

Valu-Trac Investment Management Limited

Annual Assessment of Value Statement as at 30 September 2023

VT Greystone Cautious Managed

Fund Information

Investment Manager:	Foundation Investment Management Ltd
Authorised Fund Manager:	Valu-Trac Investment Management Limited (Valu-Trac)
Investment Objective:	The investment objective of the Company is to achieve positive returns through capital growth and income over the medium to long term (5 years).
Investment Policy:	The Company will aim to achieve its objective by investing at least 70% in a range of collective investment vehicles (including exchange traded funds, investment trusts and funds managed and/or operated by the ACD or Investment Manager) providing exposure (indirectly) to asset classes including fixed interest investments, equities, and alternative assets such as absolute return strategies, commodities and property. The Company will be actively managed and the investments will be selected to achieve a mix of growth and defensive assets. There will be a balance between investing in defensive assets (such as fixed interest and cash (and collective investment schemes investing in such assets)) and growth assets (such as equities (and collective investment schemes investing in such assets)). A minimum of 30% of the portfolio will be exposed to fixed income and cash. Equity exposure within the portfolio is expected to be between 20% and 60%. The Company may also invest directly in equities, fixed income, money market instruments, deposits, cash and near cash. The Company will not have any particular geographic, industry or economic sector focus and as such weightings in these may vary as required.
AUM (£):	£48.1m
Fund Launch Date:	24/07/2009

Our assessment has been conducted against the seven criteria outlined by the FCA and the fund has been rated via the "traffic light" system. Where a fund may have more than one unit class, the rating shown for each of these seven criteria, at a total fund level, may be thought of as being as being an average rating, based upon the rating for each unit class, and according to the relative split of fund assets, between unit classes. The overall rating for the fund will generally be a simple average of these seven criteria, taken at the total fund level. This has been summarised within the table, below:

VT Greystone Cautious Managed Fund	AUM (%)	Quality of Service	Performance	AFM costs - general	Economies of scale	Comparable market rates	Comparable services	Classes of units	Overall
Overall	100.0%	G	R	G	G	A	G	G	A
R Accumulation	89.2%	G	R	G	G	A	G	G	A
R Income	10.8%	G	R	G	G	A	G	G	A

The table below shows the overall summary for the previous assessment i.e. carried out as at 30 September 2022:

Detailed Assessment

Quality of Service

The AFM has chosen to outsource the following services to third party providers:

- Investment Management services: Foundation Investment Management Ltd.
- Depositary services: NatWest Trustee and Depositary Services Limited
- Custodian services: RBC Investor Services Trust, UK branch (RBC)
- External audit: Johnston Carmichael LLP

Other functions such as fund administration, fund accounting and transfer agency are undertaken by Valu-Trac, and all outsourced services are subject to continuous oversight.

As part of our assessment of service providers, no systemic issues have been identified as part of our ongoing due diligence, including an assessment of investment breaches, pricing errors, complaints, fund liquidity and ongoing adherence to the investment policy.

Conclusion:

Green

The AFM has concluded that all services being provided in relation to the on-going management and administration of the fund, including those provided directly and those currently being provided by third parties, are operating as unitholders may expect.

The AFM has concluded that unitholders are receiving good value, in relation to Quality of Service.

The AFM has referred to both internal and external data sources for performance statistics, where the AFM has deemed this to be appropriate

Conclusion:

Red

Neither unit class within the fund has succeeded in providing capital growth over the minimum recommended holding period.

Each unit class within the fund has succeeded in generating income over the minimum recommended holding period.

The net total return of each unit class within the fund is significantly below that of its performance comparator benchmark, over the minimum recommended holding period.

The AFM has also assessed the investment risk within the Fund. The AFM notes that the released volatility within the fund is significantly higher than that of peers. The AFM also notes that the market risk (beta) exposure within the fund is notably greater than that of peers.

The AFM will discuss the drivers of long-term performance and investment risk, and trends in long term performance and investment risk, with the Investment Manager, at the next scheduled Investment Manager meeting.

The AFM has concluded that unitholders are not receiving good value, in relation to Performance.

AFM Costs - General

Each unit class within the Fund has its own Annual Management Charge (AMC). The AMC may be thought of as being the amount deducted from a unit class's average net assets to pay for the investment management of that unit class; this charge will typically include a proportionate allocation from the Investment Management Fee, AFM fee and other, ancillary fees.

The current AMC of each unit class, together with the current, average AMC for the relevant, selected peer group, is shown within the table below:

Annual Management Charge (AMC)	Current				
Allitual Management Charge (AMC)		Peer Rank			
Peer Group	0.83%	-			
R Accumulation	0.75%	Lowest 41%			
R Income	0.75%	Lowest 41%			

Source: Valu-Trac / Morningstar

Conclusion:

Green

The Investment Management Fee is proposed by Foundation Investment Management Ltd. Owing to the limitations of the host AFM model which the AFM operates, the AFM is unable to comment upon the specific profit margin this fee may generate for Foundation Investment Management Ltd; instead, the AFM will focus upon ensuring that this fee appears reasonable, in the context of the overall AMC.

The AFM fee is payable to Valu-Trac to cover the services undertaken by Valu-Trac as outlined in the Quality of Service section. The AFM will set fees based on the overall cost of operating the business. Most of the AFM's costs are fixed (such as staff and property costs), and the AFM will set its fees in such a way that ensures the costs are apportioned fairly across the range of funds which it operates. The AFM reviews its fee model via various means, such as through external independent consultancy and market benchmarking reviews against similar firms in the market. The results of these reviews are incorporated into the AFM's governance arrangements, up to Board level.

Other notable, ancillary fees may include the depositary, custodian, and auditor fees. The AFM regularly reviews these fees compared to other funds operated by the AFM and, where the information is available, other funds within the wider marketplace, to ensure that they remain competitive.

Unitholders are currently paying an AMC lower than the market average for similar funds.

The AFM has concluded that unitholders are receiving good value, in relation to AFM Costs – General.

Economies of Scale

The fund currently has assets under management (AUM) of less than £250m; this is the threshold above which, we generally consider it reasonable to consider if economies of scale have been passed on to investors.

The fund has a tiered depositary fee, subject to a minimum amount, alongside other fixed fees, such as audit fees. Therefore, as the fund AUM grows, the proportion of such costs, relative to overall fund size, will decline, in percentage terms.

Conclusion:

Green

The AFM has concluded that unitholders are receiving good value, in relation to Economies of Scale.

Comparable Market Rates

The current and historic Ongoing Charges Figure (OCF) for each unit class within the fund, together with the current, average OCF for the relevant, selected peer group, is shown within the table, below:

On-Going Charges Figure (OCF)	2021	2022	Current			
on doing charges rigare (oct)	2021	2022		Peer Rank		
Peer Group			1.16%	-		
R Accumulation	1.43%	1.33%	1.27%	Highest 37%		
R Income	1.43%	1.33%	1.27%	Highest 37%		

Source: Morningstar

Conclusion

Amber

The OCF includes the costs of underlying funds held. This is currently estimated at 0.46%, but can change as the underlying investments made, change.

Unitholders are currently paying an OCF higher than the market average for similar funds.

The AFM will discuss the level, and composition, of the OCF with the Investment Manager at the next scheduled Investment Manager meeting.

The AFM has concluded that unitholders are receiving reasonable value, in relation to Comparable Market Rates.

Comparable Services

Valu-Trac act as AFM for four funds for which Foundation Investment Management Ltd are the Investment Manager. Some funds are what may be termed multi-asset funds and others are what may be termed single asset class funds. This fund may be considered a multi-asset fund.

Differences between such multi-asset funds, in terms of their management approach anticipated risk profile, notwithstanding, this fund is priced consistently with other funds within that range.

The services provided in respect to this fund are also aligned with the AFM's normal operating model.

Conclusion

Green

The AFM has concluded that unitholders are receiving good value, in relation to Comparable Services.

Classes of Units

There is only one type of unit class in this fund (albeit having an Accumulation and Income variant) and all investors are offered the same level of service; therefore, all unitholders of this fund are treated equally in all respects.

Conclusion

Green

The AFM has concluded that unitholders are receiving good value, in relation to Classes of Units.

Overall Assessment

Amber

The AFM has concluded that unitholders are receiving good value in respect to five of the seven, discrete criteria assessed above i.e. each has been assessed as green.

With regard to Performance, the AFM will discuss the drivers of long-term performance and investment risk, and trends in long term performance and investment risk, with the Investment Manager, at the next scheduled Investment Manager meeting.

With regard to Comparable Market Rates, the AFM will discuss the level, and composition, of the OCF with the Investment Manager, at the next scheduled Investment Manager meeting.

The AFM has concluded that the unitholders within the VT Greystone Cautious Managed Fund are receiving reasonable value, overall.
