly prepared. This final account and the auditors' report must be sent to the FCA, to each shareholder and, in the case of the winding up of the Company, to the Registrar of Companies within two months of the termination of the winding up.

- 38.2.1 Allocations of income are made in respect of the income available for allocation in each accounting period on or before the annual income allocation date of 30 June and on or before the interim allocation date of 31 December in each year.
- 38.2.2 The ACD may at its option carry out any authentication procedures that it considers appropriate to verify, confirm or clarify shareholder payment instructions relating to dividend payments. This aims to mitigate the risk of error and fraud for the Company, its agents or Shareholders. - 38.2.3 If the ACD is not satisfied with any verification or confirmation, it may decline to execute the relevant dividend payment until satisfaction is obtained. Neither the ACD nor the Company shall be held responsible to the Shareholder or anyone if it delays execution or declines to execute dividend payments in these circumstances.
- 38.2.4 For Share Classes in which accumulation shares are issued, income will become part of the capital property of the Company and will be reflected in the price of each such accumulation share.
- 38.2.5 If a distribution remains unclaimed for a period of six years after it has become due, it will be forfeited and will revert to the Company, and if no longer in existence then to the Company.
- 38.2.6 The amount of income available for allocation in any accounting period is calculated by taking the aggregate of the income received or receivable for the Company in respect of that period, and deducting the charges and expenses paid or payable out of income in respect of that accounting period. The ACD then makes such other adjustments as it considers appropriate (and after consulting the auditors as appropriate) in relation to taxation, income equalisation, income unlikely to be received within 12 months following the relevant income allocation date, income which should not be accounted for on an accrual basis because of

lack of information as to how it accrues, transfers between the income and capital account and any other adjustments which the ACD considers appropriate after consulting the auditors.

VT GREYSTONE CONSERVATIVE MANAGED FUND

Investment Objective and Policy

The investment objective of the Company is to achieve positive returns by utilising a conservative approach to investment through a diversified portfolio of transferable securities, fixed interest securities, money market instruments, deposits, currencies and unregulated collective investment schemes to the extent allowed by the FCA Rules and selected from a global market place.

The Company will primarily invest in collective investment schemes with exposure to UK equities, international equities, absolute return strategies and fixed interest investments. APPENDIX 2

1 Investment and borrowing powers of the Company

These restrictions apply to the Company.

1.1 Investment restrictions

The property of the Company will be invested with the aim of achieving its investment objective but subject to the limits on investment set out in the FCA Regulations and its investment policy. These limits apply to the Company as summarised below:

1.1.1 Generally the Company will invest in the investments to which it is dedicated including units in collective investment schemes and up to 100% of the scheme property can be invested in deposits and cash.

1.1.2 Eligible markets are regulated markets or markets established in an EEA State which are regulated, operate regularly and are open to the public; and markets which the ACD, after consultation with the Depositary, has decided are appropriate for the purpose of investment of or dealing in the property of the Company having regard to the relevant criteria in the FCA Regulations and guidance from the FCA. Such markets must operate regularly, be regulated, recognised, open to the public, adequately liquid and have arrangements for unimpeded transmission of income and capital to or to the order of the investors. The eligible securities and derivatives markets for the Company are set out in Appendices 4 and 5.

1.1.3 New eligible securities markets may be added to the existing list in accordance with the FCA Rules.

1.2 Transferable securities

1.2.1 The Company may invest in transferable securities which are admitted to or normally dealt on Eligible Markets. Up to 20% in value of the Scheme Property can be invested in transferable securities which are not approved securities. Save

as set out in 1.3.1 below, up to 10% of the Scheme Property may be invested in transferable securities issued by any single body.

1.2.2 The limit of 5% in 1.2.1 is raised to 25% in value of the scheme property in respect of covered bonds.

1.2.3 A transferable security is an investment falling within article 76 (Shares etc), article 77 (Instruments creating or acknowledging indebtedness), article 78 (Government and public securities), article 79 (Instruments giving entitlement to investments) and article 80 (Certificates representing certain securities) of the Regulated Activities Order.

1.2.4 An investment is not a transferable security if the title to it cannot be transferred, or can be transferred only with the consent of a third party.

1.2.5 In applying paragraph 1.2.3 to an investment which is issued by a body corporate, and which is an investment falling within articles 76 (Shares, etc) or 77 (Instruments creating or acknowledging indebtedness) of the Regulated Activities Order, the need for any consent on the part of the body corporate or any members or debenture holders of it may be ignored.

1.2.6 An investment is not a transferable security unless the liability of the holder of it to contribute to the debts of the issuer is limited to any amount for the time being unpaid by the holder of it in respect of the investment.

1.3 **Government and public securities**

1.3.1 **Up to 100% of the Scheme Property may be invested in government and public securities issued by or on behalf of or guaranteed by a single named issuer which may be one of the following: the government of the United Kingdom and Northern Ireland and the governments of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Liechtenstein, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, United Kingdom; or by or on behalf of the Governments of Australia, Canada, Japan, New Zealand, Switzerland or the United States of America.**

If more than 35% in value of the Scheme Property is invested in government and public securities issued by any one issuer other than the ones listed above at Clause 1.3.1, no more than 30% in value of the scheme property of the Company may consist of such securities of any one issue and the scheme property must include at least six different issues whether of that issuer or another issuer.

1.4 Collective Investment Schemes

- 1.4.1 Up to 100% in value of the scheme property of the Company may be invested in units in other schemes. The Company may be invested in schemes managed or operated by the ACD or its associates, (including an ICVC whose operator is the ACD or an associate of the ACD), subject to the rules contained in COLL 5.6.11. The Company may invest in collective investment schemes, established anywhere, provided the investee scheme (1) satisfies the conditions necessary for it to enjoy the rights conferred by the UCITS Directive; or (2) is a non-UCITS retail scheme; or (3) is a recognised scheme; or (4) is constituted outside the United Kingdom and the investment and borrowing powers of which are the same or more restrictive than those of a non-UCITS retail scheme; or (5) is a scheme not falling within (1) to (4) and in respect of which no more than 20% in value of the scheme property (including any transferable securities which are not approved securities) is invested.
- 1.4.2 In addition the investee scheme must operate on the principle of the prudent spread of risk, must be prohibited from having more than 15% in value of its scheme property consisting of units in collective investment schemes and its participants must be entitled to have their units redeemed in accordance with the scheme at a price related to the net value of the property to which the units relate and determined in accordance with the scheme.
- 1.4.3 The Company may invest in units of collective investment schemes and pay any related charges or expenses for investing in such units unless the schemes are managed, operated or administered by the ACD (or one of its associates) in which case, the Company will pay no additional management or administrative charges to the ACD or its associate (as the case may be).

1.5 **Warrants and nil and partly paid securities**

A warrant (“the proposed warrant”) falls within any power of investment only if, on the assumptions that:

1.5.1 there is no change to the Scheme Property between the acquisition of the proposed warrant and its exercise; and

1.5.2 the rights conferred by the proposed warrant and all other warrants forming part of the Scheme Property at the time of the acquisition of the proposed warrant will be exercised (whether or not it is intended that they will be),

it is reasonably foreseeable that the right conferred by the proposed warrant could be exercised by the Company without contravening the rules in Chapter 5 of the FCA Regulations.

1.5.3 A transferable security on which any sum is unpaid falls within a power of investment only if it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the Company, at the time when payment is required, without contravening the rules in COLL 5 of the FCA Regulations.

1.5.4 A warrant which is an investment falling within article 80 of the Regulated Activities Order (Certificates representing certain securities) and which is akin to an investment falling within article 79 (Instruments giving entitlement to investments) of the Regulated Activities Order may not be included in the scheme property unless it is listed on an eligible securities market.

1.5.5 Not more than 5% in value of the scheme property is to consist of warrants.

1.6 **Money market instruments**

1.6.1 Up to 100% in value of the scheme property of the Company can consist of money market instruments which are admitted to or normally dealt on Eligible Markets. Up to 20% in value of the scheme property of the Company can be invested in money market instruments which are not approved securities or

money market instruments which are liquid and have a value which can be determined accurately at any time.

- 1.6.2 Notwithstanding the above, up to 10% of the scheme property of the Company may be invested in money market instruments issued by any single body.

1.7 **Deposits**

Up to 100% in value of the scheme property of the Company can consist of deposits of which not more than 20% is to consist of deposits with a single body. The Company may only invest in deposits with an approved bank and which are repayable on demand, or have the right to be withdrawn, and maturing in no more than 12 months.

1.8 **Derivatives and forward transactions**

- 1.8.1 **Derivative transactions may be used for efficient portfolio management² only. This will not compromise the risk profile of the Company. Use of derivatives will not contravene any relevant investment objectives or limits.**

In broad terms, the FCA Regulations permit the following techniques:

² Efficient Portfolio Management (“EPM”) transactions may involve options, futures or contracts for differences or forward transactions in accordance with the FCA Regulations. There is no limit on the amount of the property of a Scheme which may be used for these purposes, but there are various requirements which must be satisfied. The specific aims of EPM are:

- (a) the reduction of risk - to hedge against either price or currency fluctuation to avoid volatility in the market and limit the down side of the risk;
- (b) the reduction of cost; and
- (c) the generation of additional capital or income for a Scheme with a risk level which is consistent with the risk profile of a Scheme and the risk diversification rules laid down in the Collective Investment Schemes sourcebook.

The transaction must be economically appropriate for the purposes of EPM and any exposure must be fully covered by cash or other property sufficient to meet any obligation to pay or deliver that could arise

1.8.2 Except as set out in 1.8.5 and 1.8.7 below there is no upper limit on the use of transactions in derivatives or forward transactions for the Company but they must fall under 1.8.3 and 1.8.4.

1.8.3 A transaction in a derivative or forward transaction must:

- (1)
 - (a) if an OTC, be in an approved derivative; or
 - (b) be in a future, an option or a contract for differences which must be entered into with a counterparty that is acceptable in accordance with the FCA Regulations, must be on approved terms as to valuation and close out and must be capable of valuation.
- (2) have the underlying consisting of any or all of the following to which the Company is dedicated:
 - (a) transferable securities;
 - (b) permitted money market instruments;
 - (c) permitted deposits;
 - (d) permitted derivatives;
 - (e) permitted collective investment scheme units;
 - (f) financial indices;
 - (g) interest rates;
 - (h) foreign exchange rates; and
 - (i) currencies.
- (3) be effected on or under the rules of an eligible derivatives market, it must not cause the Company to diverge from its investment objectives, must not be entered into if the intended effect is to create the potential for an uncovered sale of one or more transferable securities, money market instruments, units in collective investment schemes, or derivatives and must be with an approved counterparty.

Use of derivatives must be supported by a risk management process maintained by the ACD which should take account of the investment objectives and policy of the Company.

1.8.4 The ACD must ensure that the global exposure relating to derivatives and forward transactions held in the Company does not exceed the net value of the scheme property. The ACD must calculate the global exposure on a daily basis taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. The ACD must calculate the global exposure of the Company either as:

- (1) the incremental exposure and leverage generated through the use of derivatives and forward transactions (including embedded derivatives), which may not exceed 100% of the net value of the scheme property; or
- (2) the market risk of the scheme property.

The ACD must calculate the global exposure of the Company by using either the commitment approach or the value at risk approach ensuring the selected method is appropriate taking into account the investment strategy, the types and complexities of the derivatives and forward transactions used and the proportion of the scheme property comprising derivatives and forward transactions.

Where the Company employs techniques and instruments including repo contracts or stock lending transactions in order to generate additional leverage or exposure to market risk, the ACD must take those transactions into account when calculating global exposure.

1.8.5 The exposure to any one counterparty in an OTC derivative transaction must not exceed 10% in value of the scheme property of the Company.

1.8.6 In applying the limits in 1.8, the exposure in respect of an OTC derivative may be reduced to the extent that collateral is held in respect of it provided the collateral meets each of the following conditions:

- 1.8.6.1 it is marked-to-market on a daily basis and exceeds the value of the amount at risk;
- 1.8.6.2 it is exposed only to negligible risks (e.g. government bonds of first credit rating or cash) and is liquid;

- 1.8.6.3 it is held by a third party custodian not related to the provider or is legally secured from the consequences of a failure of a related party; and
 - 1.8.6.4 can be fully enforced by the Company at any time.
- 1.8.7 Not more than 20% of the Company is to be put at risk in respect of an exposure from an OTC derivative transaction to a single entity or one or more such entities within a group, after taking into account any collateral received from that entity or group, both at individual level or group level.
- 1.8.8 In applying the limits in 1.8, OTC derivative positions with the same counterparty may be netted provided that the netting procedures:
 - 1.8.8.1 comply with the conditions set out in Section 7 (Contractual netting Contracts for novation and other netting agreements) of Annex III to the Banking Consolidation Directive; and
 - 1.8.8.2 are based on legally binding agreements.
- 1.8.9 All derivative transactions are deemed to be free of counterparty risk if they are performed on an exchange where the clearing house meets each of the following conditions:
 - 1.8.9.1 it is backed by an appropriate performance guarantee; and
 - 1.8.9.2 it is characterized by a daily mark-to-market valuation of the derivative positions and at least daily margining.
- 1.8.10 No agreement by or on behalf of the Company to dispose of property or rights may be made unless:
 - 1.8.10.1 the obligation to make the disposal and any other similar obligation could immediately be honoured by the Company by delivery of property or the assignment (or, in Scotland, assignation) of rights; and

- 1.8.10.2 the property and rights at 1.8.10.1 are owned by the Company at the time of the agreement.
- 1.8.11 1.8.10.1 and 1.8.10.2 do not apply to a deposit. They also do not apply where:-
- 1.8.11.1 the risks of the underlying financial instrument of a derivative can be appropriately represented by another financial instrument and the underlying financial instrument is highly liquid; or
- 1.8.11.2 the ACD or the Depositary has the right to settle the derivative in cash and cover exists within the scheme property which falls within one of the following asset classes:
- (i) cash;
 - (ii) liquid debt instruments (e.g. government bonds of first credit rating) with appropriate safeguards (in particular, haircuts); or
 - (iii) other highly liquid assets which are recognised considering their correlation with the underlying of the financial derivative instruments, subject to appropriate safeguards (e.g. haircuts where relevant).
- 1.8.12 In the asset classes referred to in 1.8.11.1 and 1.8.11.2, assets may be considered as liquid where the instruments can be converted into cash in no more than seven Dealing Days at a price closely corresponding to the current valuation of the financial instrument on its own market.
- 1.9 **General**
- 1.9.1 Underwriting and sub-underwriting contracts and placings may also, subject to certain conditions set out in the FCA Regulations, be entered into for the account of the Company.
- 1.9.2 Cash or near cash must not be retained in the scheme property of the Company except in order to enable the pursuit of its investment objective; or for redemption of shares in the Company; or efficient management of the Company in

accordance with its investment objective or for a purpose which may reasonably be regarded as ancillary to its investment objectives.

- 1.9.3 The aggregate value of investments in deposits and cash may be up to 100% of the value of the scheme property (to the extent that this would not affect its ability to be held within the stocks and shares component of an ISA).
- 1.9.4 Leverage is limited to overdraft use and the gross exposure from EPM techniques. Although the ACD may use derivatives for EPM, no collateral arrangements are currently in place and no asset re-use arrangements are in place.
- 1.9.5 The maximum leverage expressed as the ratio of the exposure to net asset value using the commitment method is 1.1:1.0 and using the gross method 3.3:1.0. *Please note that the maximum leverage under the gross method is theoretical and would only occur if market risk and currency risk were hedged across the entire Company whilst it was using the maximum borrowing facility of 10%. It is not anticipated that both market risk and currency risk would be simultaneously hedged and therefore the likely maximum leverage which would be used in normal circumstances using the commitment method is 1.1:1.0 and using the gross method 2.2:1.0.*

2 Stock lending

The Company will not enter into stock lending transactions.

3 Borrowing powers

- 3.1 The Company may, subject to the FCA Regulations, borrow money from an eligible institution or an approved bank for the use of the Company on the terms that the borrowing is to be repayable out of the scheme property.
- 3.1.1 The ACD must ensure that borrowing does not, on any Dealing Day, exceed 10% of the value of the scheme property of the Company.
- 3.2 These borrowing restrictions do not apply to “back to back” borrowing to be cover for transactions in derivatives and forward transactions.
