

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT Shackleton Equity Focus Fund (the "Fund")

a sub-fund of VT Shackleton ICVC (the "Company")

C Accumulation Shares (ISIN: GB00BT24MS49)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited.

Objectives and Investment Policy

The Fund aims to achieve capital growth, net of fees, over any rolling seven-year period.

The Fund is actively managed and invests (directly and/or indirectly) predominantly in equity securities (i.e. shares) and equity-related securities (i.e. other investments whose value is related to equities) such as collective investment schemes (CIS), Exchange Traded Funds (ETFs) and Investment Trusts.

It is expected that the Fund's exposure to equity and equity-related securities will typically be between 80% and 100% of the funds' assets (in normal market conditions) and will include equities in emerging markets (which are markets in countries whose economies are progressing towards becoming advanced).

The Fund may also invest directly or indirectly in fixed-income securities (i.e. corporate and government bonds), fixed-income-related securities (i.e. other investments whose value is related to debt), money market instruments (i.e. debt securities with short-term maturities) and cash. The fund may also invest indirectly in other asset classes such as property, commodities, infrastructure, private equities using instruments such as UCITS-compliant collective investment schemes (which may include those managed or advised by the ACD or Investment Manager), Exchange Traded Commodities (ETC) and Exchange Traded Notes (ETN).

The Fund may invest globally without geographic, sectoral or market capitalisation restrictions.

In exceptional circumstances, including periods of significant market stress, reduced market liquidity, or unusually large redemptions or subscriptions, the Fund may temporarily hold a higher proportion of its assets in cash, cash equivalents, or money market funds than would normally be the case. During such periods the Fund may also deviate from its typical asset allocation ranges where this is considered by the ACD to be in the best interests of shareholders, and to maintain the ongoing liquidity and orderly management of the Fund. The Fund will return to its normal investment positioning as soon as reasonably practicable.

Derivatives and forward transactions (sophisticated investment instruments linked to the rise and fall of the price of other assets) may be used for efficient portfolio management purposes including hedging (although it is expected that use of derivatives will be limited).

You can buy and sell shares in the Fund on any business day.

Any income from the Fund will be re-invested to grow the value of your investment.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower Risk				Higher Risk		
Typically lower rewards				Typically higher rewards		
1	2	3	4	5	6	7

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 5 because simulated monthly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically. (For the avoidance of doubt, the risk indicator is calculated on a different basis to the benchmark.)

The following risks are material in addition to the risks captured by the indicator above:

- **Counterparty risk:** The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- **Market Risk:** External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- **Currency Risk:** As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- **Liquidity Risk:** adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of the assets.
- **Derivatives risk:** use of derivatives may result in gains or losses that are greater than the original amount invested.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	Nil
Exit Charge	Nil

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing Charges	0.70%

Charges taken from the fund under specific conditions	
Performance Fee	Nil

As the fund is to launch on 24 July 2026, the ongoing charges figure is an estimate. This figure may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

For more information about charges, please see sections 3.7 & 7 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

Past Performance

Past performance is not a guide to future performance.

The share class and Fund are both to launch on 24 July 2026. Accordingly, there is insufficient data to provide a useful indication of past performance to investors.

Performance is calculated in Pound Sterling.
