VT NORTH CAPITAL ACTIVE EQUITY FUND

30 SEP 2020

FUND OVERVIEW

The investment objective of the Fund is to achieve capital growth over the long term (5+ years). The Fund will seek to achieve its objective by investing at least 80% in collective investment funds (such as OEICS, Unit Trusts and Investment Trusts) which will provide exposure to equities.

The Fund may also invest in equities, fixed income, money market instruments, deposits, cash and near cash.

The Fund will be actively managed. The funds which it will invest in, will be selected based on the Investment Manager's assessment as to wider market conditions and, which investments will best assist in achieving the Fund's objectives.

RISK WARNINGS

Investment markets can go down as well as up and market conditions can change rapidly. The value of an investment in the Fund, and any income from it, can fall as well as rise and investors may not get back the amount invested.

The specific risks associated with the Fund include:

- The Fund has exposure to foreign currencies and changes in the rates of exchange will cause the value of any investment, and income from it, to fall as well as rise and you may not get back the amount invested.
- Custody of assets, particularly in emerging markets, involves a risk of loss if the custodian becomes insolvent or breaches duties of care.
- The Fund's concentrated portfolio relative to similar funds may result in large movements in the share price in the short-term.
- The Fund's share price can be volatile due to movements in the prices of the underlying holdings and the basis on which the Fund is priced.
- The Fund invests in emerging markets where difficulties in dealing, settlement and custody could arise, resulting in a negative impact on the value of your investment.

Further details of the risks associated with investing in the Fund can be found in the Key Investor Information Document at www.valu-trac.co.uk/northcapital
