

# VT Tyndall Global Select Fund

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### VT Tyndall Global Select Fund (the "Fund")

a sub-fund of VT Tyndall Funds ICVC (the "Company")

Class A – Accumulation Shares (ISIN: GB00BGRCF168)

Class A – Income Shares (ISIN: GB00BGRCF275)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

## Objectives and Investment Policy

The investment objective of the Fund is to achieve long-term capital growth, which should be seen as five years plus, through both capital appreciation and income generation. There is no guarantee that the Fund will achieve a positive return over this, or any other, period and investors may not get back the original amount they invested.

In seeking to achieve the Fund's objective, the portfolio will consist predominantly (75% or greater) of listed companies in high-income economies (as defined by the World Bank from time to time). The investments will be ordinary shares and other transferable securities including, but not limited to, preference shares and debt securities convertible into ordinary stocks and shares. The Fund may also invest in cash, money market instruments, deposits, warrants and units in other collective investment schemes.

The Fund will typically consist of between 25-50 holdings and may also invest in companies which are not listed in high-income economies if the investment manager believes that they should be beneficial for the Fund.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of one or more underlying assets) may be used for efficient portfolio management purposes.

If you hold income shares any income from the Fund may be paid out to you.

If you hold accumulation shares, any income from the Fund will be re-invested to grow the value of your investment.

You can buy and sell shares in the Fund on any business day.

For full investment objectives and policy details please refer to the prospectus.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

## Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower Risk				Higher Risk		
Typically lower rewards				Typically higher rewards		
1	2	3	4	5	6	7

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 5 because weekly historical performance data indicates that it has experienced relatively high rises and falls in market prices historically.

The following risks are material in addition to the risks captured by the indicator above:

- **Counterparty risk:** The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- **Market Risk:** External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- **Liquidity Risk:** adverse market conditions may affect the ability to sell certain assets when necessary.
- **Concentration Risk:** The Fund may hold a small number of investments and may therefore be subject to larger than normal movements in its value.
- **Derivatives Risk:** use of derivatives may result in gains or losses that are greater than the original amount invested.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in "Practical Information" overleaf.

# VT Tyndall Global Select Fund

## Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	0%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing Charges	1.52%

Charges taken from the fund under specific conditions	
Performance Fee	Nil

The ongoing charges figure is based on expenses and the net asset value as at 30 June 2025. This figure may vary from year to year. The ongoing charges are taken from the capital of the Fund. It excludes portfolio transaction costs.

The Fund's annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see sections 3.6 & 7 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

## Past Performance

### Past performance is not a guide to future performance.

The Fund and the A Accumulation share class was launched on 30 September 1993. The A Income share class was launched on 4 May 2010.

The past performance in the chart shown opposite is inclusive of tax and charges.

Performance is calculated in Pound Sterling.

Performance data prior to 15 December 2018 sourced from FundRock Partners Limited.

## Practical Information

The depositary for the Fund is NatWest Trustee and Depositary Services Limited.
