

VT Tyndall European Unconstrained Fund

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT Tyndall European Unconstrained Fund (the "Fund")

a sub-fund of VT Investor Funds ICVC (the "Company")

Class Z Accumulation Shares (ISIN: GB00BK97Q470)

Class Z Income Shares (ISIN: GB00BK97Q926)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The investment objective of the Fund is to generate income and capital growth over the long term (5 years).

The Fund will seek to achieve its objective by investing at least 75% in equities issued by companies based in developed European markets (being member states of the European Union, Norway, Switzerland or the United Kingdom). The Fund may also invest in emerging and frontier European markets including Turkey, Russia and Iceland.

The Fund may also invest in government securities, fixed income, closed ended collective investment schemes/vehicles (which may include those managed and/or operated by the ACD and which will provide exposure to various asset classes including equities and bonds), real estate investment trusts, money market instruments, deposits, cash and near cash.

The Fund will be actively managed.

Save as noted above, the Fund will not have any particular industry or economic sector focus and as such weightings in these may vary as required.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) may be used for efficient portfolio management and hedging purposes.

You can buy and sell shares in the Fund on any business day.

If you hold accumulation shares, income from the Fund will be added to the value of your investment (i.e. dividend income will be included in the value of your shares).

If you hold income shares, any income from the Fund will be distributed quarterly.

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower Risk				Higher Risk		
Typically lower rewards				Typically higher rewards		
1	2	3	4	5	6	7

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 5 because monthly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Currency Risk: As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.
- Derivatives risk: use of derivatives may result in gains or losses that are greater than the original amount invested

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.
